We apologize for the delay of the English version of issues nos. 231 and 232 as we did have a few technical problems and moreover some of the editors, particularly Maurizio (I1-21171), who regularly attends to the translation, were participating in the HF-DX & IOTA Convention. A vote of warm and heartfelt thanks to all the friends attending the Convention - their presence has contributed a lot to the success of the event!

PA3DUU and ON6TT will arrive to Perth, Western Australia, on Sunday 22 October, while the rest of the group will reach them a week later. Most of the equipment is already in Australia since last 12 October, while other material from Canada and Easter Island is previously arrived. Last container from Belgium will arrive to Perth in next few days. Then all the necessary will be embarked on the ship, for the departure planned the 1st of November. All the new technologies used in the Easter Island (XR0Y) will be used from Heard Island. A beacon using the VK6DIR/MM call will be activated as soon as the ship weighs anchor. There will be also an homepage on Internet where logs can be consulted to see if you are on, receiving confirmations via e-mail. Details will be given later. The arrive to Heard Island is planned on 12 November but the land depends on the sea and weather conditions. The departure is planned on 1 December. QSL manager will be W4FRU. As for the Peter I operations (3Y0PI) there will be a net of stations to ask for and to give information on the expedition, propagation condition, best hours for different areas, etc. This net will be leaded by ON4UN, who is also the control station for Europe. The others will be WB2DND (east coast), WA0PUJ (midwest-north), K0EU (midwest-south), WA2FIJ (west coast) and JH1ROJ (Japan). They will be constantly connected with the operational base on Heard Island through the satellite PACSAT system and the amateur satellites, used also for Internet to/from messages. You are invited to send your own comment to the control station of your zone: comments about beacon, hours you noted maximum signal from Heard, signals level, criticism and suggestion to operators. The operational base will also have a di-

rect telephone connection through Inmarsat satellites (fax/voice/data) to allow the Internet access and other emergency communications. The station will be equipped with three FT-1000MP and three FT-900, four Alpha 81B amplifiers, six computers, two Yagi tribands A3S, monobands Yagi three elements for 15 and 20 meters, two elements for 40 meters, a three element yagi for WARC bands, a multi-bands vertical R7, a Battle Creek Special and others made by ON4UN for 80/160 meters. - 5X - Paul, 5X4F will be outside the Uganda until the 24 October but he plans to back for joining the CQWW SSB Contest. Paul, who will remain in Uganda for another year, is active on 160 meters: find him on 1831 KHz (split 1-2 up), about 2030 UTC. Paul asks to not repeat 160 meters QSOs.
- 70 - Carl, WB4ZNH, and his wife Martha, WN4FVU, have been recently in Yemen to investigate the possibility of an operation but they gave no permission to operate. However Carl is confident and he thinks that a future operation will obtain the permission probably next year. A club station is ready and completely equipped, waiting only for the permission.
- 8P - At the end of October, K4FJ and K3KG will be active respectively as

8P9HR and 8P9HU from Barbados (NA-021). It is also planned the joining to CQWW SSB Contest using the 8P9Z call. QSL for 8P9HR and 8P9Z via K4BAI; QSL for 8P9HU via K3KG.

- 8P - From 21 to 28 November John, K4BAI, will be active from Barbados using the 8P9HT call. John will give particular attention to WARC bands and will join the CQWW CW Contest as 8P9Z in the single operator/all bands category. QSL via homecall.
- 9N - From 23 to 31 December Mine, JA2NQG will be active from Katmandu, Nepal, using the 9N1CT or 9N1NQ call. Mine will give particular attention to 160 meters.
- 9Q - Alex, 9Q2L (PA3DZN), will join the CQWW DX SSB Contest (28-29 October) using the 9R1A call, in the Single Operator/Single Band category (band is not yet known). QSL via PA3DMH.
- 9U - F5FHI and EA1FH want to be QRV from Burundi during next CQWW DX Contests, both SSB and CW, on all HF bands (160 meters included).

425-DX-NEWS LOGO ---> Many readers are using the "425 DX News" logo on their QSLs. This is a great pleasure for us and we should thank them for the support that promote this Italian DX Bulletin.

JARTS RTTY CONTEST ---> The 21-22 October is planned the JARTS WW RTTY CONTEST. The contest starts at 00.00 UTC of Saturday and ends at 24.00 UTC of Sunday. Activities on five bands from 10 to 80 meters (RTTY portions in Japan on 40 and 80 meters are respectively 7025-7040 KHz and 3520-3525 KHz). Exchange + the operator's age (00 for YL and 99 for multi-operators).

HEARD ISLAND T-SHIRTS ---> Peter, ON6TT, reports that the Heard Island DXpedition T-shirts are now on sale in EU. He has a stock of about 50. If the stock runs out, more will be printed when they get back. The Tshirts are of high quality, light grey colour with bright red silk screen print. The front shows the Heard DXpedition's logo. The back says: 'Antarctica Expedition = Heard Island 1995' with 'Sponsor' in large print above it. Only one size is available: XL. The price is \$25 including postage to Europe. Send requests to his address: ON6TT - Peter Casier, POBOX 1, B-9090 Melle, Belgium. Cash only (local currency is ok), no cheques pse.

IL3 ---> Alberto, IK4HPU, reports that all the QSLs for the activity from Bonello Scirocco (IIA RO-006) the 8 October have been all processed (direct or via the bureau) or personally during the Bologna DX Convention.

EA8AM ---> Luc reports that he found his call in some DX publications near the QSL manager OH1RY. It is a big mistake: OH1RY is the EA8AH's manager, not for EA8AM. QSL for EA8AM can be sent to his callbook address.

ANGUILLA, VP2E ---> The Anguilla Amateur Radio Society has a new address: AARS, P.O. Box #1, Anguilla, British West Indies. Remember that AARS has not his own QSL-bureau, but the cards received at this address will be delivered to the addressees. No warranties for a fast and safe service.

ITALY-AUSTRALIA VIA MOON? --> Jim, VK1FF, reports that the VK1 Division of Wireless Institute of Australia is planning the activation of a special

station, the 11 December 1995, to celebrate the Centennial of first experiments by Guglielmo Marconi. During this activity, the engineers and the students of the local University should like to have an EME QSO (earth-moon earth) with an ITALIAN station. The available equipments are a 10 meters size dish and high power transceivers on 70 cm and 23 cm. Those interested is kindly invited to contact as soon as possible the following addresses: packet: VK1FF@VK1KCM.ACT.AUS.AUNZ, Internet: jamesm@sw2.canberra.edu.au

3W5FM ---> Gianni, IK1NEZ, reports that he is NOT the manager of this station, for which he is receiving many QSLs.
