4W6A Press Release #3

Everything is on schedule for the 4W6A DXpedition. All the team members have now booked and paid for their air tickets from the UK, Malaysia and Australia to Dili, East Timor. A boat has been chartered to take the team and their equipment from Dili to Atauro Island, the site of the DXpedition, and back again. The accommodation on the island has been booked and the team members are now also booking their overnight transit stops in Bali, Darwin and Dili.

The DXpedition will be operating from generators which will be hired and picked up in Dili the day before the start of the operation. The generators have been booked and arrangements have been put in place for sufficient fuel to be transported to the island for our use whenever necessary.

It is hoped to be able to use an Internet connection on the island and, if this proves to be reliable, logs will be uploaded to Club Log (www.clublog.org) and Logbook of The World on a daily basis.

The team is very grateful to the LA DX Group, CDXC (Chiltern DX Club) - The UK DX Foundation, the Oceania Amateur Radio DX Group, and the Northern Ohio DX Association, who are the first four DX associations to have offered sponsorship to the 4W6A DXpedition. Thanks too go to Tony Burt, VK3TZ, of Ripplettech Electronics (<http://www.rippletech.com.au>), who is kindly loaning three monoband vertical antennas for use on the DXpedition. We are also very grateful to a growing number of individuals who have also made donations towards the cost of shipping equipment to East Timor, the boat

charter, the hire of the generators and the cost of fuel. All sponsors are listed, with thanks, on the 4W6A website at <http://www.4w6a.com/sponsors.html>. If you or your DX club also wish to help, there is a "Donations" page on the 4W6A website. Payments may be made by credit or debit card and you do not need to have a PayPal account yourself in order to make a donation.

4W6A will be QRV from **Atauro Island (IOTA OC-232)**, Timor-Leste (East Timor), from **16 to 26 September 2011**. Activity will be on all bands 10 to 160 metres, using CW, SSB and RTTY. The QSL manager is MOURX, direct (SAE plus 1 IRC / \$2), via the bureau, or LoTW. The entire log will be uploaded to LoTW as soon as possible after the end of the operation or, if possible, even during the DXpedition. QSLs may also be requested using the QSL request form on the website.

"I hope to be on the air as KH4/W5FJG either the last week of May or the first week in June. I will be stationed here for at least one year. At this time I have an Icom Ic-7000, but no antenna. I am working within the guidelines of the Island administrators on getting an antenna in the air to start off with. I intend to work from 6 through 40 (80 if a suitable antenna can be obtained). SSB, CW, RTTY and other digital modes will be worked. I am seeking donations of (or funds for the purchase of) a Multi-Band Vertical and or smaller 3el yagi. Also looking for donations for other station equipment. Since I will be here for one year or more, I am looking to build a permanent Amateur radio shack that will keep Midway on the air long after I have departed. Will provide more info such as QSL route and operating times later". Joe can be contacted at joeyjeepusa@yahoo.com

CQ Contest and DX Halls of Fame

The CQ Contest and DX Halls of Fame honor those amateurs who not only excel in personal performance in these major areas of amateur radio but who also "give back" to the hobby in outstanding ways.

The 2011 inductee to the **CQ Contest Hall of Fame** is John Sluymmer, VE3EJ - John has been an active contesteer and DXer since 1973. He is a founding member and current president of Contest Club Ontario, which has grown from 16 to 250 members in less than a decade. John also holds numerous Canadian domestic and DX contest records, is a frequent host for single- and multi-op contest operations from his station; a longtime member of the CQ WW Contest Committee, and a frequent speaker at hamfest forums and club meetings.

The 2011 inductee to the **CQ DX Hall of Fame** is Michael J. McGirr, K9AJ - Mike is a leading DXpeditioner who has operated literally from the ends of the Earth over nearly 30 years. His many radio journeys have ranged from an Arctic expedition to Nunavut to Heard Island, off the coast of Antarctica, and a variety of places in between, including islands in the Indian Ocean, Caribbean and South Pacific. Mike is also a director of the Island Radio Expedition Foundation (IREF) and 2010 recipient of the W9DXCC Award of Excellence in DXing.

Formal inductions to the CQ Contest and DX Halls of Fame were scheduled for the Dayton Hamvention.®
