&gt;&gt;&gt; ANDAMANS &amp; LAKSHADWEEPS 2008 &lt;&lt;&lt;

The Andaman Islands (VU4MY and VU4RG) and the Lakshadweep Islands (VU7NRO and VU7SJ) will be activated again this year by teams of foreign and national operators as part of the celebrations for the Silver Jubilee of the National Institute of Amateur Radio (NIAR) [425DXN 883].

"This is the third year in a row that the Government of India extends its full support to foreign and Indian radio amateurs to operate their Amateur Radio stations from remote Islands of Andamans and Lakshadweep", S. Suri, VU2MY says. "The simultaneous Amateur Radio activity from these two islands is a path breaking achievement for NIAR during the year of Silver Jubilee". Further information under VU4 and VU7 below.

&gt;&gt;&gt; DESECHEO 2009 &lt;&lt;&lt;

On June 30, 2008, the Caribbean National Wildlife Refuge office in Puerto Rico sent a letter to persons that had previously made inquiries about an Amateur Radio operation from Desecheo. They announced their decision to allow one group to activate the island and invited proposals that must adhere to strict guidelines and criteria. Applicants had 45 days to prepare and submit their proposals.

CNWR received seven written proposals. A panel of three Fish and Wildlife Service employees, from areas within the Service outside of the Caribbean refuge, spent September 24 & 25 reviewing and evaluating the proposals. The selection criteria used were those outlined in the proposal invitation letter. Points were awarded for how well criteria were addressed for thoroughness and documentation.

The proposal with the highest ranking was submitted by team leaders Dr. Glenn Johnson, W0GJ, and Bob Allphin, K4UEE. Their plan involves a team of fifteen operators for a 14-day operation.

USFWS has not announced the actual dates of the operation yet, but the DXpedition is expected to take place between January 15, 2009 and March 30, 2009. A Special Use Permit (SUP) will be issued as per USFWS regulations. We expect that the DXpedition team and Dxers worldwide will have a minimum of 30 days notice. [TNX K4UEE]

- 3B8 - After attending the International YL Meeting in South Africa, Ingrid/LA8FOA and Unni/LA6RHA will go and operate as 3B8/LA8FOA and 3B8/LA6RHA from Mauritius (AF-049) on 13-17 October.
- 5U - Chris, 5U5U is going QRT from Niger and will spend as much time as he can on the bands until he closes down, around 9 November at the latest. His next destination will be the Central African Republic (TL) in January 2009. As always, he will operate SSB in his spare time. QSL to Christian Saint-Arroman, Chemin de Mousteguy, F-64990

425 DX NEWS MAGAZINE ---> The latest issue (September 2008) is now available at <http://www.425dxn.org/monthly/index.html>. Articles and pictures should be sent to Nicola Baldresca, IZ3EBA.

ETHICS AND OPERATING PROCEDURES FOR THE RADIO AMATEUR ---> At its June 2008 meeting the IARU Administrative Council, noting that "poor operating behavior adversely affects the enjoyment of all radio amateurs and does not enhance the reputation of the Amateur Radio Services", resolved "that all radio amateurs be encouraged to operate to the highest levels of proficiency, with proper consideration for others using the amateur radio bands" and that "the necessary effort be made by member-societies to teach newcomers and others correct operating behavior". IARU AC therefore "endorses and recommends the principles set out in the booklet 'Ethics and Operating Procedures for the Radio Amateur' by John Devoldere, ON4UN and Marc Demeuleneere, ON4WW, and encourages each IARU Region to consider this booklet, with a view to adopting it, including any Regional variations that might be felt appropriate".

The 67-page booklet is currently available for free download from a number of websites, including ARRL, IARU Region 1, IARU Region 2, REF, RSGB, UBA and VERON. Current available languages are English, French and Dutch; translations in other languages are being made.

KP5 2009 ---> The website for the operation is under construction at

<http://www.kp5.us>

LOGS ---> The log search for CN2IPA (as well as for other past operations by HA3JB) can be found on Gab's new website at <http://ha3jb.p8.hu/> [TNX HA3JB]

QSL T05FJ ---> Paul, F6EXV says he would like to stop answering direct requests for T05FJ and will confirm every outstanding QSO with a bureau card by December. He is not closing the log, but would be grateful to those intending to request a direct card to do so without further delay. The log has been uploaded to LoTW, and can be checked at [www.f6exv.org](http://www.f6exv.org).

QSL VP6DX ---> The website home page ([www.vp6dx.com](http://www.vp6dx.com)) now contains a link to a list of callsigns for which QSL cards have been sent. As of 30 September QSL cards confirming 78,286 QSOs had been mailed to 11,363 stations (the total log contains 183,503 QSOs with 38,502 callsigns). Please visit the website for a comprehensive report on the QSLing progress, including current backlog status, "missing cards" and other related topics.

QSL VIA DL3MDJ ---> Robert says he has uploaded to LoTW his old logs (3383 QSOs) for his DX activities in the early Nineties: 5W1JM (Upolu, OC-097), A35DJ (Vava'u, OC-064), T30DT (Tarawa, OC-017) and ZK1XL (Aitutaki, OC-083). These logs are still open, and paper QSL cards can be requested direct or via the bureau.

VK9DWX ---> Documentary Archive Radio Communication covers VK9DWX, the Willis Island DXpedition, with a special web page, containing background information, a review of previous activations, and soundfiles of the exclusive interviews recorded during the expedition for international broadcasters. Follow the link at [www.dokufunk.org](http://www.dokufunk.org) [TNX OE1WHC]
