The first activity of 1A4A (which stands for One Aid For Africa) will help collecting funds to build a school for young girls, as part of a support plan for the rebirth of South Sudan, coordinated by the Order of Malta, together with the Italian government. CQ DX MARATHON ---> The new CQ DX Marathon [425DXN 777] is a year-long DX

hunt, with participants competing to see who can work the greatest number of countries ("entities") and CQ zones over the course of a full year, then starting again at zero at the beginning of the next year. This year's Marathon began at 00.00 UTC on 1 January 1 and will end at 23.59 UTC on 31 December: "it is now time to start gathering your country and zone contacts made in 2006", John, K9EL says, "and enter them onto the official DX Marathon score sheet available at <http://www.dxmarathon.com>". All logs must be received no later than 28 February 2007. The 2007 Marathon will start at 00.00 UTC on 1 January. [TNX K9EL]

DIRECT CARDS FROM INDONESIA ---> Donny Sirait, YB6LD (ex YB1BOD) has compiled an informative document on how to obtain a direct QSL card from Indonesia. It includes the current postage rates to several destinations around the world and useful tips on IRCs, whose redeemable value depends on the country they originate from, not on their "destination": for instance, a coupon issued in the US will give a 4,500 Indonesian Rupiahs postage stamp (which covers a letter to Japan, but not to the US). "Normally", Donny says, "a 20gr (single card request) need 2 valid IRC's from the originating country for an airmail reply". The document (.pdf format) is available from Donny, please contact him at yb6ld@yahoo.com if interested.

HNY 2007 PARTY --->The "Happy New Year 2007 Party", sponsored by Polish MK QTC Magazine (<http://qtc.radio.org.pl>), will take place from 18 UTC on 31 December to 18 UTC on 1 January. For details on the event and the relevant award, please e-mail Sylwester Jarkiewicz, SP2FAP at qtc@post.pl [TNX SP2FAP]

JIIA ---> The JIIA Activity Year will run from 1 January through 31 December 2007 to celebrate the Japanese IOTA Islands Award (JIIA) programme's 5th anniversary. A special award will be issued for contacts made with at least 10 stations operating from different islands. Please contact Yuki, JI6KVR (ji6kvr@dance.ocn.ne.jp) for further information.

OH CONTEST/DX MEETING ---> The 12th annual Contest & DX Meeting, organized by the Contest Club Finland and the OH DX Foundation, will be held aboard the Viking Line M/S Gabriella on 19-21 January 2007. The ship will travel from Finland to the Aland Islands to Sweden and back. Further information, prices and on-line registration form are available at <http://www.contestclubfinland.com/> (bookings should be made no later than 18 December). [TNX OH1UA]

PIRATE ---> The NZART (New Zealand Association of Radio Transmitters) Monitoring Service reports that the station signing ZK3DX and claiming to be operating from Nukunonu Atoll (Tokelau) is a pirate. He has been operating (usually around 7000-7010 kHz between 5 and 7 NZDT) since 16 September and was last heard on 3 December. The Tokelau Administration has not issued this call sign, nor have they heard of any amateur operating from these islands. [TNX ZL2RR and AD1C]

QSL 403T ---> Bill Moore, NC1L reports that the first batch of cards received by US operators contained only the month and year and not the specific day of the QSO. 403T cards that show July 2006 or later, with or without the actual day being shown on the card, will be credited for "Montenegro". QSLs for QSOs in May 2006 or earlier will count for "Serbia and Montenegro". Cards for QSOs in June 2006 will not be accepted for any credit (Montenegro was added to the DXCC list on 28 June 2006). Those who received a 403T QSL card with no date number and wish to obtain a corrected QSL can send a self addressed envelope directly to John Kennon, N7CQQ who is sending out cards for all of the Americas.

QSL OC-270 ---> Donny, YB6LD (ex YB1BOD) says that all of the direct requests received so far for the March 2006 operation from Simeulue Island (YC6LAY/p, YB6LYS/p, YC6JKV/p, YB6PLG/p and YB1BOD/6) have been processed and mailed. Direct requests from Japan without sufficient return postage have been honoured through the JARL bureau. "For other stations outside JA that did not send sufficient funds, I have no other choice than to send it directly since sending it to the bureau will cost me the same amount (due to small numbers)", Donny says.

QSL ST2A ---> Boris, T93Y reports that all direct requests received as of 9 December have processed and mailed. You can give a look to the card designs in the "QSL Info" and check the status of your request in the "LOG Search" sections of the ST2A website (<http://www.t93y.com/st2a>). Boris reminds the DX community that 1 USD does not cover the postage from Bosnia and Herzegovina to anywhere in the world, while 1 IRC does. [TNX T93Y]

QSL VIA DL5EBE ---> Dominik reports he is now living in Russia. Those who need a direct card for any of the stations he is the QSL manager for should mail their request to the following address: Wintershall Holding AG, Abt. EV, Mr. Dominik Weiel, Friedrich-Ebert-Str. 160, D-34119 Kassel, Germany. Cards sent via the DARC QSL bureau will be forwarded to Dominik.

QSL VIA RZ3DJ ---> Those who still need a QSL card for Vlady's (RU3HD) activities from Antarctica can send their request to RZ3DJ (Dmitry Tsyplakov, P.O. Box 5/3, Pushkino - 5, 141205, Russia). Vlady made about 36,000 QSOs (153 on 160m and 1282 on 80m) as R1ANN and RU3HD/ANT from Novolazarevskaja (IOTA NA-01, UA-08 for the Antarctica Award), and some 7,000 QSOs as R1ANN/mm and RU3HD/mm from the "Academic Fedorov". [TNX RZ3DJ]

QSL YX0A & YX0LIX ---> "The cards have arrived, and I'm in the process of preparing the first mailings", Steve (KU9C) says. "The process will be a bit slower than I'd like, due to the holidays and a few business and family commitments. Please do not resubmit; I'll use the DX bulletins to advise when I've finished mailing what I've got and status updates along the way. I do apologize for the delay in getting the cards out".

VU7LD ---> The 9th press release (issued on 9 December) states that the second batch of six operators (VU2GMN Gopal, VU2LX Lakshman, VU3SPQ Sunny, VU3RSB Sara, VU3ELR Sasi and VU2SJD Sanjay) were sailing to Kavaratti to join the other operators who have been there since 30 November. "We are aware of issues with the published online logs where the mode and band have in some cases been wrong, also a couple of logs from a few sessions were not published on the web", Gopal (VU2GMN) says, "We are working to rectify that in the next log update expected latest around the 20th of December. [Actually, the log search at <http://www.arsi.info/vu7/online-log.shtml> now covers the period 1-12 December, and the next update is expected for 16 December, Ed.]. A number of constructive suggestions have been received from the international DX community and we have taken note of the suggestions and information has already been passed on to the operators who are working to implement as many of them as is feasible". A few pictures of VU7LD can be found at <http://www.vu7ld.info/>.

+ SILENT KEY + We were saddened by the news of the sudden passing of Agustinus "Agus" Ginting, YC6JKV, who was killed in a car accident on 8 December. He had been an active amateur since the Eighties and had participated in a few IOTA operations, including activity from the islands of Mursala (OC-245, March 2001), Simeulue (OC-270, March 2006) and Nias (OC-161, April 2006). [TNX YB6LD]
