DXPEDITIONS IN THE WORKS

- **BOUVET ISLAND (1)** • Mark, ON4WW has been granted permission by the Norwegian Polar Institute to land and stay at Cape Valdivia, Bouvet Island for three months, from **mid-January until mid-April 2016**. This is intended to be a one-man amateur radio DXpedition, with a target of 100,000 CW, SSB and RTTY QSOs on the HF bands and daily log uploads to Club Log, LoTW and eQSL. "Whether or not this DXpedition will take place depends on the next big hurdle: funding", Mark says. A web page providing background information and full details including the funding approach is available at www.on4ww.be/bouvet2016.html. The email address to contact Mark with regard to the DXpedition is bouvet2016[.]telenet.be. [TNX ON4WW]
- **BOUVET ISLAND (2)** • UN7PCZ has announced plans for him and other eleven operators to be active as 3Y0F (licence issued on 7 November by the Norwegian Post and Telecommunications Authority) from Bouvet Island for two weeks with six stations. The "preliminary window" goes **from 17 December 2015 to 10 January 2016**". See www.grz.com/db/3Y0F.

- **PALESTINE** • A multi-national team (EA4AK, EA7JX, HB9OCR, MM0NDX, S500, S59M, YL1ZF and maybe others) are planning an expedition to Palestine (E44Y) in **March 2016**. They have a website at <http://palestine.ig9y.com/>. [TNX DX World]

- **PALMYRA ATOLL** • Working with the US Fish and Wildlife Service, The Nature Conservancy (TNC) has "developed a plan to accommodate" amateur radio DXpeditions to Palmyra Atoll (KH5), and is able "to offer a maximum of two such trips in Winter 2016". The available spots are **11-26 January 2016** and **1-16 February 2016**; participants are limited to 12 operators with "up to six radio antennae of 50 feet and 5 inch in diameter or less". The deadline for completed applications is 16 January 2015; notification of acceptance will be on 30 January 2015 and non-refundable deposit of \$5,000 for each participant of accepted applicants will be due by 27 February 2015. Total estimated cost for each trip is USD 176,000. [TNX QRZ DX]

FOCUS 25 • To celebrate 25 years of the FOC's quarterly magazine FOCUS, the 100th edition of which will be published on 1 January 2015, a ten-day QSO Party will take place from 00.00 UTC on 25 December until 23:59 UTC on 5 January. FOC members and non-members are welcome to join in the fun and enjoy CW QSOs. A Certificate of Merit will be issued to everyone who achieves 100 points: <http://www.g4foc.org/FOCUS-25th-Anniversary-Celebration> [TNX G3SXW]

FT4TA • The team went QRT from Tromelin Island on 01:27 UTC on 10 November. Club Log shows a grand total of 71,463 QSOs with 18,410 (25,8%) unique calls. Breakdowns by Band/Mode and by Continent, as well as other statistics, can be found at <https://secure.clublog.org/charts/?c=FT4TA#r>; the OQRS is up and running. "We are still amazed by the huge pileups. Despite all team members having already experience from other most wanted entities, none of us had ever had to face such an incredible demand", F5UFX wrote in his final update on 12 November. "Our objectives were clearly announced and supported by the community and we believe we had achieve most of them. In addition, we were happy to surprise most of you by providing immediate LoTW confirmation during our activity". Read the entire release ("We Made It!") and watch the nice slideshow on

IOTA NEWS

- **QSLING VIA YB9BU** • "IOTA Management has received a number of complaints that QSL card requests sent to Kadek, YB9BU in accordance with his QSLing instructions on QRZ.com have not received a reply and similarly that email enquiries are not being answered. Emails from the IOTA Manager and mutual friends have also gone unanswered. In the circumstances it can only be assumed that there is an interruption in the QSL manager service for all the many operations for which YB9BU acts as QSL manager and people would be well advised not to send further cards. We would also advise YB island operators for whom YB9BU acts or normally acts as manager to make other arrangements to

ensure satisfactory QSLing. Acceptance by IOTA Management of further IOTA operations by YB9BU must be regarded as on hold until and unless the matter is resolved". [G3KMA, 11 November 2014]

