DX INFORMATION

1A0 - The 12-22 July 1A0KM activity [425DXN 840] from the Sovereign Military Order of Malta will be conducted by a team of operators led by IK0FVC and including DL5MAE, DL6RAI, G3SXW, G3TXF, IOJBL, I2UIY, I8NHJ, IK0DWN, IK0FTA, IK0PRG, IW0GIV, IW0GPN, K5AB, KO4RR, N4WV and OH2BH. Plans are to operate from 160 metres to 23cm on all modes, including EME activity during the first weekend. QSL via IK0FTA. Logs will be uploaded to LoTW. Online blog at <http://1a0km.splinder.com/> [TNX IOJBL]

3B7 - The various logistical arrangements for the 7-24 September 3B7C operation from St. Brandon have been confirmed, a detailed site survey of the QTH (Isle du Sud) has been made, the container of gear has been shipped and everything is looking good. Amateur radio activity on 6 metres is not normally allowed from Mauritius and its outlying islands, but the group has been able to gain a short-term permit, limited to three fixed frequencies: 50090 (CW), 50102 (CW), 50145 (USB). Bob, N6OX has joined the team, but they still have a vacancy for one team member to bring the total team to 20. "We are seeking a team player and an outstanding operator who is ideally known to one of the current 3B7C team members", says G3XTT (g3xtt@lineone.net). "A 6m specialist would be particularly welcome". Keep an eye on the web site (www.3b7c.com), which continues to be updated on a regular basis. The full press release no. 5, issued on 24 July, will be published in the next 425 Magazine (<http://www.425dxn.org/monthly/index.html>) [TNX G3XTT]

4O - Emir, 9A6AA, plans to be active on the bands as 4O6AA from Sveti Nikola Island (EU-163) between 13 and 19 August (<http://www.inet.hr/9a6aa/4O6AA.htm>). QSL via home call, direct. [TNX 9A6AA]

5B - C4MG is the callsign the Nicosia Amateur Radio Club will be using during the IOTA Contest [425DXN 821]. Operations will take place from Agios Georgios (AS-120); the group expects to be QRV as 5B4NC/p with two stations on 27 July in the local afternoon. QSL for both calls via 5B4KH, direct or bureau. [TNX OPDX Bulletin]

8Q - 8Q7KN is the callsign AI, JA9APS will be using on

6-9 July from the Maldives [425DXN 843]. This will be a family vacation, and his wife (JR9GTD) will also operate as 8Q7KN, while his two sons (JE9AMG and JE9AMH) will be active as 8Q7KF. [TNX JA1ELY]

RSGB IOTA CONTEST (28-29 JULY)

The following stations have announced their participation in this year's event (from 12 UTC on 28 July through 12 UTC on the 29th). For latest additions please give a look to <http://www.rsgbiota.org/>, to the IOTW Calendar maintained by John, WD8MGQ (www.islandchaser.com/iotw/calendar2/) and to the announced operation lists maintained by Ric, DL2VFR (www.iota-post.de/iotatest/hauptteil_iotatest.html) and Bill, NG3K (www.ng3k.com/Misc/iota2007.html).

Other groups will be activated during the weekend, but advance information did not mention if the operators participate in the contest. Full details on the IOTA Contest can be found at <http://www.contesting.co.uk/hfcc/iota.shtml>

SWLs please note that the IOTA SWL Contest, discontinued in 2005, has been picked up by the Mediterraneo DX Club (SWL Section), in cooperation with the RSGB HF Contests Committee, and it will be held in parallel with the IOTA Contest. Please visit <http://www.mdxc.org/swl> for full information (software included).

Good luck to you all!

GOOD TO KNOW

4 METRES IN ITALY | The Italian Ministry of Communications has authorized amateur radio transmission experiments to be conducted on the 70 MHz band (4 metres) until 31 December 2007. The frequencies are 70.100 MHz (+/- 12,5 kHz), 70.200 MHz (+/- 12,5 kHz) and 70.300 MHz (+/- 12,5 kHz).

4L6VV | Mamuka Kordzakhia, 4L2M, President of the National Association Radioamateurs of Georgia (NARG), says that 4L6VV "is a pirate station". The operator's name is Yuri and the given QTH is Tkvarcheli, but according to Kordzakhia "he is without Georgian license".

