>>> EMERGENCY IN INDIA <<<

Members of National Institute of Amateur Radio (NIAR) Hyderabad have established HF/VHF stations in the earthquake affected areas of Gujarat for providing emergency relief communications. Their main operating frequency is 14.160 Mhz. [TNX VU2JOS]

3D2_con - The February DXpedition to Conway Reef [425DXN 505] will start later than previously announced, that is on 22 February around 8 UTC until 1 March. QSL via YT1AD (Hrane Milosevic, 36206 Vitanovac, Yugoslavia). Other information at <http://www.kragujevac.co.yu/3d2>. 3D2_con - The Daily DX reports that the Scandinavian DXpedition to Conway Reef, originally scheduled to take place between 5 and 24 April [425DXN 493], has been postponed due to personal commitments of two of the team members.

3Y_bou - Deon, ZR1DQ (see <http://www.qsl.net/zr1dq>) reports that the team on Bouvet lost their diesel generator after many weeks of troublesome operation. The only operational generator is a petrol Honda with limited fuel supply. Investigation is in progress to convert the Honda engine to run on propane gas. [TNX ZR1DQ]

5U - I2YSB, I2UIY and IK2DIA will operate from Niger between 27 February and 12 March. Callsigns (one for SSB and one for CW/RTTY/PSK31) will be issued upon arrival. They plan to have three stations running and to operate on 10-160 metres + 6 metres CW/SSB. QSL for both callsigns via I2YSB either direct (Silvano Borsa, P.O. Box 45, 27036 Mortara- PV) or through the ARI bureau. The web page for the operation (<http://digilander.iol.it/i2ysb/>) will be updated with logs and pictures during the DXpedition. [TNX I2UIY]

9V - Mirek, 9V1XE reports he has been granted permission to operate via satellite and plans to be often on Oscar 10 and other

satellites (Oscar 40 too, but modes A, B, J, K only at this stage). QSL for satellite QSOs via either 9V1XE or his usual QSL manager, DL4DBR.

- BQ9 - Paul, BV4FH reports an operation as BQ9P is scheduled to take place from Pratas Island (AS-110) on 6-15 March. [TNX JI6KVR]
- BV - Yuki, JI6KVR and operators from Taiwan will be active as BV9L from Liuchiu Yu (Taiwan's Coastal Islands, AS-???) on 2-4 March. Plans are to have to stations working on 10, 15 and 20 metres CW and SSB, with a beam and a ground plane. QSL via BV4YB. [TNX BV4FH and JI6KVR]
- C6 - Look for K3TEJ to operate as C6AKW from Abaco Island (NA-080), Bahamas on 14-21 February. Main activity on 10-160 metres CW, with some SSB on 40. [TNX The Daily DX]
- CE0_est - A group of operators from Chile and Germany plan to be active (on all bands mostly CW and RTTY) as 3G0Y from Easter Island (SA-001) on 4-19 March. A web site is under construction at <http://www.qsl.net/3g0y>. QSL via DK7YY. [TNX DL9NEI]
- CE0_sa - Joe, KO4RR has joined the 12-20 February CE0ZT FXpedition to San Ambrosio [425DXN 507]. Marco, CE6TBN reports that they will participate in the ARRL International DX Contest (CW) as a Multi/Single entry. There will be two QSL managers: N6MZ (Michael A. Mraz, 15526 Se 50th St, Bellevue, WA 98006-3611, USA) will handle cards for the US and CE6TBN (Marco A. Quijada, P.O.Box 1234, Temuco, Chile) for stations outside the US. [TNX CE6TBN].
- CT - Cupido, CT1BNW reports he will participate in the WPX RTTY Contest with the special call CQ2CE. QSL direct only to P.O.Box 4143, 4461-901 Senhora da Hora, Portugal.
- D6 - The following are the announced frequencies for the 8-28 February D68C operation from the Comoro Islands (AF-007):

CW	SSB	RTTY	PSK31	CW	SSB	RTTY	PSK31
1822	1842	-	-	18072	18145	-	-
3502	3795	3570	-	21022	21295	21085	21071
7002	7052	7035	-	24892	24945	-	-
10102	-	-	-	28022	28495	28075	28071
14022	14195	14085	14071	50102	50145	-	-

