3Y0J • BOUVET ISLAND 2022

The following Press Release #4 was published on the DXpedition's new website (<https://www.3y0j.no/>) on 8 August:

The 3Y0J team are delighted to inform about our continued effort to activate Bouvet Island. After cancellation of the previous attempt due to the ill-fated sale of the vessel Braveheart we decided to continue the effort and search for a suitable and affordable vessel.

Today we announce that we have signed a contract with an expedition vessel with a proven track record and experienced polar crew that will take us to Bouvet in November 2022. The vessel is Marama and is fully booked for the 2021/2022 season. The cost is significantly reduced compared to our previous Braveheart charter. With the signing of the vessel contract we will start fundraising immediately. On this journey to Bouvet we have assembled a team of 12 operators and we plan to spend 20 days around Bouvet. The QTH at Bouvetoya will be Cape Fie at the South East part of the island, the only feasible part where a DXpedition can safely setup the camp on rocky ground, we will not set camp on the glacier. We will have a wide area of 150x800 ft to setup the camp and the antenna farm.

Back in April 2020 we started our effort to activate Bouvetoya - a Norwegian DXCC in South Atlantic Ocean and also known as the world's most remote island. In close co-operation with NPI [Norwegian Polar Institute] we received the needed permits in September 2020 to activate Bouvetoya, which also included a helicopter

permit. We also together with NPI researched and was provided photos that showed a beach landing was possible. In November 2020 we were approached by Intrepid-DX Group and we joined our efforts. After the sale of Braveheart in June we informed Intrepid that we would continue our effort to activate Bouvetoya and search for a suitable and affordable vessel. Last week we were ready to launch the vessel news to the team members. As we sent out this information it was leaked to Intrepid group which caused Intrepid in a hurry to send out a press release the following day that they would go to Bouvet. The act of the team member came as a big surprise to us, the same did the announcement from Intrepid as they were informed we would continue the project.

As of today we still hold the only valid amateur radio team license specifically issued for the purpose of activating Bouvet (3Y0J). With the NPI permits, the license, the signed vessel contract and a new expedition vessel we're ready to move forward. The team of 12 operators will fund much of the budget but we also need the global DX Community to support our mission and help us make this important activation of the #2 most wanted DXCC Entity. It is only through this kind of support that we can achieve our mission of making 120,000 contacts or more from Bouvet in November 2022. Without support there will be no activation.

In closing, we especially wish to thank our many Foundations, Clubs and Individual donors. Without this kind of support, operations to the world's rarest entities would not be possible.

The 3Y0J team includes Ken LA7GIA (Co-Leader), Rune LA7THA (Co-Leader), Erwann LB1QI (Co-Leader), Mike AB5EB, Axel DL6KVA, Laci HA0NAR, Bill KO7SS, Adrian KO8SCA, Gjermund LB5GI, Dima RA9USU and Sandro VE7NY; the twelfth operator will be announced in due course. The Facebook group for the 2022 DXpedition can be found at <https://www.facebook.com/groups/3093983840726129>.

POSTPONED

A35GC & E6AM • Originally scheduled for September-November 2020, then postponed to October-November 2021 [425DXN 1530], this expedition has been bumped again - tentatively to October 2022, or «when the Covid-19 hysteria passes and when we all start to live again normally and without any restrictions», Stan, LZ1GC says (<http://www.c21gc.com/>).

CANCELLED

BOUVET 2023: CANCELLED • On 4 August Paul Ewing, N6PSE wrote: «On June 18th, we announced that we were continuing to seek new transportation to Bouvet in support of our Bouvet 2023 project. [...] We are pleased to announce that we have found a suitable/affordable vessel willing to take us to Bouvet. We are negotiating the terms of that charter contract now. We have submitted a new application to the Norwegian Polar Institute. [...] We are revising our website, and soon we will begin fundraising for this renewed effort».

On 13 August he posted the following announcement to <https://www.facebook.com/groups/3y0jbouvet2023/>:

«Dear DX Community, we now find ourselves the #3 team in line to go to Bouvet. This recent development is not comfortable for us so we are now re-examining the Top Ten most wanted DXCC entities with a plan to redirect our efforts to an activation that will be most beneficial for everyone. We are now closing our plans to visit Bouvet, however we plan to activate a different rare and much needed entity in January/February 2023. That is now our focus. Watch for more updates on this exciting new project. We wish our former 3Y0J Teammates a safe and productive journey to Bouvet. Thank you, The Intrepid-DX Group».

KNOW THE RULES!

CQ WW CONTEST RULES UPDATES • «Some exciting updates» to the CQ WW Contest, effective beginning in 2021, were announced on 1 August:

1. We have created a new YOUTH overlay that will be available to all competitors who are 25 years old or under, effective on the dates of the contest. The Cabrillo overlay format will be CATEGORY-OVERLAY: YOUTH. In support of this change, Youth overlay entries will be highlighted in the results (as is currently done for Classic and Rookies). In addition, plaques will be available for the winners.
2. A new EXPLORER category has been established to allow amateurs to participate in the CQ WW Contest while experimenting creatively with Internet-linked stations and other new technologies. The goal of this category is to encourage innovation in operating strategies, station design, and technology adaptation. This new category is only for the 2021 SSB and CW events. It does not apply to CQ WW DIGI or RTTY. Please review the detailed rules at <https://cqww.com/explorer> for more information.
3. As a reminder, audio recordings may be requested for your entry as part of the log checking process. Any single operator entrant competing for a top-five finish at the (a) World, (b) Continent, or (c) USA levels, including Classic Overlay, must record the transmitted and received audio as heard by the operator for the duration of the contest operation. Failure to respond to this request may result in your log being reclassified or disqualified. [Source: <https://cqww.com/blog/2021-cqww-rules-updates/>]

ILLW • The 24th annual International Lighthouse/Lightship Weekend will take place from 00.01 UTC on 21 August until 24.00 UTC on the 22nd. Complete information on this popular event, including a list of announced participating stations, can be found at <https://illw.net/>.

