4S7DXG ---> Radio Society of Sri Lanka's Secretary Victor Goonetilleke, 4S7VK says that 4S7DXG (UR9IDX) "is operating without a valid licence". He used that callsign in the past and "has applied for renewal", which "has not yet been granted by the Ministry of Defense". He also claimed "to operate from IOTA AS-171, Barbaryn Island, which needs special clearance from the Harbour Master which he hasn't received". [TNX www.islandchaser.com]

BOSNIA-HERZEGOVINA ---> In August [425DXN 849] the ITU granted a request from the Ministry of Communications and Transport of Bosnia and Herzegovina (BiH) to replace T9A-T9Z with E7A-E7Z. The change was made initially on a provisional basis under authority of the ITU Secretary General and was

confirmed by the 2007 World Radiocommunication Conference to be effective 17 November 2007. A press conference was held in Sarajevo on 18 December to formally announce the change. Amateur Radio station licences bearing E7 prefixes will be issued beginning in January 2008, and the use of other prefixes will be phased out. [TNX www.arrl.org]

E4/OM2DX ---> Mike/OM2DX, Steve/OM3JW, Rudy/OM3PC and Miro/OM5RW made nearly 30,000 QSOs during their recent 7-day operation from Bethlehem, Palestine. Their final statistics are as follows:

	SSB	CW	RTTY	TOT
160	39	2050	0	2089
80	0	4866	0	4866
40	493	6775	0	7268
30	0	3033	0	3033
20	3151	2220	1048	6419
17	2298	1365	0	3661
15	672	1385	0	2057
12	0	55	0	55
10	0	0	0	0

TOT 6653 21749 1048 29450

Why did not they work more SSB? "The answer is easy", Mike, OM2DX says. "Doors to Palestine are pretty much opened for anybody and we are sure that every other expedition will spend much more time on SSB than on CW. There are also some local licensed operators but once they will come on air it will be again SSB only". The complete log and a few pictures can be found at www.om2dx.com/. QSL via OM3JW, direct or bureau.

QSL VIA SM6CVX ---> All of the direct QSL requests for P29VCX and P29VLR (OC-153, OC-240, OC-256, OC-284) received up to 21 December have been processed and mailed, Hans, SM6CVX says. Requests with insufficient return postage will be cleared through the bureau system.
