- VP8_fal- Jan, K4QD (VP8CRB & VP8TTY) [425DXN 397] operates from an abandoned

Loran station on the top of a hill overlooking Port Stanley. There are two 150 foot towers which are 250 feet apart and the three wire antennas are suspended between them. He reports he is meeting his goals (to make over 10,000 contacts during his three week stay, to operate CW, which is rare in the Falklands, activate the WARC bands and reach difficult areas like Asia), although 80 and 160 metres have been disappointing. He is building a 160 meter loop which will be vertically polarized and installed for a concentrated Top Band effort all Friday night and Saturday night. QSL via K4QD either direct (Jan Heise, 8595 Sheridan Rd, West Melbourne, FL 32904, USA) or through the bureau. [TNX W3UR]

- VP9 - Dick, N1RCT will be active (on RTTY only) as VP9/N1RCT from Bermuda (NA-005) between 30 January and 4 February. He expects to be on 20 metres split hopes to operate for at least 40 hours total. Dick will be using 100 Watts and a multiband dipole; a special Japan-only hour will be daily from 22 to 2300 UTC. QSL direct to W6/G0AZT (Eddie Schneider, P.O. Box 5194, Richmond, CA 94805, USA) or via the bureau to N1RCT. A web page is available at <http://www.megalink.net/~n1rct/dxcc/vp9.html> [TNX N1RCT]

- ZL9 - The ZL9CI team left Wellington, New Zealand at 00.20 UTC on 1 January and arrived at Campbell Island after a 90-hour voyage. They started unloading the 5 tonnes of equipment and begin to assemble the antenna system at 4 a.m. on 5 January in order to commence operations on or around 23 UTC on 6 January. In the first 23 hours they made 10,724 QSOs (more than half on CW), operating six stations on most bands. Ron, ZL2TT was scheduled to be the SSTV operator, but as he is not making the trip and as the other operators do not have the expertise to run SSTV, it will no longer be a featured mode on the expedition. Their permit restrictions still are in place and they cannot be operational from 1100 UTC to 16.30 UTC. However, rough seas prevented the team from leaving the island safely and that is why they were active during the ZL9 night on 7 January. QSL via ZL2HU (Ken Holdom, P.O. Box 56099, Tawa, New Zealand). [TNX N1DG]

[TNX F5NOD]

NAVASSA ---> "The Director of the Office of Insular Affairs advises all persons interested in visiting Navassa Island that, having made a preliminary review of the island's ecology, he has decided indefinitely not to allow visits to the island and its surrounding waters until he has received a further assessment of the island's environment and conservation status". The announcement comes from the Internet Web page of the US Dept of Interior. [TNX DX News Sheet]

NEW ORLEANS CONVENTION ---> The 8th annual New Orleans International DX Convention will be held on August 27-28, 1999, at the Royal Sonesta Hotel on Bourbon Street in the New Orleans French Quarter. For the latest information on convention developments, check the Delta DX Association website at <http://www.gnofn.org/~w5ru/> [TNX W5FKX]

NEWS FROM POLAND ---> Irek, SP3SUX reports that effective 1 January Poland is divided into 16 new bigger regions (previously 49). The administrative change will affect SPDX Contest exchanges and SP-awards, but not amateur radio callsigns (by the way, "vanity" car plates with, for instance, amateur radio callsigns will be soon allowed in Poland).

POSTAL RATES (CANADA) ---> Postage rates in Canada have changed since 4 January: the new rate from Canada to the US is now 55 cents, while from Canada to all other countries is now 95 cents. [TNX The Daily DX]

POSTAL RATES (USA) ---> The postage rate from the US to the US will change from 32 cents to 33 cents on 10 January 1999. This does not apply to DX stations: rates are likely to change sooner or later, but till that moment air mail remains at 60 cents.

PP5 OUTGOING BUREAU ---> Ooops! It is the PP5 (Santa Catarina State), *not* the PY5 (Parana State) Outgoing QSL Bureau that currently does not work [425DXN 400]. It is confirmed that PP5ASN and PP5AS handle cards for DL and ES respectively, but for the time being amateurs in other countries cannot receive any card through the PP5 bureau. We apologize for any inconvenience the typo may have caused our readers.

QSL ROUTES ---> Michael, DJ5AV is the editor of the German DX News Letter and says that "Paul, ON6DP is an important source for my QSL routes. His new QSLMGR.EXE with 49058 QSL routes can be found at <http://perso.infonie.fr/on6dp/qslmgr.html>"

QSL EU-039 ---> Maxime, ON4LCW reports he is having some problems with the printer and the cards for his F/ON4LCW/P July 1998 operation from EU-039 (Chausey Islands) are not ready. Please be patient. Fred, ON6QR reports that the cards for TM5T (1998 IOTA Contest) have been printed and will be sent out by the QSL manager (ON4GO) as soon as possible.

QSL FT5WH & FT5ZH ---> DXers are requested not to send cards for FT5WH and FT5ZH in the same envelope. In fact, while the QSL route is the same for both stations (F6KDF: Radio Club de la Gendarmerie, 292 route de Genas, 69677 Bron Cedex, France), the cards are actually handled by two different groups of managers at the Radio Club. Moreover the logs for FT5ZH are already available, but it is not known when FT5WH is able to send his. [TNX F5NOD]

QSL KC4AAA ---> Bob, NC6J has been the QSL manager for this station for ten

years and has now decided to turn the job over to K1IED. Effective 1 January 1999 K1IED will handle all prior and future QSL cards. [TNX K1XN and The Golist]

QSL MU0ASP & MJ0ASP ---> Jacky, F50IU reports he is *no longer* the QSL manager for MU0ASP & MJ0ASP (that is Mathieu, F5SHQ, who has been active from Jersey and Guernsey since July 1998). Jacky suggests to get in touch with the operator (Mathieu Roche, Longueville Manor Hotel, St Saviour, Jersey JE2 7WF)

QSL UP5P ---> This the special call used by Romeo, UN5PR in contest. QSL direct to Romeo Y. Loparev, P.O.Box 73, Temirtau, 472300 Kazakhstan [TNX UN5PR]