AEGEAN VHF CONTEST | The Aegean VHF Contest (the Greek VHF and 6m contest, SSB and CW) takes place on 7-8 July. Entrants are expected from all Greek mainland areas (SV1, 2, 3, 4, 6, 7), as well as from the Dodecanese (SV5), Crete (SV9) and other Greek islands (SV8). Monk Apollo, SV2ASP/A might give out a few points from Mount Athos. [TNX SV8CYV]

BUREAU CARDS TO BELARUS | BFRR (Belarussian Federation of Radioamateurs and Radiosportsmen) Chairman Alexander Pantchenko, EU1PA would like to remind everyone that the BFRR QSL bureau service is for BFRR members only. The Belarus QSL bureau has limited financial resources, so that QSL cards sent to non members are not returned to sender. The BFRR members list can be found at <http://www.bfrr.net/>

DXCC NEWS | 9U0X (Burundi, February 2007) has been accepted for DXCC credit. Those who had cards rejected for this operation, can send an e-mail to dxcc@arri.org and they will be placed on the list for update. [TNX NC1L]

HELP KADEK | The "Help Kadek" project [425DXN 837] has ended successfully with a total of USD 6,318 received from 104 donors in 16 countries. "I would like to use this opportunity to thank all the IOTA enthusiasts who contributed generously", Cezar (VE3LYC) says, "I have no doubt that Kadek will put this help to very good use". The list of donors is available at <http://www.mdxc.org/yb9bu/>

IOTA CONTEST LOGGER | The 15th IOTA Contest takes place on 28-29 July. SDI by Paul O'Kane, EI5DI is the only contest logger dedicated to this event, it offers many unique features and it is recommended for single-operator entrants. SDI runs on any Windows PC, and is free from www.ei5di.com

NA-231 | Ken, G3OCA and Cezar, VE3LYC had to cancel their attempt to go and operate from East Pen Island (NA-231, Zone 4, 20-22 July), due to various problems encountered on arrival at Ft. Severn in northern Ontario. Basically, the unusual number of polar bears on the island and the walrus colonies "extremely protective" towards their cubs made the crossing to and the staying on East Pen too dangerous.

NOT THE MANAGER | Corrado, IT9DAA reports he is not the QSL manager for YV1CTE, YV1RDX and YY1JGT any longer. Cards should be sent direct only to the respective addresses (see www.qrz.com). Corrado still handles the cards (direct and bureau) for 4M5DX, 4M5R, YV1FM, YV5MSG, YV5SSB, YV5TX, YW0DX (NA-020, 8-13 February 2007), YW1DX (SA-089, 26-29 July 2007), YW4C (SA-058, 7-10 July 2005), YW5CQ, YX5IOTA (SA-044, 26 September-1 October 2006) and YY4RN.

PIRATE | Tony, T77C reports that the station signing T77BL on SSTV (between 15 May and 29 June) and PSK31 (between 28 June and 7 July) was a pirate, as the genuine T77BL does not operate those modes.

QSL 3B7SP | Witek, SP9MRO reports that the QSL manager (SP9SX) has started sending out the first direct cards.

QSL 8N1HQ | All of the contacts made with the 8N#HQ JARL stations will be confirmed automatically via the bureau. Those who need a direct card for contacts made with 8N1HQ on 15m SSB and 160m CW can send their request to Nao, JA1HGY. [TNX JA1HGY]

QSL BS7H | The first QSLs were mailed on 23 July. Steve, KU9C, has received over 10,000 envelopes, so it is expected it will take approximately two months before every card is answered. Please do not send for a second card until we announce all cards have been answered. Steve will also upload QSOs to LOTW as he processes the cards so, if you utilize LOTW, you can expect your QSOs to show up roughly the same time you receive your card. This will allow you to avoid mailing in your physical QSL card for verification. A small number of QSL cards were received with either no SASE, or a SASE with old style IRCs that are no longer valid. KU9C will attempt to contact you via email, but if he cannot contact you, these will be returned by the bureau. Steve will also upload bureau card QSOs to LOTW as they are processed. [TNX N1DG]

QSL DU7LA | Peter, DU7LA has moved back to the US and cards should be sent to his new call, KD0AA. [TNX KD0AA]

QSL N8S | All of the requests received before 1 June have been processed and sent out. They are about 14,500 direct cards (the last batch of 2,500 cards was mailed on 25 July) and 1,000 bureau QSLs. There are still some 2,500 direct requests,

received after 1 June, that will be processed within the next couple of weeks. Keep an eye on www.yt1ad.info/n8s/news.html [TNX YT3W]

QSL ST2R I Slavko, S57DX says that direct requests for ST2R are being replied to right now. The address for direct cards is Slavko Celarc, Ob Igriscu 8, 1360 Vrhnika, Slovenia.

