GOOD TO KNOW

2009 CQ DX MARATHON • Submissions for the 2009 edition of CQ Magazine's DX Marathon will be accepted until 31 January. All participants are urged to review their scoresheets carefully as many submissions already received have zone errors, especially with regards to Zone 2. Please also watch submissions for Zones 3, 4 and 5, as the prefix for US stations is not necessarily an indication of the actual station's location. Please check the zone carefully for any Antarctica QSOs as well. The DX Marathon website (www.dxmarathon.com) provides details on countries and zones, including a special page just for Zone 2 stations. If errors are discovered, revised scoresheets may be submitted until 31 January. The callsigns of submitted logs will be posted on the DX Marathon web site and updated on a regular basis until 31 January. High claimed scores will be posted after that date. [TNX K9EL]

A recording of a phone patch between HH2JR and W3ZU can be heard on the Southgate Amateur Radio Club's website (www.southgatearc.org).

• The HF frequencies used to respond to the immediate needs of the Haiti Earthquake (14300, 14265, 7045, 7065, 7265, 3720 and 3977 kHz) have returned to normal use since 18 UTC on 22 January. Ideally the 2nd operator would also be able to coordinate fundraising and not be afraid of a little winter camping in the Arctic". If you have a serious interest in participating, please contact John (ve8ev@arrl.net). [TNX www.islandchaser.com]
