IOTA 2000 & NEW GROUPS ---> The following comes from Neville Cheadle, G3NUG (Chairman, Chiltern DX Club): "The new IOTA Directory 2000 shows an additional 58 island groups. Many of these have been split from previously activated groups. From the viewpoint of the IOTA 2000 Programme it is possible that the same island group could be claimed under both its old and new number. In order to avoid any confusion the IOTA 2000 Programme will be based on the 1998/99 and previous IOTA Directories. The only new IOTAs that will be added into the IOTA 2000 Programme will be those that arise when a previously unactivated group shown in the 1998/99 and previous IOTA Directories is activated. We will attempt to maintain a cross-reference between the new IOTA groups and the old ones on the CDXC web pages - [www.cdxc.org.uk](http://www.cdxc.org.uk)". The Chiltern DX Club manages the IOTA 2000 Programme on behalf of the RSGB IOTA Committee.

[TNX BRS-32525]

QSL A52JS (BUREAU) ---> Jim Smith, VK9NS announces he has now made arrangements for dealing with bureau requests for A52JS QSOs.
