ARRL NEWS

At its July 19 meeting, the ARRL Membership Services Committee (MSC) of the ARRL Board of Directors voted to remove from the Awards Committee Standard Operating Procedure (SOP) an administrative interpretation of a Board motion. The deleted text said in part, 'Thus it requires a favorable recommendation by the DXAC to initiate a country status review by the Awards Committee.' All ARRL Directors were present at the meeting, and it was the sense of the meeting that the Awards Committee should review negative as well as positive country status recommendations of the DXAC. On July 25, the ARRL Awards Committee voted unanimously that Scarborough Shoal (Huang Yan Dao) should be added to the DXCC List under Point 2 (a) of the Countries List Criteria. Committee members all felt that Scarborough meets the rules that were in place when the petition for new country status was received. Further they concluded that it meets the definition of an island under the UN Law of the Sea Conventions. China claims Scarborough, and there is an absence of other territorial claims. Finally it is more than 225 miles from the nearest part (island) of China. Awards Committee Chair, Chuck Hutchinson, K8CH, shared the results with DXAC Chair, Garth Hamilton, VE3HO immediately after the vote. As announced in a June 30, 1995 news release, the DXAC voted 9 to 7 against recommending the addition of Scarborough to the DXCC Countries List. Under procedures established by the ARRL Board, and because the Chairs are unable to effect a compromise, there is an automatic appeal. In the next step, the two committees will report the reasons for their votes to the MSC for recommendation to the full Board, which ultimately will decide the matter.
