Access to the main functions of www.425dxn.org is provided by the 425DXN App for Android. It is available on Google Play - free of charge, no ads. Enjoy!

NL0H ---> Henry, NL0H "is preparing to be active for the next few days including during the RSGB IOTA Contest from St. Lawrence Island (NA-040)", M0OXO reports. "He has been trying to set up a 10-80 end fed at the top of the mountain, his main obstacle on the island. Although low to the ground to the south, on the north side it is 500ft above the water. He is not sure how good it will work but he is hopeful it will make a significant improvement. He has been hearing good sigs from VK on 80m, EU on 15m and also VU and Asia

on 17m". During the IOTA Contest Henry will be QRV on 80, 40, 20 and 15 metres, with a focus on 40 and 20m. "His only anticipated problem is how long his batteries will work for".

QSL BX3AX/2 ---> Those who still need a QSL card for this operation, carried out in early October 2014 from Juhua Island (AS-151), can send their request to EA5GL, either direct or via the bureau. [TNX VE3LYC]

QSL IG9OSC & ID9OSC ---> Dario, IT9ZZO has processed and mailed all direct requests for IG9OSC (AF-019, May 2021), as well as for ID9OSC (EU-017, September 2020). The remaining QSOs will be confirmed automatically via the bureau; neither your bureau card nor the use of Club Log's OQRS are needed. [TNX IT9EJW]

RI0FM: POSTPONED ---> "Due to the illness of some of the members", the 15-31 July RI0FM operation from Moneron Island (AS-149) [425DXN 1574] has been postponed tentatively until sometime in August. Bookmark <https://ri0fm.ru> for updates.

SU1SK PIRATED ---> Said Kamel, SU1SK, President of the Egyptian Radio Amateurs Society (ERASD), reports that his callsign has been repeatedly pirated on FT8 over the past few days: 10 July (17m), 17 July (30m), 18 July (10m), 19 July (20m). The new QSL route for the genuine SU1SK is via JH1AT (direct). aid has no PayPal account; he uploads his log to eQSL, but does not use LoTW.

VK9HR: CANCELLED ---> "After months of negotiations with the new Management Authority", the 3-13 November VK9HR operation from the Willis Islands [425DXN 1555] has been cancelled. "A combination of new rules banning the installation of any structures on the islands by the new authority along with the fact that COVID has now spread to four Australian states meant that going ahead was not going to be possible".

QSLs received direct or through managers: 3W1T, 7Q7RU, A25RU, C31CT, C6AGU, C92RU, E51WL (OC-082), EP2HAM, HC2AO, HI1IDT (NA-122), HK7AAG, JD1BMH, JX2US, KH0/KC0W, NLOH, R207RRC, RI0Q (AS-152), SV2RSG/A, SV5AZP, TO1K, VK0PD, VO1III, VP8EME, WH7T, XE1XR, ZL7DX.
