**YB** - Din, YB8RW and a large group of operators will be active as YB8O from the islands of Labobo on 15-17 June, and Bangkalan on 18-20 June. Both counts for IOTA group OC-208. QSL via YB8RW; Din usually enables Club Log's OQRS for his operations. [TNX JN6RZM]

**YJ** - Geoff, ZL3GA will be active again as YJ0GA from Efate (OC-035), Vanuatu on 7-14 July. QSL via home call, direct or bureau (OQRS on Club Log), and LoTW.

**YN** - Rafael, NN3RP will be active again as YN2RP from Nicaragua from 25 June to 22 July. He will operate CW, PSK31, RTTY and SSB on 40-10 metres. QSL via NN3RP, LoTW and eQSL.

## GOOD TO KNOW

**ARCTIC LEGEND** • A major IOTA DXpedition is being planned to take in February-March 2017 to commemorate the 120th anniversary of Fridtjof Nansen's legendary expedition to the Arctic Ocean on the ship "Fram".

The team is expected to include five operators (UA9KDF, UA9KFX, UA9LDD, UA0BA and RW0BG) who - depending on weather and ice conditions - will be active as RT9K/9 from the Firnley Islands (Ostrova Firnleya, AS-054), Tyrto Island (Ostrov Tyrtova, AS-121), Nansen Island (Ostrov Nansena, AS-104) and the Scott Hansen Islands (Ostrova Skott-Gansena, AS-068). Activity will be on 40-10 metres CW, SSB and digital modes (PSK, APRS and Pactor) with three stations. QSL via RX9KM. Bookmark [www.qrz.com/db/RT9K/9](http://www.qrz.com/db/RT9K/9) for further information and updates.

**BEST COMMUNICATION AWARD** • Sponsored by DX Coffee ([www.dxcoffee.com](http://www.dxcoffee.com)) and DX University, it takes into account the Public Relations side of a DXpedition, i.e. the information (daily reports, pictures, videos, forums, propagation hints, online logs, operating advice, etc) provided to the amateur radio community through the DXpedition website and other channels. The 2015 Best Communication Award has been assigned to K1N (Navassa Island). [TNX IZ8IYX]

**BOUVET ISLAND ACTIVATION** • Three proven and experienced DXpedition leaders (Ralph KOIR, Bob K4UEE and Erling LA6VM) and a large team of operators will activate Bouvet Island in late 2017 or early 2018. They are making this announcement now, "so that other DXpedition teams that may be considering Bouvet as a DXpedition target can re-direct their time and effort elsewhere". They already have an agreement with Nigel Jolly for the "Braveheart" to provide transportation (helicopter included); the Norwegian

Institute has accepted their preliminary plan and a permit will be issued to land on Slakhallet, the huge glacier that covers the island. "As per our funding model, we commit to paying one-half the expenses involved and we are asking the DX

community to pay the other half of the expenses". A website is under construction and fundraising will begin in the months ahead. [TNX K4UEE]

**CLUB LOG'S MOST WANTED LIST** • The latest Most Wanted List, generated on 28 May, is available at <https://secure.clublog.org/mostwanted.php>. The information is derived from QSOs uploaded to Club Log (currently 360 million log entries available for analysis) and, to improve quality, only QSOs that have QSLs confirmed are considered to be worked.

**CQ DX MARATHON** • The CQ DX Marathon is a year-long DX hunt, with participants competing to see who can work the greatest number of countries ("entities") and CQ zones during the calendar year. Complete results of the 2015 DX Marathon are on [www.dxmarathon.com/Results/2015/Results2015.htm](http://www.dxmarathon.com/Results/2015/Results2015.htm).

