CROATIA 28TH EU STAR AWARD ---> Issued by the Croatian Amateur Radio Association (HRS), this award celebrates the accession of Croatia to the European Union as the 28th member State. The rules can be downloaded at http://www.hamradio.hr/download/CROATIA_28_EU_STAR_ENG.pdf [TNX 9A3SM]

H44IOTA ---> Reference the notice posted on the IOTA website on 25 June [425DXN 1156], "we have noted the subsequent posting on the H44IOTA qrz.com website to the effect that a validation of OC-168 'may not be possible due to computer hardware failure and human error'. This is indeed the case as we understand that with the non-availability of the logs for the land-based part of this operation, QSOs cannot of course be confirmed for IOTA. Should the missing logs become available, we will reconsider the position. In the meantime we can confirm that we have accepted documentation showing land-based operations from OC-149, OC-047 and OC-158 and credits will be given for valid cards submitted. As a reminder, operations by yachtsmen with on-board amateur radio stations present IOTA Management with particular challenges with regard to rule compliance and they are routinely asked to provide validation in accordance with the detailed requirements outlined in Section F of the IOTA Directory Rules. In the case of the recent H44IND operation and forthcoming H40IOTA ones it is suggested that until acceptable validation is reported as having been received, the sending of QSLs be delayed". [TNX rsgbiota.org]

ILLW ---> The 16th annual International Lighthouse/Lightship Weekend, conducted under the sponsorship of the Ayr Amateur Radio Group, will take place from 00.01 UTC on 17 August until 23.59 UTC on the 18th. Complete information on this popular event, including a list of participating stations, can be found at http://illw.net/

P5 PROJECT ---> "We have added two new video slide shows from our recent visit to the Democratic People's Republic of Korea. The first video shows the children of the DPRK. The second video slide show shows many aspects of our travels throughout the DPRK. You can find the videos by going to www.intrepid-dx.com and select videos from the main menu". [TNX N6PSE]
