VK0IR - The situation at 07:27 on 23 January is 60,189 QSOs (the record set up by 3Y0PI has been broken already): 33,580 CW, 25,592 SSB, 1017 RTTY (Japan 11,287; Europe 24,976; US East Coast 11,862; US Mid West 4,733; US West Coast 3,224). VK0IR will not participate in the 160 Meter Contest: they fear they will make too many dupe QSOs, and will concentrate on 40 and 75/80 during the weekend. They may however give out a few multipliers.

C6 - Bill, KM1E will be active (6-160 metres) until 20 May as C6AGN from

Green Turtle Cay (NA-080). QSL via KA1DIG.

- CY9 - Mike, VE9AA *may* be looking to fill one or even two more operating positions for his DXpedition to St. Paul Island [425DXN 297]. Operators must be flexible and able to play well with others, must be able to run a pileup on CW and SSB while running a laptop logging program, must be able to pay their own share of the expenses and to finance own transportation to either New Brunswick or Nova Scotia and must be willing to bring their own gear/rig if necessary. A lot of priority will be given to operators with both HF & VHF-dx experience. Please contact Mike at e-mail ve9aa@brunnet.net. For the time being the team includes Mike (VE9AA), Doug (VE1PZ) and Dennis (K7BV). Operations are now scheduled for 13-21 June.
- EA - EA4ENK/P will be active from Isla La Hoya (DIEI BA-27) on 2 February. QSL via EA5OL.
- EA_ssh - Currently there are only two people at the Spanish Antarctic base Juan Carlos (WABA EA-01, Livingston Island, South Shetlands), but more are to arrive soon. It is hoped one is a licenced amateur who can operate from ED0BAE. In the meanwhile Dany (LZ0A), who is only 2 km away, is trying to help fix the equipment.
- EA9 - On 26 January (or, in case of bad weather, on February) EA9PB, EA9PD and EA9PY will be active from Islote Antonio Garcia (S-255) as ED9MAG. The activity will be dedicated to the memory of late Antonio Garcia Gutierrez, EA9TQ. QSL via EA9PB.

While I did handle the later part of his operations from Franz Josef Land he left the country about 2 weeks after my starting as his manager. I had logs only for about 900 QSO's made during those 2 weeks. I had been sending QSL's to the PO Box Sergey was using on Dixon Island as his next stop but have not heard of anyone ever receiving a QSL reply from that Box. Stations who worked 4K2KBZ during the period managed by me have already received either a direct reply to a QSL request or received a duplicate QSL via the bureau".