**CW OPEN** • CWops sponsors CW Test - fun, weekly competitions at times thought to be optimum for amateurs in ITU Regions 1, 2, and 3 ([www.cwops.org/cwt.html](http://www.cwops.org/cwt.html)). The CW Open (CWO) is guided by the same principles along with enhancements to make it a serious, annual competitive event. There are three separate competitions ("sessions") at three separate times, and the object is work as many CW stations worldwide as possible within each session. The 2016 CW Open will be held on 3 September, at 00.00 - 03.59 UTC (Session 1), 12.00 - 15.59 UTC (Session 2) and 20.00 - 23.59 UTC (Session 3). Complete details can be found at [www.cwops.org/cwopen.html](http://www.cwops.org/cwopen.html) [TNX IT9MUO]

**DAYTON PHOTO GALLERY** • The Dayton Hamvention 2016 Photo Gallery (443 pictures) can be found at <http://hamgallery.com/dayton2016/>. The Dayton Photo Galleries start in 1997 and contain a total of 4902 photos. They are all searchable from the HamGallery homepage. Other Dayton photos are welcome, past and present, but must follow instructions on the Dayton 2016 page. [TNX K8CX]

**EM5F** • This was the callsign used by UR5FAV, UR5FLF, UT7UT and UX0FF on 6-7 June, during their activity from the Ukrainian side of Fericiirii (EU-191), a split-sovereignty island that was added to the IOTA List two years ago. They experienced very bad weather, and were able to log about 2,000 QSOs in 14 hours before giving up. QSL via UX0FF, direct o bureau. [TNX UY5XE]

**IARU REGION 1 BAND PLAN** • The new HF Band Plan, which came into effect on 1 June 2016, is available for download from the IARU Region 1's website: <http://www.iaru-r1.org/index.php/hf/hf-related-references>.

**INDEXA NEWSLETTER** • The Spring 2016 Special Issue of the International DX Association's (INDEXA) Newsletter is now available for download: [www.indexa.org/newsletters.html](http://www.indexa.org/newsletters.html). This issue contains the story of VK9WA (Willis Island, November 2015) and a report by Roger Western (G3SXW) on some recent efforts in Europe to track down a source of deliberate QRM (DQRM). [TNX K8YC]

**IOTA NEWS: AN APPEAL TO JOIN FRIENDS OF IOTA** • We referred earlier [425DXN #1303] "to the commitment of the new company, Islands on the Air (IOTA) Ltd, to the paperless QSLing project that will allow electronic confirmation of contacts. Much progress has been made and some elements of this work are scheduled to be launched very soon on the existing system on the IOTA website. The new system itself will come on stream in early 2017. While paperless QSLing offers the IOTA Community huge savings in costs, the software development involved requires substantial investment, the more so as it has to be grafted on to a system that will continue to accept paper cards. To help meet these costs, the new company has launched Friends of IOTA as a supporters' group within Islands on the Air (IOTA) Ltd. Its aim is to give IOTA enthusiasts the opportunity not only to participate in one of the most active DX programmes in the world but also to support it with donations to ensure its long-term future". See [www.rsgbiota.org](http://www.rsgbiota.org). [TNX G3KMA]

**IOTA NEWS: DELETION OF KINGMAN REEF** • "As forecast as a strong likelihood in the 2016 IOTA Directory (page 50), IOTA Management has decided to delete Kingman Reef (OC-096) from the IOTA list, effective 29 March 2016. Kingman Reef lost its current DXCC status on that date as it no longer satisfied the criteria under which it was added. IOTA Rule E.5.5 states that an island that qualifies for separate listing only because it is a DXCC entity will have a start and / or deletion date for credit in line with DXCC decisions and that in the event of an island DXCC entity being deleted, the IOTA group number will normally be archived and score credits moved on request to the IOTA group to which the island or islands are transferred. Kingman Reef is just such an island, and the transfer in this case is to Palmyra Atoll (OC-085). Before the end of June, credits for OC-096 will be deleted from all records. In accordance with the rule participants may claim credit with Kingman Reef QSOs for OC-085 if they need credit there - there are no date restrictions. To save questions, IOTA does not maintain a database of credits with deleted/archived IOTAs". [TNX G3KMA]

