GOOD TO KNOW

1U4UN • This was Dima, RA9USU, who on 19-20 April operated from Bir Tawil, a no man's land located along the border between Egypt and Sudan. QSL via UA3DX. Bir Tawil's *terra nullius* status prevents this area from being considered by DXCC under the current rules: "Any area which is unclaimed or not owned by any recognized government is not eligible for inclusion on the DXCC List and will not count for DXCC purposes" (DXCC Rules, Section II.4.b).

425 DX NEWS MAGAZINE • The March 2016 issue is now available for download at www.425dxn.org/monthly/index.html. [TNX IZ3EBA]

50 MHZ MARATHON • The seventh edition of the 50 MHz Marathon, organized by ARI Firenze in memory of Roberto Rossi (I5RRE), will take place from 1 May through 31 August. Direct link to the rules (also in English) can be found at www.arifirenze.it/maradona. [TNX IZ5HQB]

9Q0HQ • Henk, ON4AHF and Herwig, ON4BNI were active as 9Q0HQ on 23-29 April. They operated from the Association des Radio Amateurs du Congo's station in Kinshasa, and will upload their logs to Club Log when they return home. QSL for this activity via ON4AHF.

Elvira, IV3FSG [425DXN 1302] is currently active as 9Q0HQ/1 from Kimbondo, and will in her turn be active as 9Q0HQ from Kinshasa on 1-22 May. QSL for her activities via IK3GES.

C5WP • Pedro, ON7WP (C5WP) has had to cancel his announced trip [425DXN 1299] as there was no guarantee that his luggage, including radio equipment, would make it on the flights from Belgium to The Gambia via Germany. [TNX DX World]

DIGITAL MODE MOST WANTED SURVEY • This survey provides digital mode DXers worldwide the opportunity to specify which DXCC Entities they still need. "For the purposes of this survey, need is defined by you, the DXer. If you just worked a new DX entity last month and are confident of getting a confirmation, do not list it as 'needed'. However, if you worked a country three years ago and have not been able to get confirmation, you should probably check it as a 'needed' country". The survey will end on 13 May at 23:59 and can be found on <http://survey.hamdocs.com/index.php/468764>.

DXCC DELETION OF KINGMAN REEF • The ARRL Awards Committee has voted to delete Kingman Reef (KH5) from the DXCC List, effective 29 March 2016. Kingman Reef will be added to the Deleted Entities List on 29 March 2016. The total number of entities on the List will drop from 340 to 339.

The deletion process is described in DXCC Rules Section II DXCC List Criteria, Part 5(a) Deletion Criteria: "An entity may be deleted from the List if it no longer satisfies the criteria under which it was added. However, if the entity continues to meet one or more currently existing rules, it will remain on the List."

With respect to the previous paragraph's text, Kingman Reef's original addition by virtue of separate administration has changed (separate administration by the U.S. Navy has been removed), and the reef does not meet any current criteria to remain on the list. The U.S. Fish and Wildlife Service administers Kingman Reef

and Palmyra Island. The reef is too close to Palmyra Island to count as a separate entity. The reef is now considered part of the Palmyra/Jarvis DXCC entity.

DXCC members who have affirmed credit with Kingman Reef will see their current entity totals drop by one on their DXCC awards - including on the bands and modes where Kingman Reef credit is given. They will also see their DXCC Challenge totals drop commensurately. Honor Roll status will now be attainable after confirming 330 entities on the DXCC List. [TNX NN1N]

DXCC NEWS • P5/3Z9DX (Democratic People's Republic of North Korea, 2015 operation) and ZA/IW2JOP (Albania, all operations) have been approved for DXCC credit. Dom, 3Z9DX was in Pyongyang, North Korea "for high level talks with officials and inspectors" in anticipation of a future operation. Unexpectedly he was able to give a demonstration and be active as P5/3Z9DX for a few hours on 20 and 21 December [425DXN 1286]. He made 784 SSB QSOs mainly on 15 metres with Asian stations; logsearch, statistics and OQRS on Club Log.

EMERGENCY TRAFFIC • In the wake of the catastrophic earthquake in Ecuador, the Amateur Radio community is being asked to keep 7.060 MHz clear for Cadena HC emergency traffic. DXpeditions operating RTTY on 40 meters are requested to keep pileups below 7.060 MHz. [TNX ARRL]

ET7L • The team's stay has been extended and ET7L is now expected to remain active until 1 May. Since 17 January they have made 34,000+ QSOs and counting. Those who still need Ethiopia as an All Time New One (ATNO), can email et7l.club[.]gmail.com for a sked: "we will try to be right for you at the right time in the right place". See <http://et7l.dxr.com.ua/> for further updates. Logsearch on Club Log, OQRS to be enabled later. Traditional cards via US0LW; the logs will be uploaded to LoTW after the end of the operation.

