CQ DX HALL OF FAME ---> Established in 1967, the CQ DX Hall of Fame honours those amateurs who have made major contributions to DXing and DXpeditioning, including both on-air and off-air accomplishments and activities. Nominations should be sent by 1 March to Rich Moseson, W2VU ([cqw2vu@gmail.com](mailto:cqw2vu@gmail.com)). Be sure to put DX Hall of Fame in the subject line. Inductees will be announced in May and the induction ceremony, with help from the International DX Association, will be held at the Dayton DX Dinner.

IOTA AT HAM RADIO 2024 ---> The motto of the 47th Ham Radio to take place in Friedrichshafen on 28-30 June (<https://www.hamradio-friedrichshafen.com>) is "60 Years of Islands on the Air: Technology Meets Adventure!". Created by Geoff Watts (BRS-3129, the first and only SWL inducted into the CQ DX Hall of Fame), since 1964 the IOTA Programme "has been promoting radio contacts with stations on islands around the world, from small rocky reefs in the vast ocean to the largest islands in the world. That sounds like adventures in remote corners of the earth, and that's exactly what many IOTA fans and active participants can tell tales about. IOTA stands for the joy of discovery that every radio amateur develops, even if he or she does not set sail personally, but IOTA is also a symbol of friendly competition among radio amateurs. Finally, IOTA is a symbol of the significance of amateur radio as a global unifying force".

Apart from having a booth at Ham Radio, "we intend to organize an IOTA Forum on Saturday morning (29 June), as well as other activities, which will be announced on the IOTA website (<https://www.iota-world.org/>) later on", VE3LYC, IOTA Deputy General Manager and Operations Manager says. Plans are to organize an anniversary dinner at one of the local restaurants: "please let us know at [info@into-world.org](mailto:info@into-world.org), as soon as possible, if you are interested to participate to this special get-together event, number of seats required, and if you have a preference for a specific evening during the meeting. We will compile the results of this quick survey to book an appropriate venue. More details will be provided in due course".

TX5S ---> After a last effort by three stations during the local night between Saturday and Sunday, the "Shogun" departed Clipperton Island on 28 January at 21.30 UTC. As of 2 February, the log contained 113,739 QSOs (51.73% Digital, 25.98% CW, 22.29% SSB) made with 23,830 unique callsigns. The OQRS for both TX5S and N6WM/mm (there are no /mm operations on the return voyage to San Diego) is now up and running on M0URX's website: <https://www.m0urx.com/oqrs/logsearch.php>.

YOTA SUMMER CAMP 2024 ---> The Czech Radio Club will host the 12th edition of the Youngsters on the Air (YOTA) Summer Camp in Prague on 16-23 August. The event will bring together young radio amateurs from IARU Region 1 member societies as well as guest teams from Regions 2 and 3, creating an opportunity to learn all about different nationalities and cultures, foster international friendships and goodwill, and learn new amateur radio skills. IARU R1 member societies are invited to take part with a team of maximum four persons. Preliminary applications should be submitted before 29 February: see "Call for applications - YOTA Czechia 2024" on <https://www.iaru-r1.org/>.
