+ DL1SCQ, SILENT KEY + It is most unusual to open the bulletin with a SK, but your Editors simply felt they had to express their deep sorrow on the untimely death of a dear friend, Anne Dattenberg, DL1SCQ and their warmest sympathy to her surviving husband, Wolfgang, DL2SCQ. A keen island chaser herself, Anne formed with Wolf an extraordinary couple of activators who gave so many people the pleasure of working plenty of IOTA groups in Europe, Oceania and the Caribbean. Anne was only 47 and passed away on 22 April. She will be dearly missed by the IOTA community all over the world.

You are already aware that A52JS is not a pirate, but the genuine Jim Smith, VK9NS, who is currently operating from Bhutan using his brand new callsign He started on 27 April at 12.16 UTC on 20 metres CW with RW0JR and later at 12.52 UTC on 20 metres SSB with VU2DVP. The second happy news is that Yonten, A51TY has been back on the air since 27 April at 12.01 UTC. He made his first CW (with RW0JR) and SSB (with VK9NL) QSOs on 20 metres. NOT THE QSL MANAGER ---> Please note that Steve, G4JVG is NOT the QSL manager for the following stations:

* P29DX - the call has been reissued [425DXN 455]; Steve held it several years ago and can confirm QSOs made with P29DX as well as P20A between 1991 and 1994 only. Cards for the new P29DX should be sent to the operator (Elmer R. Ribeyro, Sopas Adventist Hospital, P.O. Box 112, Wabag, Enga Province, Papua New Guinea) or to his QSL manager, EA4CEN.
* P20X - Steve was one of the operators of P20X in the multi-single section of the 1993 CQ WPX Contest (the QSL Manager then was Kyle Harris, P29KH, but Steve does not know who the QSL Manager for later operations is).
* VP2E - Steve operated as VP2E/G4JVG in 1990 and can still confirm QSOs

made with that callsign, but he never operated as G4JVG.

QSL 4Z3M ---> All contacts with 4Z3M in the Holyland Contest 2000 (15-16 April) will be confirmed automatically through the bureau. [TNX NH7T/DF2CK]

QSL DU1ODX ---> Ed, DU1ODX reports that effective April 2000 NH0E is no longer his QSL manager. Cards should be sent either direct (Ed Salcedo, P.O. Box SM 284, Manila 1016, Philippines) or through the bureau.

QSL UA0FCD/p ---> Eugene, RA0FF reports that SP7LZD is no longer the QSL manager for the 26-30 July 1999 operation by UA0FCD/p from Iturup Island (AS-025, log search at http://www.qsl.net/ra0ff/). Alex will confirm all of the QSOs through the bureau. He is expected to operate from Shikotan Island (AS-062) in June-July, further information (including the QSL route) is expected in due course.
