AU2M: CANCELLED ---> The 28-31 May IOTA operation from Arnala Island (AS-169) [425DXN 1773] has had to be cancelled "due to unforeseen weather conditions", Sarath, VU2RS announced on 26 May. "Heavy rains and a red alert for the next 48 hours in Mumbai and other parts of South and Western India have made it impossible for us to proceed with the activation. The early onset of monsoon and depression in the region has forced us to prioritize safety.
Despite having booked flight tickets and dispatched equipment to Mumbai in advance, we now face significant losses due to flight ticket cancellations, logistics, and additional expenses. The major challenge is the rough sea and high tide, which makes it difficult for our small boat to operate safely. We are not allowed to proceed under these conditions.
We will provide updates when the situation improves, and we will need to restart the planning process from scratch, including obtaining necessary permissions. We assure you that we will reactivate AU2M as soon as possible, potentially coinciding with other IOTA activations in the Western region".

MUSEUM SHIPS WEEKEND ---> Sponsored by the Battleship New Jersey Amateur Radio Station (NJ2BB), this year's Museum Ships Weekend will be held from 00.00 UTC on 7 June until 23.59 UTC on 8 June. Information on the event, including the listing of expected participating ships, can be found at https://www.nj2bb.org/museum/.
