2020 IOTA HONOUR ROLL & ANNUAL LISTING ---> The last date for mailing applications or score updates to checkpoints for inclusion in the 2020 Honour Roll and Annual Listing is 31 January 2020 (it is advisable not to wait until the very last moment, though). If postmarked after that date, they will be processed in the normal way, but the scores will be held over to the following year's listing. Participants who have not updated since the 2015 annual listings and wish to remain listed should make a submission before 31 January 2020. Furthermore, those who have not logged into their record for more than two years, will need to revalidate their registration through info@iota-world.org. Do not leave it to the last moment as you may run out of time.

3Y0I PREPARATIONS RESUMED ---> The second attempt at operating from Bouvet Island is "under planning", the 3Y0I team announced on 28 October. "We estimate that the second attempt would be around US\$ 170.000 in total", they say, "but this time it may only take place if we receive financial support to cover at least half of the missing budget, which is US\$ 85.000". They ask the amateur radio community to consider making a donation to the DXpedition via the GoFundMe fundraising platform. Complete information, including the direct link for donations, can be found on the 3Y0I's website:

CLUB LOG ---> In addition to the supporting grant awarded by the Northern California DX Foundation [425DXN 1486], Michael Wells, G7VJR and Club Log have received donations from The Yasme Foundation (USD 4,000), the Chiltern DX Club (USD 2,600) and the International DX Association (INDEXA, USD 500). The grants are for significant hardware upgrades to Club Log, needed to take the system into the future with improved resiliency and enhanced performance, as well as to facilitate further innovation. Since its inception in 2008 Club Log has grown to be an integral aspect of competitive DXing for both DXers and DXpeditioners alike. Today Club Log hosts 590 million QSOs with nearly 70,000 registered callsigns - and counting.

J68MD ---> All QSOs made by J68MD before, during and after the CQ WW DX SSB Contest have been uploaded to Club Log, and the OQRS has been enabled for both direct and bureau cards. [TNX WB2YQH]