At least five other DXpeditions are expected to be active in February, so there is a strong likelihood that, from time to time, D68C will need to change transmitting/receiving frequencies to avoid confusion. The first group of operators fly out on 4 February, arriving D68 on the 6th. They expect to take about two days setting up equipment and antennas, so that when the operation starts they will have all bands up and running. D68C will be active during the WPX RTTY Contest (10-11 February). The QSL managers are G3SWH (Phil Witchurch, 21 Dickensons Grove, Congresbury, Bristol, BS19 5HQ, England; bureau card requests welcome by e-mail at phil@g3swh.demon.co.uk) and, for SWLs, BRS 32525 (Bob Treacher, 93 Elibank Rd, Eltham, London SE9 1QJ, England; e-mail: brs32525@compuserve.com). The D68C Web Page (<http://www.dxbands.com/comoros>) is and will be updated with the latest news, logs etc. [TNX G3XTT]

CLOSED LOGS ---> "One thing that has always bothered me is hearing that a QSL manager is 'closing a log'", Bob Schenck, N200 says. "I will be happy to preserve any DX or DXpedition log and take on the QSL manager responsibility, no matter how old the log might be. Logs can be in any format, even paper and I will even provide replacement cards if needed as well. If any of you hear

of a DX or DXpedition log that is being 'closed', or perhaps that a QSL manager becomes SK, please save the log(s) and drop me a message". Bob's e-mail address is n2oo@arrl.net

CIS AWARD ---> The Radio Amateur's Diploma of the Commonwealth of Independent States is sponsored by the "Funkner DX Family" amateur radio club (RZ3DZZ) and is available to licenced amateurs and SWLs for contacting/hearing 12 stations located in the twelve CIS countries. QSL cards are not required. For further information please contact fdxf@aha.ru [TNX RN3FX]

CQ FROM CIS ---> The first issue of the monthly Radio Amateur's Journal of the Commonwealth of Independent States will be published in July 2001. Editor Yuri V. Funkner (RN3FX) states that the magazine, written in English, will give comprehensive information on all aspects of amateur radio in CIS countries (Azerbaijan, Georgia, Armenia, Moldova, Belarus, Kyrgyzstan, Tajikistan, Turkmenistan, Russia, Uzbekistan, Kazakhstan, Ukraine): awards, activities, QSL routes, URLs and e-mail addresses and much more. For further information please contact fdxf@aha.ru

D68C (PILOTS) ---> The pilot stations for the 8-28 February DXpedition are: Martin, G3ZAY (g3zay@btinternet.com: Chief Pilot + Europe and Africa); Don, N1DG (nldg@aurumtel.com: North and South America); Ray, G3NOM (g3nom@rast.or.th: Asia and Oceania); Dale, AA5XE (aa5xe@smirk.org: 6 metre issues worldwide). The feedback from the expedition team will principally be via the Chief Pilot's web page at <http://www.dxbands.com/comoros/zaypilot.shtml>

D68C (SWLs) ---> In addition to the 15 trophies for working D68C [425DXN 506], there will be 3 trophies for the 3 SWLs who hear D68C on the most bands (1.8 to 50 MHz) and modes (CW, FM, PSK31, RTTY and SSB). Bob Treacher, BRS 32525 (see address above) will administer the SWL trophies: entries must be received no later than 30th April 2001 and to submit a claim, listeners must provide the usual log details (Date, UTC, Frequency, Mode, RS(T), callsign of the station(s) worked).

DXNL ---> Issue 1228 of the "DX Newsletter" (18 December 2000) was the last one edited by Michael, DJ5AV [425DXN 504]. The DARC Committee for DX and HF Contesting has announced that the new editor is Karlfried Henrichs, DL1EK (dxnl@darf.de). [TNX DL3TD]

QSL E4/OE1GZA ---> Gunter reports that cards should be sent direct only to: Gunter Zwinkl, c/o SICT, P.O.Box 1133, Ramallah, Palestine. "Bureau cards to OE1GZA will be stuck in Austria", he says, "and probably not be replied to as long as I'm overseas, and that might be another few years".

QSL FY5FY ---> The address given in 425DXN #508 was taken from RAC 2001, but Alain, F6EZV (Didier's brother) states it is wrong. The correct address is: Didier Bironneau, 5 Ave Chopin, F-97310 Kourou, French Guiana.

QSL VK0MM ---> As promised Alan has announced the QSL route for his VK0MM activity from Macquarie Island. The QSL manager (direct only) is VK4AAR: Alan Roocroft, P.O. Box 421, Gatton, QLD 4343, Australia. All excess proceeds from the QSLing process will be donated to Camp Quality, a charity providing care
