SCARBOROUGH REEF

NEW ONE

The ARRL Board of Directors has approved (11 favourable votes, 3 contrary and 1 abstained) the recommendation from the Membership Services Committee for inclusion of Scarborough Reef in the DXCC Countries List. The recognition of the status of Country is based upon the Section II, Point 2(a) (Separation by the sea) of the DXCC Rules. Cards are valid for the contacts starting from 1 January 1995 (the only creditable operation took place in April 1995, the 1994 operations are not valid). The operations will take place from islands included in the IOTA groups of Tongatapu (OC-049), Ha'apai (OC-169) and Vava'u (OC-064), but exact dates of the activities will be defined on the spot. The new QSL manager of A35RK is W7TSQ (Robert Preston, 809 Cary Road, Edmonds, WA 98020, USA), to whom the requests can also be sent via bureau.
- C3 - Peter, VE3GEJ wants to join the CQ WWDX 160 Meter CW Contest using the call C31LJ, if he can free the antenna from ice.

In February Mike will definitively live in Cambodia, where he should stay for at least two years.

 ***** GOOD TO KNOW *****

3A0FC ---> Mike, G4IUF is still receiving QSL request for CW contacts with 3A0FC, but Mike is not the manager of this station.

4U/KC0PA & KC0PA/S0 ---> Rudi, VE9RHS reports to have answered to about 1800 QSL. It seems that many stations sent the card to Tim, KC0PA via bureau: QSLs currently in the bureau will be sent to Rudi as an exception, but in the future the cards not addressed "via VE9RHS" will probably be wasted. Rudi reports also that he received many QSL for contacts made by 4U/KC0PA between 2 and 25 May 1995: during those days Tim was in the States, then it was a pirate activity.

5R8KH ---> Jerry, WB8LFO reports that he has not received the 5R8KH logs since the end of November 1995.

8P9CW ---> Jerry, WB8LFO reports that he has received no logs from this station for 1995 contacts..

9L1PG & 9L1MG ---> Paul (9L1PG) and Millie (9L1MG) have faxed their logs to States. They refer to 22-26 December 1995 period (about 100 QSO for 9L1MG and about 675 QSO for 9L1PG). The QSL manager (NW8F) should answer in a few days.

ANTARCTICA ---> The Georg-Forster-Station (Y90ANT, Y88POL) and Ardley-Station (DP1KGI) bases have been dismantled. Currently the only German Antarctic bases are Neumayer (permanent inhabited), Gondwana, Drechsler and Filchner (inhabited during the Antarctic summer). A new station is the so-called Frommann-Station or "Dallmann-Laboratory", located near the Argentinian base Jubany on King George Island (South Shetland Islands). It is a German building inside an Argentinian zone: this means that a future amateur activity (up to now the station has not yet been activated) will have a LU/Z or a DP call.

ANTARCTICA/MM ---> From 25 January to 6 February Bill, KA1WEG will be active from a ship in Antarctica. Bill wants to operate on 14.180 and 14.260 MHz.

BV9 & BS7 ---> From researches by Tim Totten, KJ4VH Pratas Island (AS-110) and Scarborough Reef (AS-116) are located in the following CQ & ITU zones: Pratas, BV9 = CQ 24, ITU 44; Scarborough, BS7 = CQ 27, ITU 50.

D2TT & D3T ---> ON5NT has started to reply to requests for Peter, ON6TT activities from Angola (July-August 1995) with the D2TT and D3T calls.

DXCC ---> During the Bologna DX Convention more than 12 thousands QSL have been checked for DXCC by Chuck, K8CH and Dave, KA5TQF. It is therefore comprehensible that a few mistakes were made, to which it is possible to remedy, contacting directly ARRL or writing to Dave (e-mail jizirat@aol.com) or Chuck (k8ch@arrl.org).

F5CCO/P ---> At the end of February Eric, F5CCO will sent through the bureau all the cards for his operations from EU-070. He has received no direct requests.

F5SHQ/P ---> Mathieu, F5SHQ reports that he has sent all the requests for his activities from Arguin island (EU-159). QSL can be sent directly to F5SHQ (Mathieu Roche, 4 cours de la liberation, F-33000 Bordeaux, France) or via bureau.

