The 3Y0X team arrived at Peter I on 5 February at 21.35 local time (01.35 UTC of the 6th). It was foggy and windy, and they had to wait for the weather to clear. The first helicopter load landed on the island at 18.30 UTC on 7 February; most of the team and 80% of the gear were flown ashore and 3Y0X became active in the early UTC morning of 8 February. The rest of the gear and the remaining three team members (NP4IW, K3VN and N4GRN) had to be transferred onto the island a few hours later, but the weather deteriorated and at 23.30 UTC of 9 February they were still on the ship.

The suggested operating frequencies are:

DXCC NEWS: K7C from Kure Atoll (25 September - 6 October 2005) has been approved for DXCC credit.

DXCC RULE CHANGES? ---> The ARRL Programs and Services Committee (PSC) has asked the DX Advisory Committee (DXAC) to study the impact of amending the DXCC "political entities" rule. The change under consideration would revise Section II, "DXCC List Criteria," under "1. Political Entities," to add a Paragraph c) reading, "The Entity contains a permanent population, is administered by a local government and is located at least 800 km from its parent." The PSC has asked the DXAC to report back by 15 March. [TNX N7NG]

T99D ---> This is the new callsign issued to Dalibor, T94DO. The QSL route has not changed and it is via DJ2MX. [TNX T99D]

QSL MANAGER SURVEY ---> Conducted by the "Golist, QSL Manager List", the "Top 5 QSL Managers" survey for 2005 closed on 30 January and resulted in 68 different managers being nominated. From this list of 68, the following Top 5 (listed in alphabetical order) were selected based upon the greatest number of nominations received: Phil Whitechurch (G3SWH), Roger Western (G3SXW),

Nigel Cawthorne (G3TXF), Antonio Cannataro (IZ8CCW), Joe Arcure (W3HNK). [TNX K1XN]

QSL VIA G0IAS ---> Allan, G0IAS has all of the late Ron Macfarlane's logbooks. These date back to 1947, and cover all of the QSOs made by Ron as GM3EAK, ZD6RM (when Malawi was called Nyasaland) and 7Q7RM. "I intend to close the logs on the anniversary of Ron's death in September", Allan says. QSL direct only.

QSL VIA N200 ---> Cards for XR9A/8, XR9A/MM and XR9A can be sent in the same envelope. Bob asks that cards for CE0Z via N200 and 3Y0X be sent in separate envelopes, as sending cards for multiple calls in one envelope will seriously delay your QSL. [TNX N200]

QSL VIA SM5DQC ---> SM5DQC (Osten B. Magnusson, Nyckelvagen 4, SE-59931 Odeshog, Sweden) is the new QSL manager for ZK1EQL (2002 and 2005) and ZF2QL. Those who have already sent their cards to SM7EQL, should not resubmit. One USD does not cover postage from Sweden, but 1 IRC does. Bureau cards will be replied to some time in the future.

YL WRTC 2006 TEAM ---> Our Community has a great desire to enlarge the participation of Ham Ladies in international contest activity. The WRTC2006 Steering Committee is totally in line with this important objective. Discussing this matter with Alexander Teimurazov (4L5A), member of our WRTC 2006 Honorary Board Committee, we came up with an action to really have a good use of the WRTC 2006 to comply with this objective. Has been decided by WRTC 2006 Steering Committee to accept Al's generous offer to specifically sponsor a Team representing the Ham contesting ladies of our hobby in WRTC 2006. 4L5A Al, is donating to WRTC 2006 USD 10,000 to have a new slot for YL TEAM in addition to the other ones already in place. Accordingly with our main philosophy of recognition of actual score as the instrument to choose the competitors, we invited Emily Thiel (P43E), the highest level points among all women applications, to be the YL Team-Leader. Also accordingly our general practices we gave Emily the free option to nominate her Team-Mate. She decided to invite Ann M. Santos (WA1S)) as Team-Mate, coincidentally the third YL highest score.
