3CAK ---> Victor Loginov, UA2FM provides a few enlightening details on 3CAK. The operator's name is really Vladimir Arseniev, and his address is correct [425DXN 714]. 3CAK is not an amateur radio call, but rather the callsign of the ship (the "Djibloho") Vladimir operates from. "Actually he should use this call adding /mm", Victor says, and adds that Vladimir was a club station operator over 20 years ago, and never had a personal callsign. Victor and his friends at RK2FWA contacted him and explained that his operation is illegal. They told him to apply for a 3C licence and operate from the mainland, or at least to use an amateur radio call /mm.
