BELGIUM: VANITY CALLS ---> Franki, ON5ZO (UBA HF Manager) reports that amateur radio operators from Belgium can now apply for a secondary 2x1 vanity callsign with all possible ITU prefixes allocated to that country (but OT5x and OR5x are still reserved for club stations). The primary focus of these new calls is contesting, but they can also be used for everyday DXing.
Koen, ON4CCP says his vanity call is OT1A, which was used back in contests back in 2001. Please note that the new QSL route is via ON4CCP (no longer via ON7LR).

CQ DX MARATHON ---> Last run in 1948, the new CQ DX Marathon is a year-long DX hunt, with participants competing to see who can work the greatest number of countries ("entities") and CQ zones over the course of a full year, then starting again at zero at the beginning of the next year. This year's Marathon began at 00.00 UTC on 1 January 1 and will end at 23.59 UTC on 31 December. A new dedicated web site has been established at www.dxmarathon.com [TNX K9EL]

HAMFEST (VU4) INDIA 2006 AWARDS ---> A number of awards will be available for contacting the various operators who will be active for the Hamfest to be held at Port Blair, Andaman Islands in April. The basic award will be issued to any station who works at least four different VU4 stations (callsigns). Contacts can be made on any band/mode starting from 18.30 UTC on 17 April until the DXpeditions are over. Full information is available at http://www.niar.org/hamfest/awards.html
The list of amateur radio operators who will attend the Hamfest so far includes: 4Z4DX, A7/VU3MUV, AA4NN, CE2GLR, DF2IC, DJ0VF, DJ6TF, DJ7ZG, DJ8NK, DK1BT, DK5WL, DL1QW, DL3GA, DL4KQ, DL5OAB, DL7AFS, DL7DF, DL8LE, DL9GFB, DL9MS, F4EGD, F5CWU, G3LQP, I5JHW, IK1PMR, IZ1GLO/K2LEO, JR3MVF, K0IR, K3LP, K4VUD, K6JAJ, K6WX, K8LEE, KD8CGN, KF4IMJ, M1AEV, N2LM, N3OSH, N4GN, N6TQS, N7NG, N8TT, OE1ZKC/JH4RHF, OH2BBM, OH2BE, OH2BH, OH2KI, OH8HBG, ON5GA, PB2T, PY2DM, SP3CYY, SP3DOI, SP3GEM, SP5XVY, SP9EVP, VK2JNA, VK8FR, VK9NS, VU2AJW, VU2BL, VU2BOO, VU2BVB, VU2CBU, VU2CLM, VU2CMN, VU2CSV, VU2DBP, VU2DET, VU2DH, VU2DSV, VU2DVO, VU2FI, VU2FSX, VU2GHX, VU2GL, VU2JJS, VU2JMA, VU2JOS, VU2JVA, VU2LFA, VU2LIC, VU2LK, VU2LKB, VU2LU, VU2MY, VU2MYH, VU2MYL, VU2NIS, VU2NNA, VU2NTR, VU2OCY, VU2PKV, VU2RBI, VU2RIM, VU2RO, VU2SAX, VU2SBJ, VU2SDU, VU2SH, VU2SIE, VU2TRW, VU2UWZ, VU2VPR, VU2WDP, VU2ZBZ, VU3ADI, VU3DAC, VU3DSM, VU3DVS, VU3ELR, VU3HDP, VU3ICC, VU3LGX, VU3LMS, VU3MCK, VU3MMP, VU3NOJ, VU3PAK, VU3RSB, VU3SQB, W0GJ, W2NDP, W3UR, W8AEF, W8GEX, W9IXX, WA6UVF, WA9QJH, WE7K, XU7ACC, YB0US (http://www.niar.org/hamfest/participants.html).

HUNGARY: 6 & 40 METRES ---> Effective 29 March amateur radio operators in Hungary can start using the 50-52 MHz band on a secondary, non-interference basis. All stations holding a CEPT-equivalent licence are automatically granted access: the power limit is 10W ERP and mobile operations on 6 metres are not allowed. Hungarian amateurs have also gained access to the 7100-7200 kHz segment on 40 metres. [TNX HA5X]

NOT THE MANAGER ---> Oreste, IZ8EDJ is receiving cards for V59SWK, but he is

not the QSL manager for that station. Oreste says he currently handles only V51KC, V55O, YI3SRA and IR8C.

QRP MAS ---> The QRP Contest Community (http://www.qrpcc.de/) invites to take part in the 7th QRP Minimal Art Session (qrp-mas) that will take place on 25 May from 19 to 23 UTC on 80 metres CW. Contacts shall be made with homebrew rigs as simple as possible and constructed of as few components as possible. Further information can be found on QRPCC's website or from Hartmut Weber, DJ7ST (dj7st@darc.de). [TNX DJ7ST]

QSL 9M6AAC ---> DJ8XW and DL2QT recently operated from 9M6AAC at Hillview Gardens in East Malaysia. The permanent QSL manager for all operations from 9M6AAC over the past 10 years is N2OO. The QSL route announced by DJ8XW and DL2QT ("via DL2QT") is incorrect, but they will answer whatever cards do go via that route if they have already been sent there. [TNX N2OO]

QSL VIA YB1BOD/6 ---> Donny reports that his correct address is: Donny Sirait, P.O. Box 1206, Medan 20001, Indonesia. Donny is the QSL manager for the recent operation from Simeulue Island (OC-270). Stations from Europe only can send their request to IZ8CCW.

SINGAPORE: 40 & 80 METRES ---> David, 9V1RH would like to remind readers of 425 DX News that "since September 2005 9V1 amateurs may use the band 7.0 to 7.2 MHz. So if the QRM below 7.1 MHz is too heavy, calling CQ Contest listening 7,110 may get an easy contact. For 9M2, 9M6, 9M8, 9V1 and YB/YC the 75/80 metre band runs from 3,500 to 3,900 kHz, so it is possible to work split with us above the DX window".

W5DXCC ---> The Lone Star DX Association in conjunction with Ham-Com 2006 will host this year's W5DXCC, to be held on 9-10 June in Plano, TX. The main event will be a dinner at the Southfork Hotel on Friday evening (this year's featured speaker and programme at the dinner event will be Bob Allphin, K4UEE and the 3Y0X DXpedition to Peter I Island), but there will be additional DX events on Friday and Saturday at the convention center. To order tickets or read about additional DX programme information, please visit http://www.hamcom.org [TNX WW5L]