HEARD ISLAND ---> The Heard Island expedition is being reorganized for the 1996-97 season (they plan a three week operation in January). First ten members of the team are: EA8AFJ (Michel Sabatino), HB9AHL (Willy Rusch), KA6W (Ted Algren), K0IR (Ralph Fedor), KK6EK (Robert Schmieder), N6EK (Bob Fabry), NP4IW (Carlos Nascimento), ON6TT (Peter Casier), PA3DUU (Arie Nugteren), RA3AUU (Igor Harry Booklan). The complete list of operators should be ready for 31 January. The budget for this expedition reaches the 320 thousand dollars. 20 persons will share, contributing with 10 thousands dollars each. Many club and foundations pledged to contribute to reach the remaining 120 thousand dollars. Any other donation from anyone will be much appreciated.

GERMAN ISLANDS ---> The German islands resident amateurs meet on Sunday at 15 UTC on 3.645 MHz.

PY3ZYM/PY0F & PS7ZMA/PY0F - Last August, during a trip to Brasil, Hirotaka (JH2MRA) collected some QSL of his previous operations sending them to local bureau. Hirotaka is now answering to these requests but probably others were lost. Thos who sent QSL to the Brazilian bureau are kindly request to send them again to JH2MRA, via direct or the Japanese bureau. Hirotaka can confirm following operations: PY3ZYM/PY0F, PS7ZNA/PY0F, PY0ZFB, PY0ZFF, PQ1J, CE0Y/JH2MRA, CE0Y/JR2AIU.

PY0FZ ---> Fred, PY7ZZ should start to answer the requests for PY0FZ in a couple of weeks. Fred reports that most of the cards he received had a single green stamp (not enough to cover return postage) but he hopes to balance the costs using the the larger contributions found in other envelopes.

SVALBARD/MM ---> From 3 March to mid- May Claude, F6EOZ will join Jean-Louis Etienne during a scientific trip to Svalbard islands. Claude will be active mainly on 20 meters and via satellite as JW/F6EOZ/MM or JW/TM6E/MM.

TAJIKISTAN & UZBEKISTAN ---> Karl, KY4T/DL4YT works at the U.S. consulate in Frankfurt and during next years he will often visit USA embassies in Tajikistan and Uzbekistan (in November he has already been active as EY8/K4YT). Karl can also directly deliver to Fedor, UK9AA the cards for him. Karl's address is Ernst Schwendler Str. 5/6, D-60320 Frankfurt, or PSC-115 ESC Frankfurt, APO AE 09213, USA.

VK8NSB/P ---> During the recent activity from Groote Eylandt (OC-141) Stuart, VK8NSB/P logged about 2500 QSO. Up to now he received 700 direct cards, to which he has already started to answer (first 150 will have a special card). QSL for bureau cards will be delivered before the 10 February. Those who sent a direct request without covering postage return costs (currentlyan air mail costs 1.20 dollars) will receive the card via the bureau.

PSE NO GREEN STAMPS! ---> Green stamps sent directly to VU2PAI have caused him some problems with local authorities, who do not allow the exchange of foreign currency. For direct requests send him some stamps from your own country to increase the VU2PAI's post stamps collection

YA9XL ---> Yannick, F5TCN [425DXN 245] reports that he has the log for 1-24 December 1995 period. The activity of YA9XL ended the 15 January and Yan should be soon receive the other logs. Yan can only confirm the YA9XL contacts, not those by YA/UT9XL. The address is: Yannick Cailliau, 14 route d' Harnes, F-62880 Annay sous Lens, France.

QSL received via direct : 3D2SK, 3W5FM, 8P9EM, A71BH, C21TT, CE0Z, EW9/UX2MM, LR3D, LW5EXY, RN4W, TY5A, UX200M, V73CO, VA9DH, VG9DH, YA9XL, YI9KU, ZL7PYD
QSL received via WF5E DX QSL service: 3V8BB, 4U/KC0PA, 5X4A, BS7H(!), CP8XA, CY9/KW2P, J20UFT (AF-053), J28JA, KQ4GC (NA-138), R1FJZ, S0RASD, XT2CH
