- HP - During the weekend, Ricardo (HP2CTM) and Jose (HP2CWB) will activate two or three islands of the San Blas Island group (NA-170), using the calls 3F0T, H80T and H00T (each one from a different island). The operations will be in CW/SSB on bands from 40 to 10 meters, WARC included. QSL via direct to HP2CWB, Jose NG Lee, P.O. Box 728, Colon, Republic of Panama.
- IG9 - Andy UA3DPX, after joining the CQWW DX SSB Contest as UA3D reports that he will be QRV during the CQWW DX CW Contest from Pantelleria as IG9A, on 40 meters band.
- III - The 25 and 26 November the friends of the Biella ARI Section will activate the special station III1BI from Oropa Sanctuary (BI). Remember that Biella is one of the most recent Italian provinces and is not so easy to be heard.
- IM0 - Wednesday 1 November, Roberto (IS0JMA) and Ruggero (IS0RUH), together with other friends of the Olbia ARI Section, were active with the IM0RUH call from Le Camere island (IIA SS-056, IOTA EU-165). QSL via IS0JMA.
- IR - Saturday 4 and Sunday 5 November, will be active the IR3MD station, transmitting from the square in front of the Campana dei Caduti, Maria Dolens of Rovereto. This QSO counts as 8 points for the award and the QSL goes to IN3BHR.
- J2 - Tom, J28ML, together with other operators is planning an expedition to a small island in Djibouti. The operations will take place from 8 to 14 December, with the J20RAD call, in CW/SSB/RTTY on all bands from 80 to 10 meters (WARC included). QSL to the Djibouti QSL bureau, P.O. Another licence will be soon issued to another missionary, with the TJ1SP call, and together they will use the FT-840 donated by ecclesiastic authorities. Currently the antenna is a simple beam for 20 meters. Darek would be happy to find an antenna tuner and an amplifier to be QRV on low bands also. - TY - Sigi, DJ4IJ, is active again as TY1IJ from last 22 October and he

will stay there until mid-November. The QSL manager for TY1IJ is DK8ZD, but attention!: the address as reported in *QRZ Ham Radio* CDROM is wrong and all request are returned to the senders.

DK8ZD's correct address is : Jochen Errulat, Berlinerstr. 31 35, D-6236 Eschborn 1, Germany.

- VE8 - From 6 to 8 November David, VE8NC, will be active from Banks Island (IOTA NA-129, C.Is.A. NW-007). Operations using 100 watts and a long wire in SSB (14260 and 7085 KHz) and RTTY (14085 and 7085 KHz)
- VK0_h - Bad news from the Heard Island DXpedition Team, currently in Australia. On 29 October KK6EK, K0IR, HB9AHL and RA3AUU joined ON6TT and PA3DUU, supported by VK6NE, VK6UE, and numerous other Australians. They have determined that the vessel that was to take them to Heard Island is not up to their standards for safety to make the journey, and they have been searching for a replacement. At the least, it will mean a delay until early 1996. A problem they may face is that much, perhaps all, of the financial investment in the vessel charter is now unavailable to them. They are pessimistic that they can recover amounts by Jan. 1 to enable them to finance another vessel. Therefore, they are simultaneously working to locate major new financial backing in order to complete the expedition this season. They face a daunting task in this regard. It is likely that some of the present team members will be unable to return in January, and therefore there may be openings for new team members. The equipment is safe. They ask for your understanding and support, as they work to find a solution to this very difficult problem. Any brilliant ideas would be most welcome!
- W2 - Sunday 5 November the N2FCZ station will be active to celebrate the 94th anniversary of the first telegraphic message sent from the RCA station in Rocky Point, New York, the biggest radio station ever built (5 November 1921). The operations are planned in CW on 7074, 7100, 14074 and 14100 KHz, from 15.00 to 23.00 UTC by two ex RCA CW operators working with all their ability. Ask them QRS if necessary. QSL via N2FCZ, Henry Bookout, 167 Sound Avenue, Riverhead, NY 11901, USA.
- ZC4 - For other two years Nick, G4OOE, will be active as ZC4EE. He is regularly active from 10 to 80 meters and he has the logs for 1985-88 years. QSL via Nick Langmead, P.O. Box 84, Dherynia 5385, Cyprus.
- ZK1_sc - From 10 to 20 November Rich, WB6UDS and Marilyn, N6VAW will be active respectively as ZK1UDS and ZK1VAW from South Cook Islands. The operations are planned in CW and SSB, from 10 to 80 meters. QSL via homecall.
- 3D2_rot- Lars, SM5BOQ, has accompanied Ron, ZL1AMO [425DXN 233] to Rotuma, from where he is active as 3D2OQ. QSL via SM5BOQ.
- 4U_itu - From 20 to 21 November, Mark (AA1AC) will operate from ITU station in Geneve.
