GOOD TO KNOW

ARRL 10 METER CONTEST ● The annual ARRL 10 Meter Contest will be held on 11-12 December. Please note that this year's event will introduce all of the 32 Mexican States as multipliers. Complete details can be found at www.arrl.org/10-meter

DL POSTAL RATES ● Effective 1 January, there will be one single postage rate for standard letters (up to 20 grams) mailed from Germany to everywhere in the world: the rate from DL to Europe will rise from EUR 0.70 to EUR 0.75, while the rate from DL to the rest of the world will go down (!) from EUR 1.70 to EUR 0.75.

DU1/F2JD ● Gerard, F2JD has had to cancel his planned trip to the Batanes Islands (OC-093) [425DXN 1023] "due to airplane problems". [TNX F6AJA]

ICELAND ● Jonas Bjarnason (TF2JB), President of the Icelandic Radio Amateurs (IRA), reports that the Icelandic Post and Telecom administration has extended access to the 500 kHz (493-510 kHz), 70 MHz (70.000-70.200 MHz) and 5 MHz bands by two years, until 31 December 2012. As for 60 metres, TF operators have been granted 150 kHz (5360-5410 kHz) instead of the previous eight fixed channels, but the maximum power allowed has been reduced from 200 to 100 watts.

INTERNATIONAL NAVAL CONTEST ● This year's International Naval Contest will be organized by Marinefunkerrunde (MF), the German Naval Society. Complete details on the event, that will be held on 11-12 December, can be found on www.marinefunker.de

LOTW ● ARRL's Logbook of the World (LoTW) is once again accepting DXCC and WAS applications. The system had been down earlier this week while undergoing testing before adding capabilities to apply for awards based on Maidenhead grid squares, such as the VHF/UHF Century Club awards (VUCC) and the Fred Fish Memorial Award. Testing for the addition of these functions is still ongoing.

OQRS ● Francesco, IZ7AUH reports he has enabled an OQRS Service for requesting bureau and direct cards for any of the callsigns that he manages (www.iz7auh.com)

PJ4B ● The October 2010 PJ4B video can be viewed via the PJ4B weblog (<http://sitekreator.com/pa3gvi/pj4b-weblog.html>) as well as on YouTube (<http://www.youtube.com/watch?v=q6X4JX11Ewk>). [TNX PA3GVI]

QSL MANAGER OFFERED ● Saulius, LY5W offers his services to stations needing a QSL manager. He can be contacted at ly5w.sam@gmail.com, or write to Saulius Zalnerauskas, P.O. Box 1081, LT-49005 Kaunas, Lithuania [TNX LY5W]

QSL VIA IK2QPR ● Paolo is the QSL manager (direct and bureau) for the following, currently active stations: EK3AA, EK3GM, EU6MM, EW6BN, EW6GB, EX2U, EX7MA, EX7MK, EX8QB, UA0FUA, UA0YAY, UK8GH, UK8IZ, UK8OAH, UN1O, UN7FET, UN7FW, UN7JX, UN8FE and UN9PQ. Also, the logs for his operations as FO/IK2QPR, HR9/IK2QPR, IU2ANT, IU2IPY, V25PR and VP5/IK2QPR are still open. [TNX IK2QPR]

QSL VIA K1IED ● Larry is the QSL manager for KC4AAA (Amundsen-Scott South Pole Station), KC4AAC (Palmer Station on Anvers Island, AN-012) and KC4USV (McMurdo Station on Ross Island, AN-011). "I want everybody to know that I have and always have sent out any cards that I have gotten logs for", he says. "It has been very difficult to get logs from some of the stations. Some operators never even log the contacts. None of the stations have a logging program so I have to wait for paper logs which can take months or a spread sheet sent to me by the operator when he gets around to it. I have not received any logs from KC4AAA or KC4AAC since January. I did get a short log from KC4USV in November and those cards are on the way". [TNX islandchaser.com]

SABLE ISLAND POSTPONED ● The 6-13 December activity from Sable Island (www.cy0dexpedition.com) has been postponed. The island was hit by a storm on 5 December, and on the 7th the team (N0TG, AA4VK and WA4DAN) was informed that the beach runaway on the island would not be suitable for landing for a couple of weeks at least. The group had no choice but to return home. A new approval has been granted for a third attempt at accessing Sable Island in early March 2011.

TOP LISTS ● The latest Topband, Topmode and Toplist listings are now available at www.425dxn.org/awards/toplist/index.html. QSOs confirmed through LoTW or included in on-line logs are eligible for listing. Send send your scores, as well as any request for further information, to Erminio Pandocchi, I2EOW (i2eow@fastwebnet.it)

WCA ● Effective 1 January, the certificates for both the World Castles Award and COTA-Russia will be available either printed and in electronic format (free of charge). Details can be found at <http://www.wcagroup.org> [TNX RN1CW]

DXCC NEWS

- **3C0C** (Annobon, 2010 operation)
- **3C9B** (Equatorial Guinea, 2010 operation)
- **3V0A** (Tunisia, 2010 operation)
- **3V9A** (Tunisia, 2010 operation)
- **7Z1HB** (Saudi Arabia, 2007 to present operation)
- **9Q/DK3MO** (Democratic Republic of the Congo, operations commencing in 2007 to current dates)
- **H40HP** (Temotu Province, 2009 operation)
- **TS7TI** and **TS7TI/p** (Tunisia, 2010 operation)
- **TS8P** and **TS8P/p** (Tunisia, 2010 operation)
- **TS9A** (Tunisia, 2009 operation)

If you had any of these operations rejected in recent applications, send a note to dxcc@arrl.org to have your record updated. Due to extremely heavy e-mail DXCC may not respond to your message. Once updated, this will be reflected in your LoTW account or in the live, daily DXCC Standings on the website (www.arrl.org/dxcc).

THE FOLLOWING UPDATE WAS ISSUED BY DL1MGB ON 3 DECEMBER:

160m operation update. With over 3,500 QSOs already in our log one might think that pile-ups are getting smaller on Top Band. But there are still a lot of stations who want to get their chance to make it in our 160m log. In the last days we observed bad behaviours of cluster users which makes our and the caller's life very hard.

We have following advice for all of you:

- Do not spot our split frequency! Those who hear us also can copy our split frequency, those who do not hear us should also not call us!
- Do not spot us if we are already spotted! It just produces more QRM!
- Do not spot us if we have to move our TX frequency to avoid additional QRM!
- Tell us in the cluster when we are jammed on our TX frequency! We will read the cluster spots and can move immediately to another frequency.
- We will only work SSB when there is no pile-up on CW. So please do not ask for SSB when there is a CW pile-up!

We are very sorry but last night our beverage to North America was broken. So it was very hard to copy NA stations in the S9 noise of the ground plane. We will repair it during daytime today.

RTTY operation update. You already might observed that we extended our RTTY operation to more bands than originally planned. This is due to the decreasing pile-ups on the bands. So if the pile-ups in CW or in SSB are not too high we also offer RTTY operation on that band. Because the demand for a CW QSO on 80m is still high we will definitely not offer RTTY operation there.

Ahmed M. Zaidan (**HZ1HZ**), Saudi Arabia amateur radio community's doyen, passed away at 96 years of age. Other recently reported Silent Keys include Hamad Salmeen (**9K2OZ**), Rev. Fr. Donald R.
