- 3B7 - The 3B7C team expects to arrive on Isle du Sud, St. Brandon (AF-015) on 4 September. Operations are not expected to commence until midnight UTC on the 7th, by which time all stations and antennas will have been assembled (however, the 6m beacon will be activated at the earliest opportunity, so that 6m DXers can start to monitor for possible openings).

Suggested frequencies are as follows:

Band	CW	SSB	RTTY	FM	PSK
160m	1822	1842	-	-	-
80m	3502	3795	3570	-	3580
40m	7002	7052	7035	-	7037
30m	10102	-	10137	-	10140
20m	14022	14145	14085	-	14071
17m	18072	18145	18100	-	18100
15m	21022	21295	21085	-	21071
12m	24892	24945	24920	-	24920
10m	28022	28495	28075	29580	28071
6m	50102	50145	-	-	-
6m Beacon	50090	-	-	-	-

There will be 12 stations (one on every band from 160 to 6 metres, with second stations on 80 and 20 metres so that they can operate on CW and SSB at the same time) with big monoband antennas on all bands from 30 to 6 metres and verticals on the remaining bands.

Feedback messages can be sent to 3b7c@g3wgv.com: John, G3WGV will read them and send a daily digest of key information to the team.

Logs will be uploaded to the 3B7C website on a daily basis. The online log lookup will feature a lookup for your zone, showing what times you, or others in your country/zone, have made contact with 3B7C on each band.