FT4JA • Started on 30 March, the DXpedition to Juan de Nova (www.juandenovadx.com) went QRT on 10 April around 21 UTC, after 105,570 QSOs (50,309 CW, 45,251 SSB, 10,010 RTTY) and 23,8% of unique callsigns in the log. Club Log's OQRS for direct and bureau has been enabled.

HC2GRC/P • Alexey, HC2AO and Vasily R7AA were active as HC2GRC/p from Isla Puna (SA-034) [425DXN 1301], and made 1,001 QSOs between 21:52 UTC on 16 April and 15:08 UTC on the 17th. While they were on the island, the most devastating earthquake in decades struck Ecuador, and they had to return to the mainland as soon as was possible. The QSL route for this operation is via R7AA, direct or

bureau, preferably by using the OQRS provided by Club Log: https://secure.clublog.org/logsearch/HC2GRC_P.

INTERNATIONAL MARCONI DAY • Organized by the Cornish Radio Amateur Club, the International Marconi Day (IMD) is a 24-hour amateur radio event held annually to celebrate the birth of Guglielmo Marconi (25 April 1874). It is not a contest, but an opportunity for amateurs around the world to make contacts with historic Marconi sites using HF communications techniques. This year's event will be held on 23 April, from 00.00 UTC through 23.59 UTC. Details, including information on the relevant Award Certificates and the listing of participating stations, can be found at <http://qx4crc.com/>.

INTREPID SPIRIT AWARD • The Intrepid-DX Group (www.intrepid-dx.com) is pleased to announce that Yasuo "Zorro" Miyazawa, JH1AJT is the recipient of the 4th annual Intrepid Spirit Award, made in memory of James McLaughlin, WA2EWE/T6AF (killed in Kabul Afghanistan, on 27 April 2011). The award - presented at the International DX Convention (Visalia) on 16 April - is to recognize Zorro's outstanding efforts to activate rare and often difficult entities such as Eritrea, Myanmar and Bangladesh.

MOUNT ATHOS • Monk Iakovos, SV2RSG has been licenced since 2015 and is active from Mount Athos. As "a permanent resident" at the Koutloumousiou Monastery, he says, he does not use /A, because "it means Alternative location of the station". QSL via SV1RP (direct).

NCDXF NEWSLETTER • The Northern California DX Foundation's Spring 2016 Newsletter is now available at www.ncdxf.org/pages/newsletter.html. It contains articles on VP8STI & VP8SGI (South Sandwich Islands & South Georgia), K5P (Palmyra) and VK9WA (Willis Islands).

OPERATING FROM BRAZIL • Foreign amateur radio operators visiting Brazil for the Olympic and Paralympics Games this summer (1 August to 30 September) will be able "to operate in Brazil, whether or not a reciprocal agreement between the respective countries exists. No IARP or CEPT license is necessary, and no fees are required. The Brazilian Amateur Radio League (LABRE) has obtained permission from ANATEL, the Brazilian telecommunications regulator, to handle authorizations. Amateurs who want to operate in Brazil should send LABRE (executiva[.]labre.org.br) a copy of a valid passport (identification pages), a copy of the applicant's Amateur Radio license, a list of cities in which the radio amateur plans to operate and the respective dates and an e-mail address". [TNX ARRL]

PIRATE ALERT • 'Hassan from Baghdad' has been "pirating and bootlegging multiple calls for several years. He has been heard bootlegging the calls YI1HR, YI1H, YI1HRP and YI1HI and pirating the calls YI1BGD, YI1IRQ, YI1DZ and most recently TA7/YI1RZ. Unfortunately in Iraq there does not seem to be any enforcement to take Hassan off the air, much less do anything about the situation. Therefore let's get the word out not to work or spot Hassan who operates on 20 Meters SSB, usually around 14178-14188. In fact the best policy is to ignore him completely on the air". [TNX The Daily DX]

R3CA/0 • "The Great Northern Way" expedition [425DXN #1299] is now progressing eastward along the coast of Yakutia to Chukotka. Depending on local conditions, there are plans to operate from several islands – the first one is expected to be Bol'shoy Begichev (AS-152). Other IOTA groups mentioned are AS-082, AS-163, AS-029, AS-164 and AS-070. On 18 April UA9OBA will join the expedition, whose progress can be followed on www.ec-arctic.ru. [TNX qrz.ru]

