***** GOOD TO KNOW ... *****

C21BH ---> C21BH's "Birthday Party" activity [425DXN 289] logged some 12,000

QSOs. C21BH also participated in the CQ WW CW Contest with two stations and totalled some 5,000 QSOs. Part of the C21 operation was conducted at the QTH of C21RK. The station is now fully furnished for the current season with both high and low-band antennas. Also C21NJ has a new 20M monobander and can be reached with good signals. A special event full-color C21BH QSL will be released in January. QSL via OH2BH (Martti J. Laine, Nuottaniementie 3D20, 02230 Espoo, Finland).

CANAD-X ---> John Scott (VA3PI/VE1JS) reports that the Canadian DX Association (CanaD-X) is now defunct. The Post Office Box (Box 717 Station Q, Toronto) will be closed as of February 28, 1997. The CanaD-X awards, with the exception of the CanaD-X 100 Award which is now defunct, have all been taken over by Radio Amateurs of/du Canada (RAC). Applications for these awards (Provincial Capitals, Seaway and Trans-Canada) may now be sent to VE6VK: Russ Wilson, RAC Awards Manager, 1235 Richland Road NE, Calgary, AB, Canada T2E 5M5. Copies of the criteria for these awards are available from the above address. The Canadian Contest Championship will also continue in its present form administered by the undersigned, but also sponsored by RAC.

EU-167 ---> On November 17 CT1EEB/p, CT1CJJ/p and CT1/WT20/p were active from Pessegueiro Island (EU-167). QSL via their respective home calls. Pessegueiro is a most wanted island for the IOTA programme (according to the latest Most Wanted list it was needed by more than the 83% of the current IOTA members), but unfortunately the operators could not notify anyone in advance of the operation due to the fact they were not sure if they could get transportation to the island or not. Between 11.03 UTC and 15.02 UTC 513 QSOs were made with six continents. The island is a wildlife refuge and in the winter permissions to stay overnight are impossible to obtain. The operators had to cut short their activity due to the weather changing for the worse.

HEARD ISLAND ---> Ghis, ON5NT has joined the VK0IR team. Bob, KK6EK expects the team to be put ashore on Heard Island around 12 January and come on the air a day or so later. Baring catastrophe, they should be QRV for a little more than two weeks. Contributions are still most welcome at Bob Allphin (K4UEE: 4235 Blackland Dr., Marietta, GA 30067, USA) or the Northern California DX Foundation (P.O. Box 2368, Stanford, CA 94309, USA).

ISLAND/DX NEWS ---> After three years of publishing the Island News the format has changed to include DX NEWS. For a free copy of the Island/DX news send an e-mail to vlepierre@delphi.com The newsletter is published every two weeks and is four pages but will soon be going to six pages. A free sample can also be obtained by mail send a SASE #10 envelope to Island/DX News P.O. Box 707, Amelia Island, FL 32035-0701.

MARSHAL ZSHUKOV-100 YEARS AWARD ---> Established to celebrate the 100th anniversary of Marshal Zshukov's birth, the award is from 2 December 1996 up to 2 December 1997. It is necessary to score 100 points working stations UA3X-, RA3X-, RK3X-, RP3X-, RU3X-, RV3X-, RW3X-, RX3X- or RZ3X-. The award is available also to SWLs. Each QSO/HRD counts 10 points for European stations and 25 points for ExtraEuropeans. The requests (including a GCR and 8 IRCs) should be sent to UA3XAN (Vlad Mogilyov, P.O.Box 703, Kaluga, Russia).

QSL A61AT ---> Mary Ann, WA3HUP is not the QSL manager for the A61AT station

active on 80 metres CW.

QSL J52IM ---> The QSL manager for Dave, J52IM (home call KC9IM) is KB9XN (Howard Barbrey, 306 Greenfield Circle, Geneva, IL 60134, USA). Dave has been advised that someone has checked into one of the DX Nets on at least two dates (12 and 15 November) using my call with a QSL manager of N5YWT. This station must be considered as a pirate.

QSL JD1/7J1AYK ---> Gary, W5FI (ex W5VSZ) reports that the full-colour picture QSL cards for his Ogasawara activity as JD1/7J1AYK [425DXN 276] have been ordered, but he does not have them yet. Gary hopes to begin processing cards out around Christmas or at the turn of the year. He has received over 1000 envelopes so far, with about 1300 QSOs worth of contacts on them to confirm - please be patient and do not send any second request.

QSL RF0Z ---> RA3DEJ (QSL manager RF0Z, AS-095) reported to UR5LCV that QSLs are being printed.

QSL VK1DX ---> The current QSL route for VK1DX [425DXN 290] is via VK1PJ (Philip Rayner, 33 Willoughby Crescent, Gilmore, ACT 2905, Australia).

QSL VP8CSA ---> The QSL manager (DL1SDN) is currently very busy, but requests will be replied. QSLs can be sent also to this address: Dieter Stumpp, Postfach 1941, D-72609 Neurtingen, Germany.

QSL VIA DL7FT ---> The only valid address of DL7FT is: Frank Turek, Postfach 1421, D-14004 Berlin, Germany.

TF50IRA ---> This call has been used for the first time during the recent CQ WW CW Contest. It is the special call of the club station TF3IRA and celebrates the 50th anniversary of IRA (Icelandic Radio Amateurs). QSL via TF3IRA (Box 1058, Reykjavik, Iceland) also via bureau.

W9 BUREAU ADDRESS ---> Jerry, K9BG (9th Call Area Bureau Manager) informs that effective immediately, the new address for the 9th Call Area QSL Bureau in the United States is: NIDX, PO Box 1450, Woodstock, IL 60098. Mail sent to the OLD address (NIDX, PO Box 519, Elmhurst, IL 60126) will be forwarded for one year.

XZ1N ---> The demand for SSB was so high that the XZ1N team made the decision to alter their CQWW CW contest plan. In place of a multi-multi entry, they opted for single band entries in 160 through 15 metres. The remainder of the group concentrated on SSB.

The XZ1N team returned on 27 November. 23187 QSOs (12612 CW, 9936 SSB, 639 RTTY) were made on the nine HF bands as follows (CW/SSB/RTTY): 1222 QSOs on 160 metres CW, 2943 QSOs on 80 metres (2377/559/7), 4288 QSOs on 40 metres

(3876/401/11), 2113 QSOs on 30 metres, 5391 QSOs on 20 metres (1661/3426/304), 1142 QSOs on 17 metres (443/699/0), 5745 QSOs on 15 metres (897/4531/317), 122 QSOs on 12 metres (19/103/0), 221 QSOs on 10 metres (4/217/0). As promised, operators did their best to concentrate on North America and made a special effort on the low bands. The majority of contacts were with European (47%) and Japanese (32%) stations, with North American (15%) stations being worked only during the brief windows available to the team.

Bureau cards can be requested in two ways: the usual method routed as "XZ1N via W1XT" and via the Internet by sending E-mail to xz1n@qrz.com. For a quicker reply, direct requests with a return envelope and sufficient postage are encouraged and should go to W1XT (Bob Myers, P.O. Box 17108, Fountain Hills, AZ 85269, USA).