- **IOTA IT PROGRESS REPORT** • "The IT Team to take IOTA project development forward has now been appointed. It consists of Johan PA3EXX (Team Leader), Jim G3VDB, Vincent F4BKV, Bob MD0CCE on the technical side with Cezar VE3LYC and Roger G3KMA representing the users. The main focus will be on the development of online island credit submission (Paperless QSLing) as a new feature of the programme. The team have already started work with the aim of submitting the initial Project Proposal by the Spring". [G3KMA, 22 November 2014]

MY DX SUMMIT LAUNCHED • The newfangled My DX Summit (MDXS) opened for public on 21 November at 10.00 UTC. MDXS introduces a fresh lineup of features with a handy propagation tool: predicted propagation is based on your personal location, and by clicking a DX spot you will see the current conditions and a 24-hour

window covering all bands from your station, short and long path, to a distant DX location. This recent face-lift makes several new functions readily available, assuring a pleasant user experience. Mobile users are also extensively supported which makes MDXS the first-ever mobile-ready DX Cluster. Join the launch festivities by sending a maximum number of spots during the first 14 days; three winners will be visited by Santa Claus bringing his certificate from the Ho-Ho-Ho land of Radio Arcala, OH8X. My DX Summit has automatically replaced the old DX Summit at www.dxsummit.fi. [TNX OH2BN]

NAVASSA 2015

- The new website for the K1N DXpedition to Navassa Island [425DXN 1225] is up and running at www.navassadx.com, and will be updated often as more information becomes available. "We should have specific dates shortly", it was published on 29 October, "but the team has cleared their schedules to be available for the two week operation starting in late January 2015". Fundraising has begun; see the website for detailed information on how to donate. [TNX W0GJ]

- DokuFunk (the Documentary Archive for the History of Radio Communication and Electronic Media) provides special coverage on the occasion of the January 2015 K1N DXpedition to Navassa. A comprehensive web page (www.dokufunk.org/navassa-e) offers ample background information of the island and all previous activations of this this #1 ranked DXCC entity. The page will be updated before, during and after the expedition with interviews and other audio files.

QSL GALLERY • The large collection of QSL cards on Les Nouvelles DX's web site has been updated. Fifteen different galleries include 12,292 cards for the ten Most Wanted DXCC Entities (2004-13), the 61 deleted DXCC Entities, obsolete prefixes, stations from Maghreb from 1945 to 1962, Allied Forces stations in Germany (1945-70), special stations commemorating ITU and IARU, Antarctic bases & TAAF (Terres Australes and Antarctiques Francaises), the various French DXCC island Entities in the Pacific Ocean, the Indian Ocean and the Americas (from 1945 to 1970), pre-1945 countries, French Departments and CONUS, plus a gallery for cards not accepted by DXCC. Your participation is encouraged - please visit www.LesNouvellesdx.fr. [TNX F6AJA]

VK9DLX & VK9LM • VK9DLX finally went QRT on 9 November. "The QSO counter for VK9DLX shows over 116,500 QSOs, combined with over 11,500 QSOs in the CQWW SSB Contest as VK9LM, we end up with over 128,000 QSOs in our logs", the team said on 12 November. "More detailed statistics for both callsigns when we merge and clean the logs and upload them to Clublog. We know that still some VK9DLX QSOs are missing in Clublog right now". The OQRS is online to apply for either VK9DLX and VK9LM cards (direct an bureau), and can be accessed on <http://oqrs.lagunaria-dx-group.org>.

VU4KV • VU4KV has been active from Neil Island, Andaman Islands since 16 November [425DXN 1227]. The expedition mode online log has been activated on Club Log and the first batch of QSOs has been uploaded. "Don't worry if your latest QSOs don't show up immediately", the team reported on 19 November, because "due to unreliable internet connectivity, logs have been sent on a ferry each day from Neil Island to Port Blair and at times may take a day or two to be uploaded. Please make your insurance QSO only if you think the QSO was bad". The email address for log checks is [vu4kv_log@\[\]yahoo.com](mailto:vu4kv_log@[]yahoo.com), but be advised that they "will look at these emails only after the expedition is finished and the team has got back home". QSL via W4VKU (OQRS on Club Log to be enabled after 5 December). Please visit www.vu4kv.info for updates.
