Further details from the Secretary, M0BJL (secretary@cdxc.org.uk) or at <http://www.cdxc.org.uk> [TNX G3XTT]

DXCC NEWS ---> Bill Moore, NC1L (DXCC Manager) reports that the following operations are approved for DXCC credit:

K1B Baker & Howland Island from 20 April to 21 May 2002

ST0F Sudan from 19 February to 31 December 2002

NCDXF ---> At its Board of Directors meeting on 22 September the Northern California DX Foundation re-elected the following officers and directors: Len Gerald, K6ANP (President), Al Burnham, K6RIM (Vice President), Tom McShane, NW6P (Secretary), Bruce Butler, W6OSP (Treasurer); Rusty Epps/W6OAT, Dave Pugatch/KI6WF, Chuck Ternes/N6OJ, Glenn Vinson/W6OTC, Steve Merchant/K6AW and Ken Anderson/K6TA (Directors). Newly elected as a director was Tim Totten, N4GN. October 2002 marks the 30th anniversary since the founding of NCDXF. During this period, it is estimated that the NCDXF has granted over \$1.5 million dollars in support of DX-related activities. The Northern California DX Foundation's web site is at <http://www.ncdxf.org/> [TNX K6RIM]

QSL GM3VLB ---> Andre, GM3VLB reminds island chasers that the only way he or Alex, G(M)0DHZ "can cope, is to QSL direct only and this does NOT mean that a direct request without return postage will be acknowledged". Andre has received 11 QSL requests in the last week with no return postage and these cards will not be replied to.

QSL HC8N ---> Please note that the new QSL route for HC8N has been via W5UE for a few months now. He maintains a web page for DXers to check the status of their QSL request at <http://www.datasync.com/~w5ue/qls-w5ue.html> [TNX W5UE]

QSL KH7X ---> Effective immediately Ralph, K2PF will be the QSL manager for KH7X, the call of the Pacific Contest Club located in Hawaii. [TNX K2PF]

QSL UA9FDX ---> Paco, EA50L reports he has the logs for UA9FDX (Sakhalin Island, AS-018) from 1995 to date.

QSL YA/G0TQJ ---> The QSL cards are back from the printers and are being sent out fast. All cards received direct are being sent out now, cards for SSB & RTTY to North America, South America, Africa, Middle East and a big majority of Europe were posted on 27 September. This operation has been approved for DXCC credit. [TNX G0TQJ]

QSL VIA OM2SA: George is the QSL manager for the following operations: 3A/N9NC, 3A/W0YR, 5W0MO, A35MO, A35TO, AP2MY (CQWW CW 1995 only), CE0Z/KM9D, FO0MOT, HA/N9NC, KM9D/C6A, N9NC, VP5/KM9D, XR0ZY, ZF2MO, ZK1QMA, ZK1TUG, ZK2MO, ZK2TO. QSL to George Sipos, 93013 Trhova Hradiska 550, Slovakia. [TNX OM2SA]

QSL VIA VE3LYC ---> Cezar, VE3LYC confirms he is the QSL manager (direct only) for all the IOTA and Lighthouse activations carried out by Dennis, RZ1AK and his team. Bureau cards should be sent to RZ1AK.

QSL FROM MONGOLIA ---> During his recent staying in Mongolia, Ken Claerbout, K4ZW took the opportunity to speak with several of the local operators concerning problems people are having with QSL cards from Mongolia. They tossed around a few ideas for improving the situation and decided to give the following a try. For those who are interested, K4ZW will act as a collection point for cards:

- cards must include an SAE and greenstamp (US dollar) or NEW style IRC per callsign (the old style IRCs are no longer good in Mongolia);
- do not include multiple callsigns in a single envelope and do not put US postage on the return envelope as the replies will be mailed from Mongolia;
- at the appropriate time, Ken will box up the cards up and ship them, probably to JT1BG for distribution, via registered mail or DHL.

This will ensure that your cards get in country. From there it is up to the guys to distribute the cards and answer them. What Ken is asking in return, is a small donation to help defray the cost of shipping. He will probably ship the cards every couple of months depending on the volume received and of course once he has enough to cover shipping expenses. "Obviously I cannot guarantee you will receive a card", Ken says. "Consider this an experiment. If it works and there is sufficient interest, we'll keep it going. If not, then at least we gave it a try".

VI3JPI ---> The VI3JPI activity from Lady Julia Percy island (OC-251) logged 2883 QSOs in the seven continents (AF 7, AN 2, AS 716, EU 1281, NA 661, OC 195, SA 21) during 52 hours of actual operating. They had to reach the island by helicopter (four trips) because the sea was too high. The weather was very wet and windy the first two days, making operations quite difficult. They

were able to return by boat, but only after much hard work moving the equipment down the 30m cliff face. The four team members (namely Paul/VK3KXG, Peter/VK3QI, Jack/VK3WWW and Tom/VK3ZZ) were active on 10m (158 SSB, 113 CW), 15m (173/31), 17m (88/171), 20m (1492/302), 30m (33/220), 40m (2/87) and 80m (12 SSB), plus one QSO on 2 metres. [TNX VK3QI]

VP8GEO VIDEO ---> The VP8GEO South Georgia 2002 video is now ready, completing "part 2" of this year's South Atlantic "Micro-Lite" DXpedition video series. Both Part 1 (VP8THU) and Part 2 (VP8GEO) of this video are available on DVD discs in addition to the standard VHS video cassettes. For more information please visit <http://home1.pacific.net.sg/~jamesb> [TNX 9V1YC] /EX
