DUCIE ISLAND ---> The team departed from Mangareva (French Polynesia) shortly after local sunrise on 15 November and arrived to Pitcairn around 12.30 UTC on the 17th. The voyage took much more time than expected due to a storm, which also prevented them from leaving Pitcairn after just a couple of hours

as originally planned. Their new plans were to leave Pitcairn around 15 UTC on 18 November, to arrive at Ducie around 03.30 UTC on the 20th (Tuesday) and to leave on the 23rd (Friday) at the latest. However at 21 UTC on 19 November they were still approximately 11-12 hours away from the island, with rough sea and even worse weather closing in behind them. Later in the UTC night between Monday and Tuesday the trip to Ducie was cancelled and the team turned around and headed back to Pitcairn. The team left Pitcairn around 1 UTC on 22 November to return to the Gambier Islands. Kan, JA1BK donated all the antennas and masts and two generators to the Pitcairn Island Amateur Radio Association (PIARA) for a future DXpedition. [TNX K6GNX and WD4NGB]
