Access to the main functions of www.425dxn.org is provided by the 425DXN App for Android. It is available on Google Play - free of charge, no ads. Enjoy!

IOTA NEWS ---> The logs for the IOTA Contest 2024 island stations have now been added to the IOTA database and are available for QSO matching. Record-holders who have made IOTA contacts in an IOTA contest after 2003, can claim credit for them without submitting QSLs, provided that the contact details match. Go to <https://iota-world.org/>, log in, select "Add Contest QSOs" under the "My IOTA" tab, and choose either "Upload Contest Log" or "Manual QSO Entry". The 2024 RSGB IOTA Contest complete results are available on <https://www.rsgbcc.org/cgi-bin/hfresults.pl?Contest=IOTA%20Contest&year=2024>

IOTA NEWS: CLUBLOG QSO MATCHING UPDATE ---> To enhance security, the Club Log website no longer accepts regular passwords for QSO matching. Instead, a Club Log application password must be used. You can obtain this by logging into the Club Log website, navigating to "Settings", and selecting "App. Passwords". There, create a new application password and store it in a safe place. To log in to the Club Log website, continue using your regular password. When downloading QSO matches from Club Log to the IOTA website, use the application password you created by following the instructions above.

QSL VIA IK2DUW ---> Antonello would like to remind you that he is not a member of ARI, the Italian IARU member society, and therefore cannot receive or send QSLs via this bureau. See <https://qsl.net/ik2duw/> for his OQRS.