QSL 3XY5M • Cards are being handled by Michael, PA5M himself. Those who requested their cards through Club Log's OQRS or direct by mail and have not received their QSLs are invited to email Michael (pa5m@chello.nl). [TNX DX World]

QSL 9J2BO • "Due to the difficulty at present of contacting 9J2BO", Mike G3TEV reports, "I will only accept cards direct and will not accept bureau cards until further notice". As UK postal rates have increased [425DXN 1296], the basic rate of GBP 1.05 for standard airmail letters is "enough for about 5 cards to Europe or a maximum of 2 cards for the rest of the world". QSL to M.J. Mills, 3 Tylers Way, Chalford Hill, Stroud, GL6 8ND, United Kingdom. [TNX G3TEV]

QSL D4C, D4Z & D41CV • If you plan to attend Ham Radio 2016 (Friedrichshafen, 24-26 June), you will be able to collect your cards for D4C, D4Z and D41CV at the Monteverde Contest Team's booth (A1-664). The QSL request forms can be found at http://d4c.cc/?page_id=12298. The service expires on 15 June. [TNX HB9DUR]

QSL EN7P • Apparently there are problems with the incoming QSL bureau, Vladimir UT1PG reports. He says that bureau cards should be requested by email (ut1pg[@]lrv.net.ua), and will be sent out "at the first opportunity". Direct cards go to P.O. Box 21, Kovel-8, 45008, Ukraine.

SWODXA DX DINNER • The SouthWest Ohio DX Association (SWODXA) has announced that Martin F. Jue (K5FLU) will be the keynote speaker discussing "The Early Days of MFJ" at their 31st annual DX dinner. The dinner, held in conjunction with the 2016 Dayton Hamvention, will be on Friday, 20 May at the Marriott Hotel in Dayton. The newest inductee(s) in to the CQ Hall of Fame will be announced as well as the much anticipated DXpedition of the Year. IOTA NEWS

IOTA DIRECTORY 2016 • The 17th edition of the IOTA Directory, edited by Roger Balister (G3KMA) and Steve Telenius-Lowe (PJ4DX), is now available at the RSGB Shop (www.rsqbshop.org/acatalog/Online_Catalogue_IOTA_42.html). This 128-page book contains the complete, official listing of IOTA islands as well as everything you need to participate in IOTA. Also included are reports of rare and costly IOTA operation - S79C (Coetivy Island, AF-119), VY0M (Melville Island, NA-248) and ZL9A (Antipodes Island, OC-286). [TNX G3KMA]

IOTA HONOUR ROLL • "The 2016 Honour Roll and Annual Listings have been posted on the IOTA website (www.rsgbiota.org/info/). 186 record-holders have scores of 1000 or more IOTA groups and 519 of at least 750 groups which is the number required for the IOTA Plaque. Amateurs from 100 countries now have the starter 100 Islands certificate. Congratulations to all who have joined the IOTA family or updated in the last year". [TNX G3KMA]

IOTA LTD • "Following agreement with the RSGB, management of the IOTA Programme has now moved to Islands on the Air (IOTA) Ltd, a new not-for-profit company, limited by guarantee in UK law. This body now has full responsibility for all aspects of the programme, its day to day management, strategy, policy, finance, development, promotion and marketing. The company has been registered in the names of Roger Balister, G3KMA and Stan Lee, G4XXI who are its current directors but a full Board of Directors will be formed shortly.

The new IOTA Directory, published by the RSGB this month, refers to the newly set-up company under a different name but this has now been changed in the way always intended. It will take a little time to carry through all aspects of the changed governance but IOTA enthusiasts should be assured that the new company is fully committed to completing the paperless

QSLing project that will allow electronic confirmation of contacts. No significant change of policy is otherwise envisaged. More information shortly". [TNX G3KMA]

IOTA RULE CHANGES • The new Directory introduces some fairly significant rule changes, made in the interests of simplification, which will take effect from 1 June 2016:

- a) The discontinuation of the issue of paper certificates.
- b) The discontinuation of giving credit for VHF / UHF contacts in the Standard Category of Application.
- c) Charges have been increased and the charging regime has been simplified.
- d) The threshold figure defining a "rare" IOTA group has been raised to cover those groups which 20% (previously 15%) or fewer participants have credited to their scores.
