KB5GL & KATRINA ---> He is just one of the many thousands people who have been struck by Hurricane Katrina and its aftermath. However, since he is a good friend of your Editors', let us share with you the deep sorrow and anguish we felt when Cezar, VE3LYC gave us first hand information about Silvano Amenta, KB5GL.
He is safe and sound in Texas, and his family members are all OK. However, he only managed to save a few personal belongings, as they had to flee the rapid advancing hurricane. Silvano estimates that 90-95% of everything that they had (house, furniture, many old family things dear to them, radio equipment) is lost. His house in Metairie is now virtually entirely under water. He took the portable TS-570 with him, but in the haste he forgot the vertical, so he is unable to go on the air. According to Cezar, Silvano is understandbly in great distress: "He tries to pick up the pieces, but has little to hang on to. It is now that he needs his friends' moral support more than anything else".
If anybody wants to speak with Silvano directly, his phone number at the hotel is +1-713-960-8100 (room 2031). Otherwise, they can e-mail Cezar (ve3lyc@hotmail.com).

QSL R0K ---> Alternative QSL routes for R0K (AS-174) and R0K/p (AS-038), as well as for RZ3EC/0 and RV3MA/0, are via K8SIX (USA), VE6VK (Canada) and HA1AG (Europe). Feel free to send a small donation to either K8SIX or VE6VK with your SASE. This will be transferred to Eugene, RZ3EC via a safe method.

QSL TT8BZ ---> Gabriele, IK3GES is the new QSL manager for Dino, TT8BZ and the qrz.com address is no longer valid. Dino operates in his spare time and is now equipped for digital mode activity. QSL via IK3GES direct or bureau. [TNX IK3GES]

QSL TT8M & TT8AMO ---> Dennis, PA7FM reports that there several people were denied credit for DXCC, as there was an 'out of date' problem with the TT8M and TT8AMO cards. However, everything has been sorted out and the final operational dates for TT8M and TT8AMO are the 31 July and 19 June respectively. Those who got these cards rejected for DXCC should contact the DXCC Desk (dxcc@arrl.org). QSL requests for both stations are still being processed as sson as possible; direct cards with insufficient return postage or without SAE will be sent via the bureau.

QSL VC3L ---> As repeatedly reported in the past [425DXN 703, 706 and 710],

the QSL route for VC3L's operations between late October and late November 2004 is via VE3AT. Gary Westhouse, VE3NIT says that the VE3 QSL Bureau is receiving cards addressed "via VE3FXX" for QSOs made last year. Please note that VE3FXX was the QSL manager for contacts made with VC3L back in 2002 [425DXN 596].

QSL VK0DX ---> Finn, VK4LL reports that as of 30 August, all direct cards received so far for his VK0DX activity from Davis Station (VK-03 for the Antarctica Award) have been sent out. If you do not receive your card by October, please e-mail Finn (vk0dx@hotmail.com). Also please note that the P.O. Box used for VK0DX is going to be closed and that Finn is unable to use the QSL bureau. [TNX VK4LL & IZ8CGS]

STATION FOR RENT ---> Would you like to go and operate from Suriname? Ramon Kaersenhout, PZ5RA reports he is offering his station for rent. Details on equipment, antennas, etc can be found at http://www.dxholiday.com/sa/pz.htm

SV/IK8VRH ---> Tony, IK8VRH reports he made around 2200 QSOs (60% RTTY, 40% SSB) during his recent trip to Greece. He operated from the islands of Skiza (EU-158), Kythira (EU-113), Dokos (EU-075) and Styra (EU-060). QSL via home call. E-mail requests for bureau cards can be sent to ik8vrh@virgilio.it
