The new lease no longer includes Malyj Vysotskij Island, which therefore no longer satisfies the criteria under under which it was added to the DXCC List. "It's unlikely that any DX pedition will come on from the island before the deletion", OH2BU says.

"The goal is to select a time after the winter weather conditions to increase the certainty next time of being able to travel to Sable Island without delay from a winter storm". They also plan "to recruit a CW operator, with DXpedition or contest experience, to 'round out' the team". The plan is for WA4DAN to operate 70% SSB and 30% CW, AA4VK to operate 100% SSB and the third team member to operate 70% CW and 30% SSB. Bookmark www.cy0dexpedition.com for updates.
