CY0S --- > The 2023 Sable Island CY0S DXpedition team has announced that "a well known DXer and DXpeditioner", who wishes to remain anonymous, has offered "to match any donations to the CY0S DXpedition from this point forward until arrival on the island on 20 March 2023. For example, if a contributor donates 100 USD to the DXpedition, this 100 USD will then be matched for a total of 200 USD".
Meanwhile, the team is working on the antennas and is "continuing to manage and fine tune gear based on the very strict weight limitations for the DXpedition. The team is limited to a total of 2965 lbs [1345 kg], which includes the weight of the operators, radio gear, antennas, antenna mast, long mast stakes for the loose sand, coaxial cables, food and personal gear. Every pound of weight counts and this is a huge challenge".
