HEARD ISLAND EXPEDITION 1995 - For several months a group from the 3Y0PI team has worked discretely on a new DXpedition. All key elements of the project are now in place. This is the first announcement of this group's activities. K0IR, the organizer and leader of the 1994 3Y0PI Peter I Island DXpedition, will lead a team to Heard Island in November, 1995. Sir Edmund Hillary will be the Honorary Expedition Leader. The Australian Antarctic Division has issued permit number 95/1 allowing a full-scale amateur radio operation. All environmental assessments and letters of indemnification have been filed and approved. A separate proposal for scientific work during the stay is expected to be approved. A 140-ft. vessel has been chartered for the trip. The team will sail from Fremantle, Western Australia, on Nov. 1, 1995, and expects to land on Heard Island Nov. 12. They will remain until Dec. 1, returning to Fremantle around Dec. 12. The team will be active on all bands and modes, including digital and satellite. The team will elaborate on the strong points of the 3Y0PI expedition, and hopes to take advantage of technical innovations resulting from the 1995 Easter Island/Salas y Gomez expedition in September. Radio equipment is being provided by Yaesu, ETO, and Cushcraft. The DXpedition was organized by 3Y0PI veterans K0IR (Expedition Leader), KK6EK (Scientific Coordinator) and ON6TT (European Coordinator). The team also currently includes another 3Y0PI team member HB9AHL, plus N6EK PA3DUU, K5VT, DJ9ZB, and JH4RHF. Additional support will come from JH1AJT (Japanese Coordinator) and VK2BEX (Australian Coordinator). Contributions to help defray the high cost of transportation are needed. Please forward these to:

USA: K0IR Heard Island DXpedition, P.O.Box 563, Waite Park, MN 56387-0563.

EUROPE: ON6TT - Peter Casier, Oude Heerbaan 30, B-9230 Melle (Belgium)

(when sending cheques to Peter, please use Eurocheques only, drawn in YOUR currency and with the Eurochequecard number written on the back. The bank charges too much if the cheque is made in any other way). Additional details about the project will follow.

TT8OBO -> Operations made from WA4OBO in Chad using the TT8OBO call was considered NOT valid from the ARRL DXCC Desk.

NEW ONE DXCC & IOTA ??? -> In these days newspapers and televisions talked about the big volcanic eruption in Pacific Ocean, near the Tonga archipelago that could create a possible new island; the conditional is necessary as the same volcanic activity that created it could destroy it in a short while but we are sure that someone is looking for Metis Shoal on maps, to consider

the possibility of a new DXCC country.

PIRATES -> Tony, T77C, is still receiving QSL for operations made from an unknown M1TC station. Tony reports that is a pirate activity and ask to not lose time and money sending requests that he is not able to satisfy.