QSL ZA/Z35M I Vlado went QRT from Albania on 27 June, after five years and 113,000 QSOs. QSL direct to Vladimir Kovaceski, P.O. Box 10, Struga, 6330, Macedonia. [TNX OPDX Bulletin]

QSL VIA 9M2TO I Tex now has a Post Office Box, and his new mailing address is: Tex Izumo, P.O. Box 125, GPO 10710, Penang, Malaysia. Use this address when QSLing direct for 9M4SDX, 9M4DXX and 9M4SIX (otherwise use the 9M2 QSL bureau). Cards for QSOs made with 9M2TO himself go via JA0DMV, direct or through the JARL bureau. [TNX 9M2TO]

QSL VIA PG5M I Gerben (www.dx.to) has received from the printer the cards for his 9M2/PG5M operation from Sibul and Rawa (AS-046), Pangkor (AS-072), Ketam (AS-074) and Spratly (AS-051). All direct requests are in the mail, and he will now start processing all bureau requests. Please note that 1 USD is not enough to cover the postage for a 0-20 gram letter outside Europe. [TNX PG5M]

QSL VIA SM5DQC I Georges, 9Q1EK is the only one currently active from the Democratic Republic of Congo. His log has been updated on www.logsearch.de (if you do not find a QSO you are sure of, please e-mail sm5dqc@areteadsl.se). Philippe, 9Q1TB is on vacation until early August, and Osten (SM5DQC) says he is still waiting for his latest log to arrive. QSLs direct only to Osten B. Magnusson, Nyckelvagen 4, SE-59931 Odeskog, Sweden (and do not forget that 1 USD does not cover return postage from Sweden to anywhere).

I Hanina Luria, 4X4MU, one of the best known amateur radio operators in Israel, passed away a few days ago. [TNX 4X6ZK]

I Bert "Axel" Rohrbeck, DL7PR, passed away on 25 July at 65 years of age after a short illness. Licenced in 1969, he earned his 5-Band DXCC as early as 1971 and he was one of the most active and famous DXers in southern Germany. "His longpath signal on 40m CW", says Mike, DJ5AV, "was an indicator of propagation between Europe and Stateside nearly every day during European winters".

Five Star DXers Association I St. Brandon DXpedition

Bulletin No. 5, 24 July 2007

3B7C, QRV 7th to 24th September 2007

Since our last bulletin Neville G3NUG and Don G3BJ have taken a vacation in Mauritius and used the opportunity to confirm the various logistical arrangements for our September operation from St. Brandon. Don also visited Isle du Sud (our operating location) to make a detailed site survey. Everything is looking good, and the contracts are in place both for the ship which will take us to the island and for accommodation and logistics on the island (which, on this occasion, will be somewhat less than Five Star but perfectly adequate). The good news is that we will have the island to ourselves and there is lots of space for our

antennas including a range of receiving antennas – photos from the survey appear on the website (see below).

Our container of gear has now been shipped and will arrive in Mauritius on 12 August. Six large diesel generators (5kVA each) have also been shipped ahead as the modest generator already on Isle du Sud would be inadequate for the large-scale operation we have planned.

6m

6m enthusiasts will be aware that 6m operation is not normally allowed from Mauritius and its outlying islands. However, we have been able to gain a short-term permit, limited to three fixed frequencies: 50090 (CW), 50102 (CW), 50145 (USB) and are grateful to the 3B8 licensing authorities for this concession. We are hoping for some good trans-equatorial propagation on the band – from 3B9 three years ago we were able to work on a daily basis into Japan, Central Asia and Southern Europe.

WEB SITE

Our web site (www.3b7c.com) continues to be updated on a regular basis. There are photographs of the island and of the container being loaded. There is also a table of DXpedition records, by band and mode, so that we have something to aim for! We are also preparing some propagation charts for each of the major areas of the world so that you can find the best time to work us on each band. And there's a full list of sponsors, to whom we are very grateful. But more are always welcome, details on the website and in previous bulletins on how to become a sponsor.

