GOOD TO KNOW

ANTARCTICA I A nice collection of images for a large number of Antarctic bases, including those where F5PFP and ON7ZM operated from in February-March (FT5YJ, VP8DLM and CE9XX), can be found at <http://www.french-polar-team.fr/> (click on "Antarctic Challenge" and then on "Antarctic stations, huts & refuges"). [TNX F5PFP]

CORSICA I Maurice, F5NQL reminds all foreign amateur radio operators heading to Corsica that (a) the use of 6 metres is strictly forbidden over there and (b) the 7100-7200 extension on 40m has not been granted so far.

CQ SIXTY METRES I Sixty metres enthusiasts can find lots of useful information at <http://www.60meters.net/>, including information on current and upcoming DX activities on 5 MHz gathered by Joe, W8GEX.

CQWW DX CONTEST: A NEW CATEGORY I The new "Xtreme" category has been added to the CQ WW DX Contest "to encourage the development of new technologies in amateur radio communications in general and contesting in particular". The new category "has been established to allow amateurs to participate in the CQ WW Contest while experimenting creatively with Internet-linked stations and other new technologies that currently are not permitted in any of the contest categories". Complete details can be found at http://www.cq-amateur-radio.com/XtremeCQ_WW_Experimenter_June.pdf

DXCC NEWS I HZ1EA (Saudi Arabia) has been approved for DXCC credit. If you have had this operation rejected in a recent submission, please send a note to dxcc@arrl.org to be placed on the list for an update. Also, once completed, if you have an account in LoTW, the update will be posted to your account. [TNX NC1L]

G3SWH I Over the past few days Phil, G3SWH has had some problems with the "QSL Request" and "Contact Me" functions of his web site (<http://www.g3swh.org.uk>), as a result of his ISP changing servers. These problems have all been resolved and the web site is now fully functional. [TNX G3SWH]

HF DX CHALLENGE I Every March, the Chiltern DX Club runs its "LF Challenge" to encourage operation on 40, 80 and 160 metres. Gary, ZL2IFB has "stolen CDXC's good idea and set up an HF DX Challenge to take place annually in September on the high HF bands. The CDXC Committee is not only aware of this, they support it". This activity period ("a friendly competition for DXers and not a contest as such") will be held from 00.00 UTC on 1 September through 23.59 UTC on the 30th, on 15, 12, 10, 6 and 4 metres only (where permitted) and on any mode permitted by your license. The scoring will be one single point per DXCC Entity contacted, regardless of band or mode. Further information can be found at http://www.g4ifb.com/html/hf_dx_challenge.html [TNX ZL2IFB]

ILES EPARSEES I Previously placed under the administration of the prefect of Reunion, the so-called Iles Eparses (Scattered Islands, including Europa, Juan de Nova, Glorioso and Tromelin) have been administered by the French Southern and Antarctic Lands (TAAF) since 3 January 2005 and have constituted the TAAF 5th district since 21 February 2007. Amateur radio call signs will be affected by the change as follows: Europa = FT#E, Glorioso = FT#G, Juan de Nova = FT#J, Tromelin = FT#T.

K5D QSL STATUS I Bob Schenck, N200 and his team have finished OQRS requests received through about 4 May. OQRS QSL processing will be resumed shortly, and the system continues to be available for QSL requests. The team is now focusing on the direct mail in the same order as the mail was received. Bob continues to do the log processing after which the QSLs will be mailed gradually by members of his QSL processing team. As of 2 June they have confirmed 26,353 QSOs, and "it will surely be a few months before we can become current". The first large batch on CONFIRMED QSOs ONLY will be uploaded to LoTW within the next week: "by only uploading confirmed QSOs (in batches)", Bob says, "we think that this is a fair compromise that is a win/win for everyone involved". The balance of the full log will be uploaded in early 2010. For the time being, please do not contact the QSL manager about QSL issues, but visit www.k5d.us for current QSL status. Bob will be happy to address any concerned "when things calm down". [TNX N200]

LOGS I A log search for the 23-30 May TM0M activity from Molene Island (EU-065) can be found at <http://users.belgacom.net/cdxg/> [TNX ON4ZD]

QSL 4U I Get your missing QSLs for QSOs with 4U stations (4U1UN, 4U60UN, 4U50SPACE, 4U11TU, 4U1WRC) at the Swiss DX Foundation's booth at Hamradio 2009 (Friedrichshafen) on 26-27 June. Bring your QSO data with you and observe the working hours of the QSL manager (to be available at the booth). Please note that cards for contacts made with 4U11TU and 4U1WRC will be issued only if the relevant QSOs can be found in the online log at <http://life.itu.ch/radioclub/4u1/index.php> [TNX HB9BGN]

QSL 9J2FR & 9J2AA I Claudio, IK2RZQ says he still has logs and blank cards for either Renzo/9J2FR and Rosa Angela/9J2AA. Requests can be sent direct or via the bureau.

QSL HV50VR I Please note that the new QSL route is via IV3KKW: the person in charge is still Alessandro Carletti (formerly known as IW0GPN), who received his brand new callsign a few days ago. QSL direct only or LoTW. Alex says that all of the requests received so far have been processed and mailed.

QSL VIA W5UE I Randy Becnel, W5UE [425DXN 941] is the new QSL manager for 9V1YC, 9V9HQ and N1YC/VK9X. After many years of excellent service as James' QSL manager, Joe/N51D is handing over duties to Randy in order to recuperate after an extended illness in hospital. W5UE has all the logs, blank cards and pending QSL requests for all James' callsigns, so feel free to check his website (<http://w5ue.net/qs1-w5ue.html>) for periodic updates and status of QSL requests. Randy will also honour any requests that may be needed in the future for the following old calls held by James: 9V0YC, 9V8YC, KB1CM/VR2, KB1CM/VS6, KB1CM/ZS, KH8/KB1CM, VR2/KB1CM and VS6/KB1CM. However, all of these logs are on paper only and will require extra processing time, and Randy will probably have to manually print cards as well. [TNX W5UE]

SOUTH AFRICA I Effective 10 June, amateur radio operators from South Africa have full access to the 40m band (7000-7200 kHz), and ZR licencees are allowed to operate on 14225-14350 kHz. [TNX ZS4BS]

TOP LISTS I The latest Topband, Topmode and Toplist listings are now available at <http://www.425dxn.org/awards/toplist/index.html>. Send send your scores, as well as any request for further information, to Erminio Pandocchi, I2EOW (i2eow@fastwebnet.it)

VK4FRAJ I This is neither a pirate, nor 'a commercial station', but properly licensed Raj DeYoung, the 14-year-old son of Eddie DeYoung, VK4AN. "There is still much reluctance and confusion amongst contesters regarding VK 4-letter suffix calls", Eddie says. "My son is probably the only VK with a 4-letter suffix that operates on CW, and is VERY frustrated when contesters keep asking if his call is 2-letters or 3-letters". Australian four-letter suffix callsigns have been issued to Foundation Licence holders since 2005. They can only use commercially manufactured equipment and are allowed to operate SSB, AM, FM or "hand keyed" CW on 80, 40, 15, 10 and 2 metres, plus 430-450 MHz, with power restrictions. All Foundation class suffixes begin with an "F" plus three more letters. [TNX W1AW]

Complete information can be found at <http://wff44.com/en/contest/> [TNX RW3GW/3]
