>>> DX SPOTS <<<

Rod Elliott, VE3IRF has collected the DX spots from the OH2AQ Web Cluster since January 1997. The collection (from January 1997 up to June 2001) is available at <http://www.425dxn.org/dxspots/>, as well the software (DXINFO v 1.7) which will enable you to handle the files (instructions at the URL above). For further information, please e-mail Maurizio Bertolino, I1-21171 (i121171@425dxn.org).

IARU HF WORLD CHAMPIONSHIP ---> It will take place from 12 UTC on 14 July to 12 UTC on the 15th. Contest rules are at <http://www.arrl.org/contests/announcements/rules-iaru.html>

IG9A, OPERATORS NEEDED ---> The IG9A team is planning a major effort for the coming CQWW season and this year they want to organize a multi national team to take part in the RTTY, SSB and CW contests. Plans are to operate as Multi/Single or Multi/Multi (for the SSB and CW events) if there is a sufficient number of operators. If you are seriously interested in joining the team and want to have further information about equipment, prices etc., please drop a note to Fabio, IT9GSF (fgrisafi@tin.it)

OKINO-TORISHIMA ---> IOTA enthusiasts please note that recent contacts with JQ1SYQ/JD1 will not be acceptable for IOTA credit. AS-052 has been deleted from the IOTA Directory because Okino-Torishima has been found not to comply with the IOTA qualification criteria. As there is no active resident amateur, existing contacts will count until 1 February 2005, but no new operations can be accepted after 1 February 2001. In May 1997 an interesting article (with pictures) on Okino-Torishima was published in the Japanese CQ Ham Radio (pages 226-227). The CQ Ham Radio website is at <http://ham.cqpub.co.jp>

PV0F VIDEO ---> The "Fernando de Noronha - PV0F - CQ WPX 2001" professionally produced video (14 minutes long) features an entertaining tour of the island, its history and the QTH of its most famous occupant, Andre PY0FF. It is currently available in NTSC format and will be made available in PAL if there is sufficient interest. Please contact Dennis, K7BV (k7bv@aol.com) for more information. [TNX K7BV]

QSL 9M8HIM ---> Ian, V8IAN was operating from 9M8HIM and will be sending cards from the club station. QSLs can be also sent direct only and with appropriate return postage to VE6VK. [TNX VE6VK]

QSL BQ9P ---> Steve, KU9C reports he expects to receive the cards around 13

July. He will begin processing the cards immediately, but as he has some 6500 envelopes to fill, he does not anticipate having the cards out completely before mid-august.

QSL EA9CD ---> Jose' Antonio reports that cards for PSK31 contacts have to be sent direct only to: Jose Antonio Mendez, P.O. Box 2078, 51080 Ceuta, Spain. Logs are available at <http://www.ea9cd.com>

QSL GB0HI ---> QSL manager Paul Scarratt, G0WRE reports that it will take at least two months before he gets the cards from the printer for the May 2001 GB0HI operation from Hilbre Island (EU-120). Please be patient and do not resubmit. All direct cards for the May 2000 GB0HI operation have been answered, bureau cards are processed as Paul receives them. The logs for both activations can be found at <http://www.qsl.net/g0wre>

QSL VIA VE6VK ---> Russ (the QSL manager for V8IAN, 3D2AA and 3D2CC) reports he is receiving many cards with neither envelopes nor postage for return mail. As explained earlier this year [425DXN 515], Russ does not use the bureau for these stations; so if you want your card, please do not forget to include one green stamp or 1 IRC when sending you request to Russ. A. Wilson, 1235 Richland Road N.E., Calgary, AB T2E 5M5, Canada.

QSL VIA VE9MY ---> Please note that direct cards for all island operations by VE9MY and VE9GLF should be sent to VE9MY (Len Morgan, 35 Upper Quaco Rd., Baxters Corner, N.B., E2S 2S2, Canada). Bureau cards will be processed as received. [TNX VE9MY]

Send your cards direct only to W0YR (Michael D. Lonke, 20732 Furr Road, Round Hill, VA 20141-1808, USA). Please note that 3A/W0YR is via OM2SA. [TNX W0YR]

SEANET CONTEST 2001 ---> It will take place between 12 UTC on 18 August and 12 UTC on the 19th and will incorporate CW, SSB and digital modes. Full rules are available from Ray Gerrard, HS0/G3NOM (P.O. Box 1300, Bangkok, 10112, Thailand; e-mail g3nom@rast.or.th). The SEANET website is at <http://www.seanet2001.com>
