BOUVET ISLAND 2016 ---> Mark, ON4WW has been granted permission by the Norwegian Polar Institute to land and stay at Cape Valdivia, Bouvet Island for three months, from mid-January until mid-April 2016. This is intended to be a one-man amateur radio DXpedition, with a target of 100,000 CW, SSB and RTTY QSOs on the HF bands and daily log uploads to Club Log, LoTW and eQSL. "Whether or not this DXpedition will take place depends on the next

big hurdle: funding", Mark says. A web page providing background information and full details including the funding approach is available at www.on4ww.be/bouvet2016.html. The email address to contact Mark with regard to the DXpedition is bouvet2016[@]telenet.be. [TNX ON4WW]

MY DX SUMMIT ---> "DX Summit is modernized for a second time around, and MY DX SUMMIT will now go online today [31 October, ed.] for limited dedicated pre-user testing. We will welcome some 200 pre-users who are prepared to try it out and provide immediate feedback to the development team. The aim of this exercise is to serve as the final debug phase and to enhance user experience to maximum satisfaction before tens of thousands suddenly fire their browsers to help them in their future DX hunt. We ask you if would you like to be one of the few to have this experience today? If you say 'yes', please kindly be prepared not only to test but to provide a timely response. Send a note to radioarcala[@]gmail.com and we will give you guidance to get started".
