YB - The DX News Sheet reports that Chris, YC8SHQ will be active in September for several years from Yamdena Island in the Tanimbar Islands (OC-???).

ZB - The DX News sheet reportas that Martyn, G3RFX will be active from Gibraltar between 3 and 10 September as ZG2FX and between 11 and 16 September as ZB2FX. QSL via home call.

***** GOOD TO KNOW ... *****

IL3/DL5MX ---> Recent IIA activities by Mike, DL5MX took place from the following islands: Ca' Venier (RO-011, 13 August), Polesine (RO-003, 13 August), Donzella (RO-001, 16 August), Boccasette (RO-014, 16 August). Mike will confirm all QSOs automatically through the bureau.

QSL EU-011 ---> F6BFH reports to have sent all the direct requests for his recent operation as G/F6BFH from the Scilly Isles (EU-011).

QSL NA-088 ---> Jean-Michel, F6AJA reports to have sent all the direct requests for HP1XBI/4 (Bocas del Toro, NA-088).

QSL NA-120 ---> Don, AA5AT and Abner, WN5W are still awaiting their recent Marsh Island (NA-120) operation [425DXN 323] cards from the printer - please do not resubmit QSLs.

QSL 7Z500 ---> Art, N2AU reports that "effective immediately, I will be handling the QSLing for 7Z500. I have all the logs from day one to present. Mike is shipping me 10,000 cards around September 1st. I also have logs and cards for his PJ5AA, PJ8H, K3UOC/PJ8 and K3UOC/YV operations. I have many buro cards to answer (4,000) and they should be finished by the end of the year."

QSL VE8KM ---> Peter, VE8PW reports that those who still need cards from VE8KM (NA-006) should QSL to his new call, VE6KCM.

QSL VIA F5NZO ---> Didier, F5NZO (the QSL manager for FT5XL) volunteers for QSL management "for all countries". If interested, please contact Didier at <f5nzo@aol.com>.

QSL VK0IR ---> Peter, ON6TT reports the following: "The VK0IR QSL team confirms that there is NO backlog of cards to be sent. Apparently and unfortunately, some of you are still waiting for your cards. To shortcircuit the problem, we agreed with the QSLteam on the following: if you sent in cards for the VK0IR operation and if you are still awaiting your card, please sent an e-mail to K4JDJ at <k4jdj@norfolk.infi.net> with the following details: your call and snail mail return address, details for the QSOs you await confirmation for (date, time, band, mode, report), date when you mailed your card to the QSL team. I hope this shows the commitment of the VK0IR team to finish this operation with the level of quality as we started it 2 years ago!"

QSL WP2Z ---> WP2Z (the Windwood Contest Station on St. Croix, USVI) is used by different operators for different contests/vacations and the QSL route for various dates can get real confusing. In an attempt to solve the problem, Larry, KE2VB has asked Steve, KU9C to act as QSL manager for WP2Z and he has graciously accepted. Please forward all WP2Z QSL requests to Steve at either P.O. Box 5953, Parsippany, NJ 07054, USA or via the bureau.

QSL XT2DB-> QSL manager F5LGQ reports to have sent all the direct requests for XT2DB.

+ SILENT KEY + The IOTA community mourns the death of another friend: it was with the greatest sadness that we have learnt of the passing of Micky Delgado, YV5AIP, who became a SK a couple of months ago after a long illness /EX

>>> DXCC 2000 <<<

Jim, K1MEM (DXAC W1) reports that the DXCC 2000 committee presented two concepts to the board of directors in July. The committee will finish their work in January with a final report to the BoD.

Concept 1: Criteria

Point 1, Government:

To be on the DXCC list by reason of government one of these three conditions must be met:

1. Be a member of the United Nations
2. Be a member of the IARU.
3. Have an official assigned Call Sign allotment.

Point 2, Separation by water:

1. The 225 miles requirement is replaced with 350 kilometers.
2. The 500 mile requirement is replaced with 800 kilometers.

3. "minimum size" is defined as "2 points separated by not less 100 meters of connected land above the high tide mark...."

Point 3, Separation by another DXCC country:

1. The 75 mile requirement is replaced with 100 kilometers.

Point 4, Ineligible areas:

1. No changes proposed

Concept 2: Band awards

The Band Award program consists of 10 single band awards. The bands are 160, 80, 40, 20, 17, 15, 12, 10, 6 and 2 metres. Two new cumulative DXCC awards are being created by using the totals from nine of the single band awards. (160-6 metres). There will be the DXCC 2000 Challenge Award, with 1 point per country per band 160-6 metres (not 30 metres). Certificates, plaques, pins etc. at 1000, 1500, 2000 and 2500 point levels. A special trophy is given the overall leader each year (no charge, one per person). A special DXCC 2000 Award for 100 countries in the year 2000 will be offered (non-endorseable, no QSLs required).

There will be some changes in the manner Honor Rolls and Standings are reported in QST. Yearbook will not change.

This report will be reported in QST and copies of the complete report are available from ARRL.
