>>> DUCIE ISLAND <<<
>>> THE 335TH DXCC ENTITY <<<

The International Amateur Radio Union (<http://www.iaru.org>) has announced that The Pitcairn Island Amateur Radio Association (PIARA, see "Good To Know" below) has been admitted as an IARU member effective 16 November 2001. This makes the Pitcairn Islands (namely Pitcairn, Henderson, Ducie and Oeno) to be considered a DXCC "Political Entity"; consequently Ducie Island, which is separated from its "Parent" (Pitcairn itself) by 350+ kilometres has become a DXCC "Geographic Separation Entity". The ARRL (<http://www.arrl.org>) has in its turn announced that starting at 00.00 UTC on 16 November 2001, Ducie Island (IOTA OC-182, CQ zone 32, ITU zone 63) will be eligible for DXCC credit; only contacts dated 16 November 2001 and later will count for DXCC.

As for the DXpedition to the newest "new one", the team's departure from Mangareva (French Polynesia), originally scheduled to take place on 14 November [425DXN 549], has been delayed due to concerns about a nearby weather front. They expected to leave from Mangareva at sunrise (14 UTC) on 15 November, to stop for a couple of hours at Pitcairn and to reach Ducie around local dawn on Saturday 17 November. [TNX K6GNX]

>>> NORTH KOREA <<<

Ed, 4L4FN works for the UN World Food Program in North Korea and has been finally able to get a verbal permission to operate amateur radio from the #1 Most Wanted DXCC Entity. 200+ stations have been able to work 4L4FN/P5 on 20 and/or 10 metres so far (logs at <http://www.amsatnet.com/p5log.html>). Ed is now awaiting a written permission, which hopefully should arrive around Christmas. This is not a DXpedition, but Ed will try to operate as much as possible. For the time being he has SSB only, and prefers +/- 14205 and +/- 28575 kHz (split up 5-15 kHz), typically between 14 and 15 UTC and again between 22 and 23 UTC during the week, while during weekends more operating time is available to him. Ed is currently using a dipole, but he plans to

build a small beam for 10 and 20 metres. He will be back home for Christmas and will return to North Korea with his keyer and some equipment for digital modes. Ed expects to be in North Korea until June or July 2002. QSL via KK5DO (Bruce Paige, P.O. Box 310, Alief, TX 77411, USA), who will wait for the final written licence before printing the cards. Updates on Ed's activities will be posted by KK5DO at <http://www.amsatnet.com/p5.html> [TNX KK5DO and The Daily DX]

 - 9U - Gus, SM5DIC will be back to Burundi on 17 November for around three months. He expects his licence will be renewed and most likely he will operate again as 9U5D. He plans to be active on HF bands (all modes with 100 watts and a loop antenna), on 6 metres (with a 3-element beam) and 2 metres (with a 17-element beam and 400 watts for EME). QSL direct only via SM5BFJ (Leif Hammarstrom, Lerklockan 4, SE-73091, Riddarhyttan, Sweden). [TNX SM5DIC]
