HUNGARY ---> Effective 25 May 2006, amateur radio regulations in Hungary have changed significantly, in many respects breaking with age-long traditions, Chris (HA5X) reports. Key changes that also affect the international amateur radio community are as follows:

- * ECC REC (05)06 on the "CEPT Novice Licence" is implemented. Foreign visitors holding a "CEPT Novice Licence" can now work in Hungary using HA/home call. The CEPT Novice licence grants access to 160m, 80m, 40m, 15m, 10m, 2m, 70cm and 23cm bands, with reduced power levels. Please look up rules before operating!
- * Morse-code is no longer a requirement, VHF licencees can start using HF bands, without changing their HG callsigns. A 6 WPM Morse proficiency exam is still necessary to make CW QSOs, unless the CW QSO is between two computers.
- * Geographic call area numbers no longer exist in callsigns.
- * Callsign rules simplified, thus allowing for a wider choice of possibilities.
- * A new, simplified entry level exam and licence will be introduced for youngsters and seniors later this year.
- * Earlier licence levels consolidated into two: "CEPT Novice" and "CEPT". All

existing licences get more privileges with this change.

MUSEUM SHIPS WEEKEND EVENT ---> Started in 1997 by the USS Salem Radio Club and now sponsored by The Battleship New Jersey Amateur Radio Station (NJ2BB), this year's event will be held from 00.00 UTC on 3 June through 23.59 UTC on the 4th.
