The complete log will be uploaded to LotW six months after the DXpedition. Pista is paying all expenses from personal funds. 3Y0Z ---> "We are happy to announce that our 3Y0Z Bouvet sea container is on its way home", Bob, K4UEE posted to qrz.com's 3Y0Z page on 10 September. "It should arrive in Chicago on September 26 then be moved to K9CT's QTH shortly thereafter. All associated costs have been paid. Craig K9CT says he will get all the loaned items/equipment back to our sponsors quickly and those shipping costs will then be paid.

From my perspective, we will then have all the expenses paid and can determine the amount of refund available to DX Clubs, DX Foundations, individual supporters and our team.

As previously mentioned, there will be several options available for everyone to consider when deciding what to do with their refund. PLS QRX!"

RI0B --- > Owing to an incoming storm, the RI0B had to change their plans. They landed on Tyrtoov Island (AS-121) and were QRV on 10-12 September while waiting for the storm to subside. Then they set sail to the Firnley Islands (AS-054), and started operations on 13 September. Plans are to be QRV until the 15th, and to leave the island on 16 September. Their next destination is Nansen Island (AS-104). QSL via Club Log's OQRS; the direct links can be found on <https://www.qrz.com/db/ri0b>.

VK9XX ---> The Christmas Island Amateur Radio Club (VK9XX) is the latest Affiliated club to the Wireless Institute of Australia. It welcomes DXpeditioners to the island, and can assist with equipment needs and location options. The club station is also available for hire. More information on <https://www.christmas.net.au/experiences/amateur-radio.html>.
