GOOD TO KNOW

BOUVET 2018

"We have found an alternate vessel that eliminates the repositioning costs and at the same time adds additional margins of safety for our team", the Bouvet Island DXpedition team (3Y0Z) announced on 5 May. "Our departure will be approximately mid-January, 2018, possibly sailing to Bouvet from King George Island. We expect 9-11 day voyage to Bouvet. When the weather allows, we will land on the island by helicopter. Our first priority will be to inspect the terrain, select a site clear of crevasses and establish our shelters stocked with emergency supplies. Once secured, we will bring the rest of our equipment ashore and commence radio operations as soon as possible. We expect to be at Bouvet for 21 days, and allowing for weather, hope to be on the air for 14-16 days". You can read the full story in Press Release #5 on the News and Updates page on the

DXpedition's website (<http://www.bouvetdx.org/>). "This is likely the most expensive DXpedition ever attempted and the operating team has committed to fund up to 50% of the costs. We are hopeful the DX community will fund the remainder. You may follow our planning progress and see our fund-raising results on our website".

A propagation page has been added to the website: <http://www.bouvetdx.org/propagation/>. It displays a series of videos showing propagation predictions during the anticipated stay on Bouvet Island. The predictions were created using the work of Stu, K6TU, and are based on the National Oceanographic and Atmospheric Administration's estimate of average sunspot numbers for January of 2018.

CASS AWARDS • Club Log and DXLab are happy to welcome the Northern California DX Club as a sponsor of the Cass Award (<http://www.cassaward.com>). Beginning in 2018, there will be two award categories: the Single-Operator Cass Award (awarded to the single-operator DXpedition that works the most unique callsigns during a 2-week interval) and the new Unlimited Cass Award, awarded to the DXpedition that works the most unique callsigns, with no limit on the number of operators or the duration of the activity. Both awards are issued in March for DXpeditions during the preceding year. Past recipients of the Cass Award include Rob Chipperfield M0VFC (ZD9UW, 2012), Peri Monioudis HB9IQB (E44PM, 2013), Nigel Cawthorne G3TXF (ZD9XF, 2014), Jose Luis Murano LU1FM (5J0B, 2015) and Jeff Martin, K5WE (XR0YS, 2016, see 425DXN 1354). CLUB LOG'S MOST WANTED LIST • The latest Most Wanted List, generated on 1 May is available at <https://secure.clublog.org/mostwanted.php>. The information is derived from QSOs uploaded to Club Log (currently 427 million log entries available for analysis) and, to improve quality, only QSOs that have QSLs confirmed are considered to be worked. The most wanted charts are rebuilt once per month, on average.

The CQ Contest Hall of Fame (established in 1986) and the CQ DX Hall of Fame (established in 1967) honour those amateurs who not only excel in personal performance in these major areas of amateur radio, but who also "give back" to the hobby in outstanding ways. The 2017 inductees to the **CQ CONTEST HALL OF FAME** are:

- Dave Robbins, **K1TTT**, is the builder and owner of a contest super-station in western Massachusetts. Soon after assembling his first contest station, Dave wrote in the introduction to his book, Building a Superstation, "I realized I was not a 48-hour iron pants operator and decided to start doing multi-ops from here". Over the past 30+ years, Dave has hosted legions of operators at his multi-multi station, some veterans, some newcomers, and willingly shared his knowledge and experiences, both in his building book and his annual Contest Cookbooks, distributed to members of the Yankee Clipper Contest Club (YCCC), of which Dave is a past president. You can see webcams of his current station and much more information at <http://www.k1ttt.net/>.
- Bob Wilson, **N6TV**, is an accomplished contester and contest DXpeditioner, but his achievements behind the scenes are as significant as those he's made on the air. A regular speaker at Contest University and the International DX Convention's Contest Academy, Bob has developed new techniques and technologies to enhance logging and score-keeping software and to advance SO2R (Single Operator, 2 Radios) operating, along with the efficiency of software defined radios, CW Skimmer, the Reverse Beacon Network and more.

CQ Contesting Editor David Siddall, K3ZJ, presented Hall of Fame plaques at an induction ceremony held at the annual Dayton Contest Dinner on 20 May. This year's inductions bring the total number of members of the CQ Contest Hall of Fame to 69.

The 2017 inductees to the **CQ DX HALL OF FAME** are:

- Bill Moore, **NC1L (SK)**. The ARRL's DXCC Manager for over 20 years. A public face of the program at hamfests around the world, Bill was also a major contributor behind the scenes, leading the transition from DXCC paper records to a computer database, then years later, guiding a major upgrade to the system that is in use today. Bill was severely injured in an auto accident in 2014 and became a Silent Key last year.
- Jerry Rosalius, **WB9Z**. An accomplished DXer and DXpeditioner, he has "worked them all" with the exception of North Korea, and participated in multiple major DXpeditions, including seven that were named as "DXpedition of the Year" by the Southwest Ohio DX Association. He is a frequent speaker at club meetings and hamfests and regularly makes his home station available for training new contesters.

CQ DX Editor Bob Schenck, N2OO, presented Hall of Fame plaques at an induction ceremony held at the annual Dayton DX Dinner on 19 May. This year's inductions bring the total number of members of the CQ DX Hall of Fame to 71.

DXCC REINSTATEMENT OF MIDWAY AND KURE ISLANDS • On 31 March the ARRL announced that Midway and Kure Islands had been placed on the list of DXCC deleted entities [425DXN 1353]. "The stated reason for this action", the ARRL reported on 11 May, "was because of changes in the administration resulting from changes in Papahānaumokuākea Marine National Monument", which includes Midway and Kure. "After further review it has been found that the deletion of these two entities is not

supported by the changes that were made to the relevant administrations. Therefore, the deletions from the DXCC list should not have occurred and the two entities, Midway Island KH4 and Kure Island KH7K, will return to the DXCC list as separate entities". See <http://www.arrl.org/news/midway-and-kure-islands-reinstated-as-dxcc-entities>.

E51LYC • Cezar, VE3LYC went QRT from Pukapuka (OC-098) on 23 May around 12.30 UTC. He has uploaded the log (5,612 QSOs) to Club Log and enabled the OQRS: <https://secure.clublog.org/logsearch/E51LYC>. "For the most part I removed the dupes which occurred within minutes", he says. "Please email any report of errors, omissions, or any questions directly to me. I will check the information and reply to every message as quickly as possible".

INDEXA NEWSLETTER • The Spring 2017 edition of the International DX Association's Newsletter (INDEXA) is now available for download at www.indexa.org/newsletters.html. "NEW" BARC ADMITTED TO IARU MEMBERSHIP • The member-societies of the International Amateur Radio Union have

approved a proposal to admit the Belize Amateur Radio Club (<http://barc.bz>), a new representative of the Radio amateurs of Belize, to IARU membership. Belize previously was represented in the IARU by another organization of the same name. Once the IARU Administrative Council determined that this earlier organization no longer existed, IARU Region 2 accepted an application for membership from the new BARC and confirmed that it satisfied the requirements of the IARU Constitution and Bylaws. The officers of BARC are Emil Rodriguez V31ER (President), Dr. Andre T. Scholz V31DL (Vice President and IARU Liaison) and Steven Harp

V31SH (Secretary). There are now 167 IARU member-societies in as many countries and separate territories. [TNX IARU Region 2]
