IOTA DXPEDITION FUND: FURTHER NEWS ---> "IOTA Ltd reported in early September 2023 the creation of a DXpedition Fund to help reduce the costs of expeditions to the rarer and less accessible IOTA groups" [425DXN 1688]. "Since then the Fund has made a number of applicants very happy.
However we want to do more to encourage operations from groups where there has not been a significant operation for at least 15 years. So in addition to making grants to operations from IOTA references confirmed by less than 25% of IOTA members based on the last 10-year listing in IOTA's Most Wanted List, we will also do the same for operations to groups confirmed by less than 30% of IOTA members on the same list that have not seen an activation for at least 15 years. It is estimated that these two categories cover some 250 IOTA groups.
The grant request should be submitted more than 30 days prior to the operation's start. The evaluation and grant process is based on various criteria, including the rarity of the IOTA reference, the length of the operation and number of operators, importantly the planned number of contacts, bands and modes to be used, and the estimated expedition cost. Applications should be addressed to dxp-fund[@]iota-world.org". [The IOTA Board and DXpedition Fund Committee, 19 March 2024]
The Evaluation Criteria and the Grant Application Form can be found on the IOTA website (https://www.iota-world.org/) under the DXPEDITION FUND label.