INDEXA NEWSLETTER • The Summer 2021 issue (#133) of the International DX Association's Newsletter is now available for download on the INDEXA website (<https://indexa.org/newsletters.html>). «With the still no active DXpeditions», Steve Molo, KI4KWR, says, «I've reached back to the Summer 2009 issue to reproduce the report on the Lord Howe Island DXpedition, VK9LA. There is a list of members we have lost contact with and if you can help us find them... Thank you! Lastly I have a spotlight on Director Gary Dixon, K4MQG, who has been with INDEXA since 1983».

KH6VV/KH4 • The DXpedition to Midway Island, tentatively planned for September [425DXN 1547], has been postponed sine die. «The new management team is on island and trying to catch up with things the last team didn't do», Ron, KH6DV posted to KH6VV's qrz.com page 2 August. «The trick is to be on island when the albatross are gone. This year they are going to do a rodent extermination project while the albatross are off island, so the expedition can't be there while that is underway».

RDA CONTEST • The Russian Districts Award Contest will take place on 21-22 August, from 8 UTC to 8 UTC. See <http://rdaward.org/rdac1.htm> for the rules. RDA logs will be uploaded to the Auto Credit Server (<https://mydx.eu>) for chasers to gain their certificates.

SECOND DREAM RIG YOUTH ESSAY CONTEST • «The Intrepid-DX Group recognizes the importance of including Youth in our great hobby because they are our future. We are establishing an annual Dream Rig Youth Essay Contest to gather the views and suggestions of young people involved in Amateur Radio». The contest is for USA amateur radio license holders aged 19 or younger, see <https://www.facebook.com/The-Intrepid-DX-Group-180857615282553> for complete information.

UA1FA MEMORIAL • Several Russian special call signs will be active on 9-16 August to celebrate the life and achievements of Yakov Semenovich Lapovok, UA1FA (1931-2014), a prominent figure in the history of Russian amateur radio who would have turned 90 on 16 August: RA90FA, RC90FA, RD90FA, RK90FA, RL90FA, RM90FA, RN90FA, RO90FA, RQ90FA, RT90FA, RU90FA, RW90FA, RY90FA and RZ90FA. Special call signs that will be joining the celebration from other countries include 4X90FA (Israel), EM90AFA, EM90BFA, EM90IFA and EM90QFA (Ukraine), ER90FA (Moldova), ES90FA (Estonia), EV90FA (Belarus), UN90FA (Kazakhstan) and W0L (USA). All QSOs will be confirmed automatically via the bureau; direct cards should be sent to RN3RQ (except RA90FA, which is via RV1CC). A certificate will be available on

<https://hamlog.online/club/srr/197/>.

SILENT KEYS

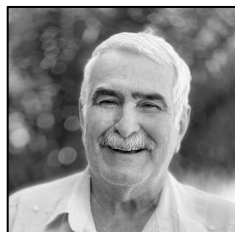

Ray Burlingame-Goff, G4FON passed away on 29 July. First licensed as G8HMH in 1973 and then as G4FON in 1976, he was the President of the First Class CW Operators' Club. He wrote the Koch method *CW Trainer* and *CW Contest Trainer* (<https://www.q4fon.net/>), which have been used by many to improve their Morse skills. Given at the 2018 RSGB convention, Ray's presentation *Improving your Morse Code skills from 5NN TU to effortless casual rag-chewing* is still available on the FOC website: <https://www.q4foc.org/Improving-Your-CW>.

Wolf Harranth, OE1WHC passed away on 3 August after a short illness. He would have celebrated his 80th birthday on 19 August. An acclaimed author of children's book, an award-winning literary translator and a journalist, Harranth became known also for his work at Radio Oesterreich International, where he was in charge of popular programmes for shortwave amateurs from 1969 until the station was discontinued in 2000. Harranth was the founder and CEO of DokuFunk (<https://www.dokufunk.org/>), the non-profit *Documentation Archive for Research into the History of Radio Communications and Electronic Media* based in Vienna: started as a QSL card collection, today the archive contains about six million objects, including 1,500 bequests, making it the world's largest institution with archives and collections of all

kinds on the history of radio, with a focus on broadcasting and amateur radio. In recognition of his commitment and dedication, in 2017 IARU Region 1 awarded the *Roy Stevens, G2BVN, Memorial Trophy* to him.

Roberto Franca Stuckert, PT2GTI died of a heart attack on 23 August aged 78. A renowned professional photojournalist, he was the former Executive Director of Brazil's IARU society (LABRE) as well as the current President of its Federal District branch. He was well known in the IOTA circles for operating from several island groups - notably SA-019 (PY0A/PY0B in 1994 and PW6AI in 2002), SA-028 (ZW2SS/ZY2SS in 1999), SA-042 (ZW8M in 2003), SA-060 (ZY8R in 1997), SA-062 (ZV2GTI/PY6 in 1993 and ZW6C/ZX6C in 1996), SA-072 (ZY8P in 2015 and ZX8TI/ZX8NO in 2017). He was also active from Trindade (ZV0TI in 1995) & Martim Vaz (ZV0MB/ZV0MV in 1996), the St. Peter and St. Paul Archipelago (ZV0SB/ZV0SW in 1999) and the South Shetlands (ZX0DX/ZX0CW in 1998 and ZX0GTI in 2004).