**JIDXM 2016** • The Japan International DX Meeting will take place at Tokyo Big Sight in Ariake, Tokyo on 20 August. Presentations will include VP8STI/VP8SGI by N6PSE and K3LP, FT4JA by F6BEE and "Integration of Information Technology

and Amateur Radio" by G7VJR. A reception will follow. Email [jidxm2016\[AT\]gmail.com](mailto:jidxm2016[AT]gmail.com) or visit [www.jidxm.jp/e/index.html](http://www.jidxm.jp/e/index.html) for detailed information. [TNX JA1NRH]

**QSL 4U11TU & 4U1UN** • Bring your QSO data with you and get your QSLs for 4U0ITU (2015), 4U150ITU (2015), 4U1UN, 4U70UN and 4UITU at the Swiss DX Foundation's booth (A1-461-2) at Hamradio 2016 (Friedrichshafen) on 24-25 June. Additionally you can also get QSL cards for HB14SAF, HB9SOLAR and HB9SPACE. [TNX HB9BOU]

**QSL 9MOZ** • James, 9V1YC and Chris, ZS6EZ operated as 9MOZ from Layang Layang, Spratly Islands on 8-14 May and made nearly 11,000 QSOs. Direct and bureau cards can be requested via Club Log's OQRS ("strongly preferred"); OQRS direct requests have been placed on LotW, the complete logs will be uploaded early next year. As for traditional cards, they should be sent direct only to: Spratly May 2016, Suite 501, Private Bag X025, Lynnwood Ridge, 0040, South Africa. [TNX ZS6EZ]

**QSL E44YL** • Gabriele, IK3GES reports that all of the cards (traditional direct requests and direct/bureau requested via Club Log) have been sent out.

**YASME FOUNDATION'S GRANTS** • The Board of Directors of the Yasme Foundation ([www.yasme.org](http://www.yasme.org)) has announced a number of supporting grants in furtherance of its goal of supporting the development of amateur radio and encouraging youth participation in amateur radio and operating activities:

- A grant to the ARRL Foundation to fund the Yasme Foundation scholarship
- A grant to the Foundation for Amateur Radio in support of its 2017-2018 scholarship program
- A grant to make possible the participation by two Ethiopian young

amateurs in the Youth Contesting Program in Estonia

- A grant to the DX Code of Conduct ([www.dx-code.org](http://www.dx-code.org)) founder and website operator
- A grant to the 2016 Friendship Radio Games

The sixth edition of the Youngsters on the Air (YOTA) conference will take place in July 2016 in Austria, and YASME is pleased to assist in helping young amateurs attend this meeting that otherwise would be unable to attend.

- **AMATEUR RADIO ASSOCIATION OF THE REPUBLIC OF KOSOVO (SHRAK)**  
The Yasme grant will enable two youth amateur radio operators from Kosovo to attend the YOTA conference. This will be the first time these amateurs will have travelled outside their home country. SHRAK was recently admitted to the IARU as a member society, an additional step toward enabling Kosovo to be added to the ARRL DXCC entity list.
- **ETHIOPIAN AMATEUR RADIO SOCIETY (EARS)**  
Two youth operators from EARS will also be attending the YOTA conference. This extends Yasme's support of the ET3AA station and the previous grant enabling travel by EARS members to participate in the 2016 ARI International DX Contest from Estonia. EARS member participation furthers amateur radio activity from eastern Africa and encourages interest in amateur radio by other African youth.
- **NORTH AMERICAN PARTICIPANTS**  
Three young amateurs from the United States will also attend the YOTA meeting with the assistance of the Yasme grant and a similar grant from the Northern California DX Foundation. As invited members of IARU in ITU Region 2, it is the hope of both Boards that they will return with ideas for extending the successes of YOTA to young North American amateurs.

The Yasme Foundation is a not-for-profit corporation organized to support Scientific and educational projects related to amateur radio, including DXing and the introduction and promotion of amateur radio in developing countries. [TNX W6SZN]

+ **SILENT KEY** + Nicola Cristiano, **1BKNT** passed away on 13 June. A serious DXer with 339/356 (current/total) in the DXCC Honor Roll standings, he was also one of the doyens of island chasing in Italy and got his initial IOTA certificate in 1979.
