DX INFORMATION

NEW DXCC ENTITY: THE REPUBLIC OF SOUTH SUDAN

On 14 July the UN General Assembly admitted the Republic of South Sudan as the 193rd member of the United Nations. Consequently, South Sudan has been added to the DXCC List as a new Entity (the 341st on the "current" list, thus moving the Honor Roll threshold to 332), by way of Section II, 1(a) of the DXCC Rules.

The DXCC entity code assigned to Republic of South Sudan is 521. This is a totally new Entity for all DXers (i.e. the deleted Entity of Southern Sudan, ST0 has NOT been reinstated, as per DXCC Rules), and the DXCC Desk will begin immediately accepting QSOs for it, with a start date of July 14, 2011. "The deadline for the Honor Roll and annual listings is December 31, so you must submit the new entity to DXCC by then in order to retain your Honor Roll status," Bill Moore, NC1L explained. "For Logbook of The World (LoTW), you may submit all your QSOs with the Republic of South Sudan stations anytime.

There is no need to hold them out of your log or do anything differently from what you already have been doing. You do not need to assign country names or identifiers. After we issue certificates to the Republic of South Sudan license holders, LoTW will make matches and assign the correct entities automatically."

The Republic of South Sudan is also the newest addition to the CQ DX Award Countries List (it is #342, as CQ counts Kosova). Verifications confirming contacts after July 14, 2011 are acceptable for credit. No award credit is available for southern Sudan contacts made during the 1980s and 90s. The new addition will be reflected in CQ DX Honor Roll totals to be compiled near the end of September. South Sudan will count as a country (entity) multiplier for the CQ DX Marathon, the CQ World Wide DX Contest and any other CQ contests that use country multipliers.

As of 14 July, the International Telecommunication Union (ITU) has not announced a prefix block for the Republic of South Sudan.

SOUTH SUDAN • In a press release dated 14 July the DX Friends and The Intrepid-DX Group stated they "continue to move forward with their plans to activate this new entity with a multi-national DXpedition team. With our visas in hand, the teams will soon be making their way towards Africa and ultimately to Juba, the new capital of this new nation. We will have five active stations, operating 24 hrs a day. We will be in regular contact with our US, EU and JA Pilot Stations and we will pay close attention to propagation reports from them. We ask that you please make contact with the pilot stations only during the DXpedition and to please refrain from contacting the team members directly via email. We will announce our call sign once we are in Juba and ready to become active".

On 15 July MMONDX (EU Pilot for the DXpedition) released the following schedule: "The Intrepid DX Group is meeting the DX Friends in Cairo on July 21st. On July 22nd, they all fly from Cairo to Juba, South Sudan. On July 23rd, they will meet with the Ministry of Communications to amend licenses to the new ITU prefix. They expect to be active later on July 23rd, or July 24th until shut down on August 10th, 2011".

"As the ITU has not yet issued a new prefix for South Sudan", N6PSE said on 19 July, "our license that was issued in March has the call-sign of ST0R (Sierra Tango Zero Romeo). That will be our call for the DXpedition unless the ITU issues a new prefix which will require that we amend our license". QSL via EA5RM. Check www.dxfriends.com/SouthernSudan2011/ for log search, news from the team in Juba and pictures.
