3V - Antonio, IK7YZG reports he will be operating from 3V8BB on 4-6 January. QSL for this operation direct only to IK7YZG (Antonio Cicerale, Via Risorgimento 99, 71016 San Severo - FG, Italy).

3Y_bou - Chuck Brady, N4BQW has been active as 3Y0C from Bouvet (AN-002) since 16 December. He will be on the island with a group of scientists for four months; this is not a DXpedition and Chuck will operate when time allows. He will have access to a generator for approximately 12 hours a day and will use a large banks of batteries when the generator is not available. Chuck is currently active on 10, 15 and 20 metres, but in due course he expects to operate on other bands. His amateur radio equipment includes an amplifier, vertical antennas for 160-40 metres and beams for 30-10 metres. Please note that Chuck usually works SSB; he uses a hand key for his very limited CW operations, so beware of pirates. QSL via WA4FFW, but please refrain from sending cards until an address is posted in early January. Logs will not be in hand until after Chuck's return to the US sometime in April. Check <http://www.qsl.net/zrldg> for the latest information from the island. [TNX The Daily DX and others]

7Q - Harry, G0JMU will be activating his 7Q7HB call again for a month in February. His past SSTV, PSK31 and WARC band operations proved very popular: "let me know what your requirements are", Allan/G0IAS (g0ias@amsat.org) says, "and if it is possible, we should be able to help".

A5 - Glenn (W0GJ/A52GJ) will be working at the hospital in Thimphu, Bhutan from 29 December until early February. Glenn, his son Mark (N0MJ/A52MJ) and other members of the Johnson family - namely Vivien (KL7YL/A52VJ), Melissa (N0MAJ/A52YL), Carrie (N0CMJ) and Paul

<http://www.listen.to/sk6nl> QSL via SK6NL. [TNX SM6VVT]

- TG - Special station TD0G will be activated (on 80, 40, 20 and 25 metres) by several operators on 26-28 January from the ancient Maya town of Yasha, some 600 kilometres north of Guatemala City. [TNX TG9AAK and EA5KB]
- VE - Look for VE2DX to operate (on +/- 14260, 21260, 28450 and possibly 7070 and 50125 kHz) from Jesus Island (CISA PQ-014) between 23 December and 3 January. Most operations will be between 10 UTC and 15 UTC, but the station might operate also around 20 UTC to 3 UTC. QSL via VE2STN (Richard G. Desaulniers, 461, Romeo, Ste-Dorothee, Laval, Quebec, Canada H7X 1R2). [TNX VE2STN]
- VU_ant - Look for Vic to operate as VU/R1AND from Indian Antarctic base "Maitri" on 24 December. QSL via DL5EBE (please note that cards for R1AND, VU/R1AND and R1AND/A will be printed when Vic returns to Europe, ie not before May 2001). [TNX DL5EBE]
- W - Harry, AA2WN will operate from time to time from Finns Point Rear Range Light during the Christmas Lights Event, now through 2 January. [TNX AA2WN]
- W - Special event call K1D will be aired (on 28400, 21310, 14270 and 7230 kHz) between 23 December and 6 January to celebrate Kid's Day (6 January) and Amateur Radio Awareness. The operators will be Peter (W1DAD) and Jeanne (K1MOM) Schipelliti, 7 Dearborn Ridge Rd, Atkinson, NH 03811, USA. [TNX W1DAD].
- W - The Marconi Radio Club, W1AA ([http:// personal.tmlp.com/klvv/w1aa](http://personal.tmlp.com/klvv/w1aa)) will operate from Cape Cod (Massachusetts) as W1AA/CC to celebrate the 98th Anniversary of Guglielmo Marconi's first transatlantic radio transmission between Cape Cod and England ("CC" was Marconi's first call sign for his transatlantic Cape Cod Station). Operations will take place with two stations (CW and SSB on 20-10 metres) from 12 through 22 UTC on 18 January. QSL via the W1 Bureau (for DX stations) or direct to the W1AA CBA (for US stations). [TNX K1VV]
- ZC4 - The OPDX Bulletin reports that the ZC4 club station should be up and running as ZC4ESB (Eastern Sovereign Base) on all bands and modes for the next three years at least, most contests included. The operators are Steve/ZC4BS, Des/ZC4DW and Graham/ZC4GK.

ACTIVITY POSTPONED ---> Dan, N6PEQ has postponed his Fiji and South Cook Islands operation, originally planned to take place from 16 December to 6 January [425DXN 502]. He now hopes to make the trip in the spring or summer of 2001.
