CHATHAM APPEAL ---> The Kermadec DX Association is going to undertake a DXpedition to Chatham Island (ZL7) later this year and is looking for experienced SSB and CW operators. "As this will be 24 hour per day operation", Ken Holdom, ZL4HU (team leader) says, "we are looking for operators who feel they have the willingness and ability to operate during both day time and night time." For further information please contact the Kermadec DX Association, P.O. Box 7, Clyde, Central Otago, New Zealand or e-mail zl2hu@clear.net.nz [TNX ZL4HU]

DXCC NEWS ---> The recent VP8THU (South Sandwich Islands, 18-22 January) and VP8GEO (South Georgia, 26 January-6 February) operations are now being accepted for DXCC credit. [TNX Bill Moore, NC1L, DXCC Manager]

JD1BLL ---> Mack, JJ2QXI reports that the station signing JD1BLL or JD1BLL/JD1 is most likely to be a pirate. "According to the information available at <http://www.k-denkan.go.jp/faq/atfaq/atfuyo.html> this callsign has not been assigned yet", he says. "Japanese callsign is by alphabetical order, and the last one is JD1BKZ as of February 21, 2002."

NORTH KOREA WRAP-UP ---> The following release comes from Hrane, YT1AD through Nenad, VE3EXY: "We arrived to Pyongyang on March 5th, where we were welcomed by representatives of Ministry of Telecommunications and Foreign Affairs.

We were stationed in Yangakdo Hotel, on the bank of the river with the same name. The hotel has 47 floors, and we were on the 40-th floor, with almost ideal conditions for work. All our equipment was put together, and we were about to start our operation with previously assigned callsign P5A.

Unexpectedly the uniformed military official appeared, and imposed ban on our operation, until the permission of military authorities is obtained.

It was supposed to be available on March 8th, but nobody showed up, possibly because of holiday. We did not want to risk starting unauthorized operation. Meanwhile we had fun listening all pirates pretending to be us, when we did not make a single contact.

Finally, the military official showed up on Sunday and simply said: 'No transmission until further notice.' Than we did not have any choice but to leave. After landing in Beijing, our only comment was: Never Again !!!"

QSL GB0SGI ---> Anyone who is still awaiting a QSL card for the Warrington Amateur Radio Club's (<http://www.warc.org.uk>) GB0SGI operations from EU-120 (3 & 5 August 1999 and 3-6 July 2000) can e-mail Ron Davies, G0WJX (ron-G0WJX@warc.org.uk) and he will check the log and send a duplicate. [TNX G0WJX]

QSL IU3A ---> Please note that Mauro, IV3HAX cannot confirm QSOs made with IU3A before 2001.

QSL OH2BV/BY1DX ---> Tor Nylund, OH2BV is receiving dozens of bureau cards for OH2BV/BY1DX (2000-2001), but he has nothing to share with this activity. More than likely those QSOs were made with Jari, OH2BVE [425DXN 465], who had announced he would confirm all the QSOs automatically through the bureau (direct cards had to be sent to OH6LI, who would act as a maildrop).

QSL UA0IA ---> Serge, UA0IA was active as UA0IA/0 from AS-018 in 1999 and from AS-025 in 2000-2001. His former QSL manager (US7IIA) is currently living in Germany, Serge is not in contact with him any longer and, according to Alex, UY9IF, "all the QSLs left unanswered are lost completely". The new QSL manager is UT7IY (cards have been already printed).

QSL MANAGER OFFERED ---> Agostino Palumbo, I2FIQ has recently retired and offers his services as QSL manager for a DX station. Please contact him at ik2fiq@hotmail.com

"THE LOST ISLANDS" DXPEDITION ---> Serg, UA1OMS reports that on 11 March he has accepted the order for printing the QSL cards for the 16 April-2 May 2001 "Lost Islands" DXpedition [425DXN 520]. The operations concerned are RI0B (AS-156), RU0B (AS-057), RS0B (AS-042), RU0B/p (AS -050), RS0B/p (AS-068) and R3CA/p (AS-005). Cards should be ready within a couple of weeks (the status of the order can be checked at <http://www.quadrat.ru/gsl/english/rightnow.htm>).

WORLD ROBINSON CUP 2002 ---> The Russian Robinson Club sponsors the "World Robinson Cup" (wrc_rrc@mail.ru) for contacting stations operating from islands between 1 April and 30 September 2002. The national island programmes considered by WRC are CISA (Canada), DIA (Denmark), DIB (Brazil), DICE (Chile), DIE and DIEI (Spain), DIFM and DIFO (France), DIP (Portugal), GIA (Germany), IIA and ILIA (Italy), IOCA (Croatia), IOSA (Scotland), RRA (Russia), SPIA (Poland), UIA (Ukraine), USIA (United States) plus IWDR (Islands of West Dvina River). Full information is available on the Russian Robinson Club's web site, whose new URL is <http://www.hamradio.ru/rrc>

XW1HS ---> The advance team of the RAST/HSDXA Thai/Laos Friendship DXpedition was active as XW1HS during the past weekend. The main operators were Champ/E21EIC, Choon/E20HHK, Cy/HS0GBI and Winit/HS1CKC. This was a preliminary trip to make arrangements for a main joint operation in April, whose details will be announced later. QSL via E21EIC. [TNX HS0/G3NOM]