Our QSLling approach is also detailed on the website and you may wish to check this out before we fire up. We will, of course, be fully supportive of LoTW, as with our previous expeditions, for those who are looking for DXCC credits. Remember that if you are a sponsor, you will receive priority treatment for QSL cards.

Also on the web site you will find details of how to pre-order the DVD that we will be making of the 3B7C operation.

TEAM CHANGES

Just one to mention since the last bulletin which is that we are delighted to have Bob N6OX join the team.

We still have a vacancy for one team member to bring our total team to 20. We are seeking a team player and an outstanding operator who is ideally known to one of the current 3B7C team members. A 6m specialist would be particularly welcome. The cost is £1,800 to £2,000 (\$3,600 to \$4,000) depending on the package chosen. This is exclusive of airfares to and from Mauritius. All team members have committed to be available for the whole of September 2007.

BAND-SLOTS GAME

We are developing a band-slots game. Each time a new part of the log is uploaded, a routine will be run to identify the top 30 stations in terms of band/mode slots worked to date. CW, RTTY, PSK, SSB and FM count separately on each band. The results will be shown on the website. We're not running the Nevada Trophies this time. There will be no prizes – this is just for fun!

Problems at the ARRL W3 QSL Bureau

This is to advise readers of problems the ARRL Third Call Area Incoming QSL Bureau has in delivering cards to the managers or former managers of some DX stations or DXpeditions.

The following notes are only with respect to situations where the cards are not accepted. We are aware of other situations where cards are accepted from our bureau by the managers, but where we don't believe they are actually answered. If you sent a card via bureau more than two years ago and you don't have a reply yet, we would advise going direct.

The following cases are those where the QSL volume is significant.

- 9Y4/N3BNA The manager is KA2AEV. Cards are forwarded to KA2AEV via the W2 QSL Bureau.
- 4L0ABC K3PD is no longer the Manager. Cards are returned to senders via their respective bureaus. QRZ.ru continues to list K3PD as Manager. If anyone knows how to get this reference changed, we would appreciate their doing so.
- 4L0G K3PD is no longer the Manager. Cards are forwarded to UA9LP via the Russian Bureau.
- 4L0HQ K3PD is no longer the Manager. Cards are forwarded to UA9LP via the Russian Bureau.
- 4L2M K3PD is no longer the Manager. Cards are forwarded to UA9LP via the Russian Bureau.
- 4L4BBC K3PD is no longer the Manager. Cards are returned to senders via their respective bureaus. QRZ.ru continues to list K3PD as Manager. If anyone knows how to get this reference changed, we would appreciate their doing so.
- 6V6U Thus far we have failed to get K3IPK to provide us with the means for shipping him his cards. We hand-delivered a bunch of his cards to his club in October when we gave a presentation there. We have thus far not been able to get him to tell us what he wants us to do with his cards. We are holding plenty of them at this time. We do not destroy cards. If we do not hear from him eventually they will be returned to senders through their respective bureaus.

- HH7/N3BNA The manager is KA2AEV. Cards are forwarded to KA2AEV via the W2 QSL Bureau.
- KL7J KL7J has asked his manager N3SL not to answer bureau cards. Cards are returned to the senders via their respective bureaus.
- P29NB K3BYV is NOT the manager. Cards are returned to senders via their respective bureaus.
- PS2T We have discussed with Manager W3HC his policy of not accepting bureau cards, and he refuses to change that policy. We have asked station owner PY5EG to consider changing managers, but that has not happened yet. Cards are returned to senders via their respective bureaus.
- V26B The manager is KA2AEV. Cards are forwarded to KA2AEV via the W2 QSL Bureau.
- ZP6/N3BNA The manager is KA2AEV. Cards are forwarded to KA2AEV via the W2 QSL Bureau.
- ZP9/N3BNA The manager is KA2AEV. Cards are forwarded to KA2AEV via the W2 QSL Bureau.
- ZW5B We have discussed with Manager W3HC his policy of not accepting bureau cards, and he refuses to change that policy. We have asked station owner PY5EG to consider changing managers, but that has not happened yet. Cards are returned to senders via their respective bureaus.
