DESECHEO 2009

On June 30, 2008, the Caribbean National Wildlife Refuge office in Puerto Rico sent a letter to persons that had previously made inquiries about an Amateur Radio operation from Desecheo. They announced their decision to allow one group to activate the island and invited proposals that must adhere to strict guidelines and criteria. Applicants had 45 days to prepare and submit their proposals. CNWR received seven written proposals. A panel of three Fish and Wildlife Service employees, from areas within the Service outside of the Caribbean refuge, spent September 24 & 25 reviewing and evaluating the proposals. The selection criteria used were those outlined in the proposal invitation letter. Points were awarded for how well criteria were addressed for thoroughness and documentation. The

proposal with the highest ranking was submitted by team leaders Dr. Glenn Johnson, W0GJ, and Bob Allphin, K4UEE. Their plan involves a team of fifteen operators for a 14-day operation. USFWS has not announced the actual dates of the operation yet, but the DXpedition is expected to take place between January 15, 2009 and March 30, 2009. A Special Use Permit (SUP) will be issued as per USFWS regulations. We expect that the DXpedition team and Dxers worldwide will have a minimum of 30 days notice. The website for the operation is under construction at <http://www.kp5.us> [TNX K4UEE]

ARCALA EXTREMES I "The world's northernmost contest alliance is ready with a mission and team to be part of this year's CQWW SSB battle. Just this week they will be augmenting their already impressive firepower with a 100-meter (330 ft) massive rotating tower going up adorned with a full-size 3-L 160M beam and 5-L 80M beam which they claim to be the first of their kind. This marks the team's latest frantic effort to boost the signal from the worst propagation region in the world. You can visit them at <http://www.radioarkala.com/>. While OH8X will be operated by Marko, OH4JFN, their sister stations CU2A (Azores Islands) and TC4X (Asian Turkey) will be operated by Toni, OH2UA and Pertti, OH2PM respectively while OH0E (Aland Islands) will be manned by Ville, OH2MM and CN2B (Morocco) by Martti, OH2BH. Their strategies and categories still remain to some extent on the drawing boards. A series of full-color QSL cards can be obtained as follows: OH8X via OH2UA, CU2A via OH2BH, TC4X via OH2BH, OH0E via OH2MM, CN2B via OH2BH. The team wish the world's contesters every success in their efforts to contact Arcala Extremes". [TNX OH2BH]

ETHICS AND OPERATING PROCEDURES FOR THE RADIO AMATEUR I At its June 2008 meeting the IARU Administrative Council, noting that "poor operating behavior adversely affects the enjoyment of all radio amateurs and does not enhance the reputation of the Amateur Radio Services", resolved "that all radio amateurs be encouraged to operate to the highest levels of proficiency, with proper consideration for others using the amateur radio bands" and that "the necessary effort be made by member-societies to teach newcomers and others correct operating behavior". IARU AC therefore "endorses and recommends the principles set out in the booklet 'Ethics and Operating Procedures for the Radio Amateur' by John Devoldere, ON4UN and Marc Demeuleneere, ON4WW, and encourages each IARU Region to consider this booklet, with a view to adopting it, including any Regional variations that might be felt appropriate". The 67-page booklet is currently available for free download from a number of websites, including ARRL, IARU Region 1, IARU Region 2, REF, RSGB, UBA and VERON. Current available languages are English,

French and Dutch; translations in other languages are being made.

WORLD LICENSING AND OPERATING DIRECTORY I

Steve Telenius-Lowe, 9M6DXX is the author of 'World Licensing and Operating Directory', a new book that should be of interest to those who are planning to operate from abroad. It has an A-Z listing of countries and provides details of how to obtain a guest licence in as many of those countries as possible (over 200). The final section of the book provides details of as many of

the rental stations around the world that Steve could find out about through research on the web and through personal contacts. Further information can be found at www.rsgbshop.org

I "Paolo Cortese, I2UIY, has too many Top 10 finishes to list. Off the air, he served for more than a decade as the HF Contest Manager for Associazione Radioamatori Italiani, Italy's national Amateur Radio association and IARU Member-Society. Cortese wrote a book on contesting and has been a member of the CQWW Contest Committee since 1990, co-director of the CQ WW RTTY DX Contest and CQ WPX RTTY Contest since 2005". This was the reason for Paolo's induction into the CQ Contest Hall of Fame in May 2008. Above all, Paolo was one of our best friends, and we are devastated by the news - unfortunately not unexpected - of his untimely passing on 12 October after a short illness, at only 48 years of age. We will miss his brilliant mind and witty sense of humour, his wide knowledge and versatile intelligence. Rest in peace, Paolo, and thank you for your friendship.

I Jens Palle Moreau Joergensen, OZ5MJ passed away on 21 September, at 77 years of age. A well-known and active DXer, he was particularly interested in island chasing and contributed to the IOTA list revision back in 2000. Other reported Silent Keys include Gyozi Macsuga (HA0MM), Stan Kuhl (K6MA), Stephen C. Rock (N4SR), Antonio "Diniz" Da Silva (PY2NX), Valentin V. Polyakov (UR5NA), Nikolai N. Lapin (RU1OL, formerly UW1OL) and Anthony Martin (M1FDE), who passed away at the age of 41 on 20 September. He was responsible for the RF design of the Personal Role Radio (PRR) introduced into the British Army in 2002.

Paolo Cortese, I2UIY (1960-2008)
